—The fountain is gushing.

—Tesman troupe at Oswego to-night.

—Gov. Woodford at Washington Hall next Wednesday evening.

—Carriages will be in attendance at the Fireman's ball on Friday evening.

—If Owens is properly supported, as we believe he will be, it will be the finest entertainment of the season.

—Albert A. Davis, of Henderson, was nominated by the Democratic Convention this afternoon as Candidate for Member of Assembly from the First District of Jefferson County.

—While a lady and gentleman were on their way home night before last, they were attacked by two unknown ruffians who threw a stone, which came very near hitting the young lady on the head. How is this sort of thing to be stopped?

—The friendly game of base ball played between the White Stockings of Dexter and a Watertown nine, Tuesday, resulted in favor of the former by a large score on both sides The game was a "muff" affair, and showed a lack of practice on the part of the Watertown boys, and want of skill on the part of the other club. They may play again.

BIG SHEEP.—Mr. John E. Wilson of Hounsfield, killed a sheep last week Thursday that weighed 149 lbs dressed.

PLEAD GUILTY, Bailey the Pillar Point man, who interfered with the mail a few weeks since, by pounding the carrier. We receive the news by a telegram, and also that he is sentenced; but what the sentence is, telegram does not state.

MRS. HUGHES has a few words to say today in our column of "new advertisements." Her rooms at No. 4 Arcade, fairly shine with her new stock of fall styles in the millinery line now coming in, and something more and and finer is on the way. Her new fall hats are said to be "just the thing," and in sash ribbons especially she will not admit herself to be excelled in variety, or undersold in price.

Among the ladies of Watertown, Mrs. Hughes millinery is as familiar as a household word.

THE MINSTRELS of the female persuasion were greeted with a full house last evening, and the performance was a success and satisfaction—to the many. It was something new to see silks and poplins and merinos, ladies' faces, waterfalls, curls, where we have so often met the gaze of unadulterated burnt cork, although there was enough of the "nigger minstrel" element present to keep us contented. Two-twelfths of the actors were adorned in the face with that blessed color of black, we so much feared we should not see. The "end men" were the pure, the middle man a "poor white"—but the rest were "all—all be-e-autiful creatures."

Here was a real New York concert saloon—pure "Bowery Varieties"—spread out before the gaze of Watertown's admiring hosts. The old jokes were got off by the black men, the "pretty waiter girls" sang their "sweet" songs and danced their pretty dances, a daring female stood upon a pyramid of bottles, and whirled the platters; another proved herself a well balanced character on the slack wire.

The jigs and jokes gave joy, but the man with the banjo was the favorite, and without him the troupe would be without its best funmaker.

The afterpiece, "Wanted—1000 Milliners," created some merriment but was very poorly done.

It is needless to say that the good little boys who sit on the back seats were there in force and if their dear little feet are not poulticed to-day, it is not because they did not make an earnest effort to kick the plastering off down below. Dear little fellows! Bless their little soles!

Can not Mr. Sherman or the police put a stop to this everlasting stamping and whistling? It destroys the pleasure of sitting in his beautiful hall and is characteristic of brute places.

Motion was here made by I. M. Beaman, duly seconded, that the Convention adjourn to meet at this house on the 5th day of October, 1870, at 1 o'clock, P. M., so that a chance be offered for the towns not represented to consider whether in view of all the facts, it it is not better for the purpose of harmony, that all prejudices be laid aside, and that the Republicans pull together in the ensuing election as of old.

Mr. Cooper at the suggestion of several delegates, and with the unanimous consent of the Convention, made some remarks, in which he thought, although he had no authority to speak for any element, that an adjournment of this Convention would be productive of a future harmonious Convention.

Hon R. B. Biddlecorn, Thomas Keenan and several others here spoke in favor of an adjournment, when the question was submitted, and the motion was unanimously carried.

It was moved and carried that these proceedings be published in the Republican County papers.

