

CHINAMAN SLAIN, HIS BODY STUFFED INTO CANVAS SACK

Pong Tom Is Found in East Side Hallway, His Face Badly Mutilated.

Strangled in true Oriental fashion with a slender cord, his face and neck repeatedly hacked with a hatchet until his features were scarcely recognizable, Fong Tom, chef in the home of William Shivers of the Southern States Oil Corporation at No. 171 West 57th Street, was murdered early this morning somewhere on the lower east side. His body, trussed into a small compass, was found tied in a canvas sack in the hallway of the tenement at No. 81 East Broadway about six hours after death.

Fong lived with half a dozen of his countrymen in a flat at No. 36 Division Street. These gave the information which led to the discovery of the Chinaman's place of employment and Mr. Shivers was called up at the oil corporation's office, No. 350 Madison Avenue, to identify the body as that of his servant.

At the Division Street apartment one of the Chinamen said that Pong Tom came home last night about ten o'clock and then, quite contrary to

custom, went out again almost immediately. He never came back. The dead man came from Canton and had been in this country about five years. His friends said he belonged to no Tong, did not gamble and "had no girl."

The body was discovered in the East Broadway hallway by Mrs. Vincenza Arnone, janitress of the tenement, about 9 o'clock. Her son, August, opened the sack, which was one of the kind used by sailors for their duffle, and Pong's body came to light. It was warm even at that time.

The murder brings to mind that on Aug. 17, Ko Low, National President of the Hip Sing Tong, was shot to death in Pell Street. The police are remembering this in the investigation they are now making. Also, they know that killings among the Chinamen of the city occur over women and gambling. But Tong feuds are, perhaps, the chief cause of them.

YALE DENIES RACIAL BARRIER

Scholarship and Character Only Requirements.

NEW HAVEN, Sept. 22.—Yale officials deny that Yale had any entrance restrictions against Jews or Negroes such as those of which Harvard has been accused. Prof. C. B. Tinker pointed out, however, that as Yale and Harvard were private and not State institutions they had every right to choose their student personnel.

Prof. R. N. Corwin, Chairman of the Board of Admissions, said: "Our entrance requirements are based strictly on scholarship and character. There is no discrimination made because of race, religion or previous circumstances. One cannot speak of the future, however."

Cat a Witness In Eviction Suit

Effort to Dispossess Aged Woman Because of Her Three Pets Fails.

Tom, a big black cat, described by Mrs. Matilda Petersen, seventy-nine of No. 152 Steuben Street, Brooklyn, as "her pal and her interpreter," halted eviction proceedings instituted against her to-day by Mrs. Mary Lockhart, who lives in and owns the dwelling where Mrs. Petersen resides.

Tom accompanied Mrs. Petersen before Justice Doughty in the Second District Municipal Court this morning when Mrs. Lockhart declared Mrs. Petersen, because of her three feline pets and the fact that she burned candles instead of gas, was "an undesirable tenant." She asked Justice Doughty to compel Mrs. Petersen to get rid of her cats or move. Upon hearing the defendant, Justice Doughty dismissed the case.

"I am seventy-nine," Mrs. Petersen said. "Because of the poor gas fixtures in my rooms and the fear that when I am out during the day my cats may be aphixiated, I have been burning candles."

GERMAN PHYSICIANS NOW CHARGE FEE OF 3 LOAVES OF BREAD

WEIMAR, Germany, Sept. 22 (Associated Press).—Barter is replacing the use of money in Germany as a result of the depreciation of the mark.

The Weimar board governing the agricultural schools at Triptis and Marksuhl has fixed the tuition for the winter terms in rye instead of in money. The Saxon Thuringian Power Company has announced that it will receive, instead of cash, ten eggs, three pounds of wheat flour or a quarter of a centner (hundred-weight) of potatoes for each kilowatt hour of electricity consumed.

Naumburg and Braunschweig physicians state that henceforth all rural patients will be expected to pay for medical attention in produce at its pre-war cost. In 1914 a physician's call cost about five marks. At that time this would buy ten loaves of bread or three pounds of butter. The same quality of bread is now selling for 100 marks a loaf and butter is retailing at 360 marks a pound. Thus the pre-war fee in bread would to-day be the equivalent of 1,000 marks, and in butter, 1,080 marks.

Gov. Edwards Proclaims Oct. 2 to Oct. 9 as Date.

TRENTON, N. J., Sept. 22.—In ac-

cordance with President Harding's recent proclamation, Gov. Edwards to-day designated the period from Oct. 2 to Oct. 9 as "Fire Prevention Week" in New Jersey. He called upon municipalities to co-operate with Chambers of Commerce and other civic organizations in arranging exercises to impress the occasion's importance upon the public mind.

The Governor asked all residents of the State to participate by removing rubbish and litter and other fire hazards from about their homes and places of business, and urged that they foster a habit of personal carelessness in eliminating possible sources of fire.
