## THE WESTERN OUTLAWS.

A Proclamation for the Benefit of Cowboys.

WASHINGTON, May 3.—The special meeting of the cabinet resulted in the issuance of the following proclamation by the president:

"Whereas, it is provided in the laws of the United States that whenever by reason of unlawful obstructions, combinations or assemblages of persons in rebellion against the authority of the government of the United States, it shall become impracticable in the judgment of the President to enforce, by the ordinary course of judicial proceedings, the laws of the United States within any State or Territory, it shall be lawful for the President to call forth the militia of any or all States, and to employ such parts of the land and naval forces of the United States as he may deem necessary to enforce the faithful execution of the laws of the United States, or to suppress such rebellion in whatever State or Territory thereof the laws of the United States may be forcibly opposed or the execution thereof forcibly obstructed; and

"Whereas, it has been made to appear satisfactorily to me, by information received from the Governor of the Territory of Arizona, and from the general of the army of the United States and other reliable sources, that in consequence of unlawful combinations of evil disposed persons who are banded together to oppose and obstruct the execution of the laws, it has become impracticable to enforce by the ordinary course of judicial proceeding the laws of the United States within that territory, and that the laws of the United States therein are forcibly opposed and the execution thereof forcibly resisted; and

"Whereas, the law of the United States requires that whenever it may be necessary, in the judgment of the president, to use the military forces for the purpose of enforcing the faithful execution of the laws of the United States, he shall forthwith, by proclamation, command such insurgents to disperse and retire peaceably to their respective abodes within a limited time;

"Now, therefore, I Chester A. Arthur, president of the United States, do hereby admonish all good citizens of the United States, and especially of the territory of Arizona, against aiding, abetting or taking part in any such unlawful proceedings, and I do hereby warn all persons engaged in or connected with the said obstruction of the laws, to disperse and retire peaceably to their respective abodes on or before noon of the fifteenth day of May."

## West Shore Strikers.

NEWBURG, May 3.—There is an extensive strike of laborers at Cornwall. The men demand an advance of 25 cents a day. The strike began among Italians and other whites who went along the line, compelling the negroes to desist from work. Most of the latter would have returned but for fear of the strikers. Trouble being apprehended, Sheriff O'Dell of this city, was appealed to by the authorities and proceeded to the scene, leaving word with Captain Dickey to call out the militia if necessary. Several of the ringleaders were arrested, and many negroes on being promised returned to work this afternoon.

No disturbances are thus far reported. The contractors will have a considerable force working tomorrow, including many negroes and some contented Italians. Five hundred men were engaged in the strike.

Ladies be on the look out for the grand opening of French pattern hats and bonnets, which will take place at Mlle. Jerome's establishment on the 4th and 5th of May. Mlle. Jerome has engaged Mademoiselle Marie Parent, a French milliner of experience, who will without doubt please her customers.

## Suicide at Suspension Bridge.

A special dispatch to the Buffalo Courier says that William Allen, a resident of Niagara Falls, Ont., unmarried, and aged about twenty-five, committed suicide about three o'clock Tuesday afternoon by jumping off the centre of the Railway Suspension Bridge. The unfortunate young man had been out of employment for some months, but had found employment recently in the Indian bazaar and photograph gallery of Mr. Redpath, near the new bridge on this side of the river. He drew his salary to the amount of eleven dollars on Friday evening, and since then had been drinking freely. It seems that he asked his sister for some money this morning and was refused. He left the house and was afterwards seen on the street in a state of intoxication. In this condition he wended his way across the bridge, and, returning about three o'clock, pulled off his overcoat, hung it on the frame-work of the bridge, and made the terrible leap into the river and was seen no more. A man driving a coal cart over the bridge at the time witnessed the whole affair, but was unable to reach the man in time to prevent him from committing the act of self-destruction. Some three years ago while employed as a clerk in Atwood's Western hotel, he shot himself in the head with a revolver, but came off with a scalp wound.

## Miss Jerome's Millinery.

Miss Jerome who for several years has been in the millinery business, never displayed a more beautiful stock than is on exhibition to-day and to-morrow, at her handsome store in the Walker block. Every variety of hats and bonnets, for old and young are displayed at prices varying from the most costly to the most economical. Many of the hats and bonnets are perfect specimens of the milliner's art and create a feeling of admiration in the feminine heart, such as is only brought out by a look upon things so beautiful. Miss Jerome has the assistance of Mlle. Parent, a French Milliner whose excellent taste is exhibited in much of the work. The store is beautifully trimmed and a visit to it will well repay the ladies of Batavia who have an eye for the beautiful.

The value and quality of the furniture and the fact that it must be sold, makes a visit to the hall advisable for all who need anything in the line. ## A Serious Charge.

Yesterday Deputy Sheriff Bloodgood of Genesee came to Batavia and arrested a young fellow named Charles O. Howell of Fowlerville, Ont. It is said, a warrant charging him with a felonious assault. Young Howell came to Batavia Wednesday night, registered at the St. James. Yesterday morning he left town leaving his valise at the hotel and returning in the afternoon. During his absence a telegram was received here asking if he had been seen. An affirmative reply was sent, and later in the day the officer put in an appearance and made the arrest. The Sheriff and his prisoner left last evening for Genesee. Young Howell appears to be a respectable young man. His father is a well known Livingston county hotel-keeper.

## The "Practical" Difference Between Poetry and Philosophy.

It sounds very poetic to say, "Man's Inhumanity to Man makes countless thousands mourn," but why not apply the principle to the more practical side of the subject and render the quotation thus: "Yates' humanity for those that are suffering from the effects of wearing ugly shaped boots and shoes, furnished by persons that do not understand their business, has and still continues to make countless thousands happy by furnishing them the most perfect easy fitting boots and shoes, that would almost make the lame leap for joy." There would be sound logic in this. But poets are never cheerful, are they?