WM. CHRISTIAN, Chairman.

A. A. GIBBS, J. C. FULTON, } Secretaries.

EGG PLANT.—John Parker, Esq., of Sackets Harbor, on presenting us the very largest specimen of fruit of the egg plant that we ever saw, said, that he did not bring it to the County Fair out of consideration of Mrs. Starbuck, who had on exhibition some very fine fruit of the same kind. Under these circumstances, we hardly know which to praise most, Mr. Parker's fruit, or his gallantry. Certainly, both will bear the highest encomiums. That golden-red tomato which Mr. Parker left at the same time, was a bouncer, and as esculent as it was large. We like that kind.

JEFFERSON CO. AT THE STATE FAIR.—Mr. Robert Brodie, of Smithville, carries off 2d premium for best Ayrshire bull over 3 years; James M. MORNING REPORT.

RUSSIA AGAINST GERMANY.

Cabinet Meeting in London.

Lord Lyons Fearful.

He begs interferance before all Europe is in Flames.

ALSACE AND LORRAINE.

DESTITUTION IN FRANCE AND GERMANY.

MOVEMENTS OF THE PRESIDENT.

Hartford, Conn., 29.—President Grant and family, with Mr. Felt and daughter, left Boston yesterday afternoon at three o'clock in the directors' car. At Springfield they were met by ex-Governor Jewell, of this city, and the party arrived here at 7:50 o'clock last evening and went immediately to Gov. Jewell's residence. Thursday morning they will go to Farmington, where Miss Nellie Grant and Miss Felt will be placed in Miss Porter's school. The President and Mrs. Grant will leave for New York Thursday afternoon. On Friday the President will participate in the Farragut obsequies; Saturday he and Mrs. Grant goes to West Point, and returning to New York will leave for Washington Saturday.

Interest on the Public Debt.--Revenue Receipts.

New York 29.—Some months since Secretary Boutwell issued an order, which is still in force, and which he says shall remain in force, that all interest due on the public debt will be paid sixty days in advance of date upon which it is due with a rebate of the interest at the rate of six per cent. That is, if a person is entitled to $3 interest he must rebate the interest of sixty days on this $3, at the rate of 6 per cent per annum.

Revenue collections for this month, up to and including yesterday are $11,992,017.77 and will probably reach $180,000.00 in the next two days.

From July 1st up to and including yesterday collections were $50,866,601.30; estimating collections for next two days at $1,000,000 will make total collections for first quarter of present fiscal year nearly $52,000,000 which is over $4,000,000 more than for the same quarter last year.

Destitution in Germany and France.

London, 29.—Dr. Gueist, who has recently made a tour of inspection through Rhinish Prussia, Hanover, Baden and Hesse, makes an earnest appeal to the charity of all Germans, for the people of those countries. He says that the towns are crowded with helpless women and children, who come in to beg for bread. The fields are left untilled, and villages are swept clean of food by the armies.—His picture of these regions of victorious Germany is scarcely better than that given by others of the vanquished districts of invaded France. The prices of all necessaries of life have gone up threefold.

Murder Trial.

Hartford, Conn., 29.—James Wilson, the murderer of warden Willard of the State Prison, pleaded not guilty yesterday in the Superior Court. He said he desired to conduct his own defence, but Judge Minor assigned A. P. Hyde and D. S. Calhoun as his counsel. Wilson's trial will take place next Wednesday.

Political.

Evansville, Ind., 29.—The largest audience that has been in the Opera House for years, assembled last night to hear Vice President Colfax, who spoke for 2 hours.

Alsace and Lorraine.

Ostend, 29—The troops of Baden, which have been besieging Strasbourg, after leaving garrison in the city, will be sent to clear upper Alsace of armed peasants and sharp shooters, who are perpetrating great excesses and seriously annoying the rear of the German army.

