A community is reflective of the duties of the people in it. Recently, the St. John Fisher community continues to show its commitment to improving the lives of those in and outside our school. Whether through fundraising or on-campus events, the students, faculty and staff of SJC never fail to show they care. The Relay for Life raised more than $25,000 that will go to finding a cure for cancer. Students, faculty and community members joined forces for one of Fisher's biggest annual fundraisers. Expectations were exceeded when over 35 students and advisors decided to be proactive. They signed up to travel to New Orleans and help rebuild the city that was so devastated after Hurricane Katrina hit. The group will depart on May 7.

Keeping the roots in Fisher's Catholic tradition, the Passionist Pioneers showcased another performance of the Living Stations of the Cross. The group dramatically reenacted the last hours of Jesus' life, providing both a spiritually entertaining and educational lesson. The Resident Student Association's (RSA) annual Little Siblings Weekend was a huge success, and brought possible future generations of Fisher students to enjoy a weekend with the current ones.

The Art Club's Arts and Java to New Orleans and helpKatrina hit. The group will depart on May 7.
