A BOWLING TALE

BOWLING is a game of skill and chance, and the people who play the sport are often as diverse as the games themselves. The game is played on a 60-foot lane, with a ball that has a weight of 6 pounds. The object of the game is to knock down all the pins in the 10th frame. If the 10th frame is not enough to determine a winner, then extra frames are added until a winner is declared. The game is typically played between two teams of four players each. The teams take turns bowling, with each player bowling three balls in each frame. The total score is the sum of the scores of all the players on a team, and the team with the highest total score wins. The game is also known for its unique social atmosphere, with players often engaging in friendly banter and friendly competition.

Meet Frank Lupi, a Bowler with a Problem-

A Left-Hander