Special received at Brussels from Berlin states that Alsace and Lorraine are to be treated as German federal provinces under the immediate administration of federal authorities, and to be represented in the German parliament by commission; also, that no military service will be required of the inhabitants. It is added that the publication of these ideas has excited a storm of indignation from the radicals, which has led to several arrests.

Despatches from Munich state that chancellor Delbruck has so far failed to conclude a treaty for effecting a closer union between Bavaria and North Germany. Reports are also received from Stuttgart of very serious manifestations there against the policy of annexation.

Russia Against Germany.

LONDON, Sept. 29th.

The government has information from its agents on the Baltic, that the military preparations which Russia has been making so openly, and with such extraordinary energy are directed not against Turkey, but against Germany. This information is confirmed by private advices and it is certain that there is great alarm and uneasiness at Berlin.

The following troops of Russian army are announced to have been echelonned along the Prussian frontier during the past 3 weeks. Two divisions of the Infantry of the guard, under Lieut. Gen. Baron Moeller Sakomelsky. Three divisions of the Grenadiers, of the guard under Lieut. Gen. Prince Touhon Mouvaroff. One division of the cavalry of the guard under Gen. Prince Galitzine. 12 divisions of the infantry of the line under Lieut. Gen. Von Egger. Five divisions of the cavalry of the line under Lieut. Gen. Count Von Cretz. 2 parks of engineers and 15 parks of artillery under Lieut Gen. Kuyscheff.

It is also announced that a force of a hundred and fifty thousand Cossacks, the most terrible light troops of the world has been called under arms, and squadron of the Baltic is ready for active service. These statements are made in government circles and they are accompanied with still more

ALARMING INTIMATION

that the Russian Minister at the court of Berlin has been instructed by Prince Gortschoff, to present a formal demand to Prussia for a full and categorical explanation of her purposes and policy in pursuing the war with France. In this demand, it is stated that the government of the Czar declares it to be quite impossible that Russia can regard it as a question solely to be decided between Germany and France what the limits of either power shall be, that the future of Russia not less than the past makes it the

DUTY OF THE RUSSIAN GOVERNMENT

to protest against, and if necessary, to prevent any change in the equilibrium of Europe which would embarrass freedom of action of the Russian Government, and particularly that Russia will never suffer the fixed boundaries of the European States to be disturbed in obedience to the subversion and perverse doctrine of nationalities so called.

THESE RUMORS ARE CONFIRMED,

and their ominous significance deepened by appearance in the St. Petersburg Gazette De La Bourse of an article printed in a form which gives to it the air of a semi-official manifesto, which uses this threatening and explicit language:

"Prussia with her frontiers on the side of France guaranteed and neutralized Austria to protect her south-eastern flank, will be in a position so to dispose all her strength as to check and easily to paralyze the action of Russia. In presence of so grave an eventuality, Russia must and will provide at once against any possible future."

The Eolos of Moscow says also the eastern question can wait—there is no pressing necessity for a solution in that quarter. It is on the Rhine to-day, that the knot of the eastern question waits to be cut at one decisive blow.

Cabinet Meeting in London.

New York, 29.—A special says the cabinet meeting in London, which was to have been held on Friday, has been called for to-day, in consequence of the urgent dispatches from Lord Lyons, British Minister at Tours, who beseeches England to interfere and compel a peace, before all Europe is set in flames. Lord Lyons represents in the strongest terms the growing desperation and rage of the combatants and the perils to Europe of such projects as are now openly avowed by the German Government.

Italy.

New York, 29.—The story that Italian Government had made advances to any power before the occupation of the Papal states is denied. It is believed it originated in the fact that Italy addressed a circular letter to Italian Representatives at Foreign Courts setting forth absolute necessity of her interference at Rome, to secure public order and independence of the Pope, not less than the rights and liberties of the Roman people, and pacification of Italy. The object of Count San Martina's Mission to Rome was to urge the Pope to recognize the good faith of Italy in this matter. There is some discontent in Florence at the disturbance created in Volnes by the approaching withdrawal of the Court and government to Rome, and some of the papers urge the municipality to suspend work on the grand exterior Boulevards.

