Ask Doctor Blackwell

Got a question about sex that you need answered? Can't ask anyone else?

Write me at herald@hws.edu

Dear Dr. Blackwell,
I've been watching TV and whenever there are ads for different medicines, some of the warnings include sexual side effects. What are sexual side effects? Does that mean if I take Advil for a hangover, I won't be able to get it up?
From,
Sexually Side Effected

Dear Mr. Effected,
No, you won't receive any sexual side effects from taking Advil! Have no fear, it will merely clear up your headache and any other body soreness that you might be experiencing!
Sexual side effects are found in medicines that deal with depression, lowering cholesterol levels, lowering blood pressure, or psychotic illnesses—not over-the-counter medications like Advil or cold medicines. There are warning labels as well on these medicines making you aware of the side effects, which are not just limited to sexual ones. Sexual side effects can encompass a range of activities such as a decrease in libido, difficulties in becoming aroused and erect, and a disruption in ejaculation. If you are experiencing any of these side effects due to new medicines, tell your doctor. Many sexual side effects do not get reported due to embarrassment, but really what's embarrassing about sex? Consider yourself lucky to be getting laid!
On a related note, birth control pills lose their effectiveness if the woman taking the pills is on antibiotics, so be extra careful ladies when you are sick!
Hope this helps!
From,
Dr. B

Review: Friday the 13th

By Ethan Guralnick '11
Herald Contributor

I have to say, I'm not a fan of horror movies, or of the Friday the 13th series. I understand this series has a huge following, but it is just not my thing. The new Friday the 13th is like the 20th in the series, but it is more of a remake for our generation, as was the Texas Chainsaw Massacre film back in 2003. It's not like Hollywood wants to make more money out of the series or anything.
The film opens with a group of teens camping by Crystal Lake, with the legend of Jason being retold to the audience. Of course, Jason appears, and everyone dies; and so the carnage begins. Months later, the brother of one of the murdered campers is looking for his sister in the area. Along the way, he bumps into a group of college kids partying at a cabin along the lake, who engage in terrible activities such as fornication and the use of illegal substances. Those darned college kids causing trouble; they deserve to die. Well, no worries, that's Jason's job. And basically that's the plot, you can't really expect much from a Jason flick.

watch Jason flicks for the acting, dialogue, or cinematography. The series is known for having ridiculous deaths. A famous one being in "Jason Takes Manhattan" when he decapitates a victim, then throws the head behind his back into a basketball hoop. Well, I was disappointed as this movie went for the more realistic kills. Death in itself is a horrifying thing, so to say I was bored by the lack of creativity of the kills seems insensitive. But for a Jason movie, it was pretty bad.
There were a few interesting things about the movie though. As this movie is a reboot for the series, it felt like they were reintroducing the character of Jason. In this movie, we see him find and put on the famous hockey mask. Another thing was that the movie on the overall scale of horror movies had a more realistic feel to it. The rest of the series has been very cheesy, but this one had a more gritty, realistic feel and look to it. It seems most horror movies these days have been adapting this approach. I guess it scares people more when it feels like someone in your neighborhood could do this.
Overall, the movie itself was boring, with bad acting as expected and poor action sequences. Not my cup of tea. But if you're a Jason fan I'd say wait for the DVD. 3/10.

Now, let's be straight, people don't exactly

Garfield Minus Garfield

Who would have guessed that when you remove Garfield from the Garfield comic strips, the result is an even better comic about schizophrenia, bipolar disorder, and the empty desperation of modern life? Friends, meet Jon Arbuckle. Let's laugh and learn with him on a journey deep into the tortured mind of an isolated young everyman as he fights a losing battle against loneliness in a quiet American suburb.
