

HOBART COLLEGE

ESTABLISHED 1822

The College plant, with the addition of the NEW GYMNASIUM and the BIOLOGICAL and PSYCHOLOGICAL LABORATORIES, will in 1908 be complete in every respect, and the Faculty will at the same time be greatly enlarged. The Library has just received a single gift of 4,000 valuable books, and now contains 50,000 volumes.

The new Regents' College Entrance Diploma admits to all courses, the Arts Diploma to the A. B. and Ph. B. courses, and the Science Diploma to the B. S. Course.

Hobart has in use for the aid of deserving students about \$200,000, which provides for seventy scholarships, worth in most cases \$100 or more.

For Catalogues and Illustrated Bulletins apply to the Registrar, Prof. A. A. BACON, A.M.; all other correspondence should be addressed to President LANGDON C. STEWARDSON, LL. D.

WILLIAM SMITH COLLEGE

Will be opened in 1908 by the Corporation of Hobart College for the separate instruction of women.

ARTS (A.B.) and SCIENTIFIC (B.S.) courses, to which the new Regents' College Entrance Diploma gives full admission.

THE EQUIPMENT includes complete Biological, Psychological, Chemical and Physical Laboratories, and a large Library. One Dormitory on the beautiful Smith Campus is now nearly ready and another will be erected forthwith.

Illustrated Bulletins and Catalogues sent on application. Address all correspondence to Prof. MILTON HAIGHT TURK, Ph.D., Dean of William Smith College.