It is understood that King Victor Emanual will make his entry into the Eternal city immediately after taking of Plebiscitum, this result being regarded as a foregone conclusion. The Evangelical society here have petitioned for permission to remove at once to Rome.

☞ LETTER FROM HON. J. MULLIN, Judge of the Supreme Court:

WATERTOWN, March 7, 1870.

W. M. SMITH, Esq:

Dear Sir—Noticing a letter from the Hon. W. C. Pierrepont, in regard to Dr. Bissee's Elixir of Rhubarb, I would say that I fully coincide with him in saying that it is an excellent medicine, performing fully all it is promised to do, and that I use it in my family. Yours truly, J. MULLIN.

AFTERNOON DESPATCHES.

France and Prussia.

London 29.—It is understood that Alsace and Lorraine, upon entering the German confederation, will be represented by commission, and exempted for the present from all federal burdens.

The Telegraph has a baloon special from Tours, dated Wednesday evening, representing that the Prussians are retiring towards Paris.

Great confidence existed in Paris.

Times this morning has a special dispatch, giving the following intelligence:

On the 27th the French made another sortie from Metz. The forces consisted of cavalry and artillery, and was protedted by the guns of the North Squelen and and Bottes. The French advanced to the Arslequeux, where the Prussians were encountered.

Another severe conflict ensued, which resulted in the defeat of the French, tho' they carried off their wounded and dead, and all the Prussian prisoners they had captured.

The village was burned by the shells.

Siege guns which have lately been in position before Strasbourg are being hurried forward to Paris. Some of them have already arrived.

The Prussian cavalry have gone forward from Strasbourg.

Prussian headquarters around Paris are given as follows: King William at Ferriers, Crown Prince at Versailles, Saxony at Grand Trembly.

Carrier pigeons are now the only messengers between Paris and Tours. The balloons offered too fair mark to Prussian riflemen.

The railway between Chalons and the German border has been relaid. In other directions toward Paris the work is vigorously pushed.

Baden troops claim the credit of the capture of Strasbourg.

Berlin, 29.—Three opinions prevail in Germonp in regard to the question of the terms of peace. One party agrees with Bismarck that wer ought not to stop until Alsace and Lorraine, including the fortified city of Metz are annexed to Germany, whence they were taken. Another party demands that Metz and Strasbourg be dismantled, and that France indemnify Germany for the costs, and the third party limits the territorial demand to Alsace and the narrow strip of Lorraine where the German is the prevailing language.

Brussels papers deny the existence of any excitement there on account of the failure of negotiations between Favre and Bismarck, London Times is the author of the rumor.

Tours, 29.—A report having reached here of the capture of Strasburg, the government this morning publishes a dispatch from the French Consul at Basle contradicting it. The Consul says the Prussians had made three tremendous but unsuccessful assaults on Strasburg, in which they suffered heavy losses. He says the flag subsequently displayed as a truce to bury the dead, gave rise to the rumor that the city had capitulated.—Communication, however, is cut in all directions, and the fall of Strasburg is by no means impossible.

Notwithstanding the denial of the Consul at Basle, there is strong belief that the rumor is not altogether groundless.

Advices from Havre received to-day state that the merchandize remaining in the warehouses in that port is protected by the Consuls of the neutral countries, who have hoisted their respective flags.

A huge electric light revolves at night, lighting up the entire bay and batteries around it. Enormous chains protect the entrance of the harbor.

A meeting of the Prefects of the Departments of Manche, Orne, Sarthe, Mayence, Vendee, Maire, Et Loire, and of those of the old Province of Brittany, was held yesterday, at which still further measures were taken for national defence. Organization is progressing rapidly. Companies of thirty men are being received by the government, and allowed to choose their own officers and act independent of the regular force; and if circumstances demand it, these companies will be united under one command.
