MISCELLANEOUS.

BELLEMONT,

DONIPHAN COUNTY, KANSAS,

ON THE

DIRECT ROUTE

TO THE

GOLD MINES AT PIKE' PEAK

And Cherry Creek.

THIS TOWN IS SITUATED ON THE MISsouri River, directly west of the city of St. Joseph, Mo. The river at this point runs due east and course of four miles, and making the turn at St. Joseph, runs in a south-westerly course back again to the Nebraska on the west side. The peninsula thus formed is liable to be and has been entirely overflowed, which makes the nearest available town site on the west side of the river distant from St. Joseph. Bellemont is connected with the latter city by the best steam ferry on the Missouri River. The Hannibal and St. Joseph Railroad has passed by Bellemont during daily on both sides, and is completed with the exception of fifty miles in the center, which is being finished as rapidly as possible. The journey from New York city to Bellemont will then occupy ONLY FORTY HOURS, and the way by rail.

This town must necessarily become the distributing point for a very large extent of the two Territories, including the GOLD REGIONS. Although it is now only a year old, large warehouses are already erected and filled with goods, and the merchants are doing a thriving business. Building materials of the best quality are abundant, as well as excellent water. Parties looking to the sale or investment can find no more favorable point to Kansas lots can now be had as reasonable as the real estate is rising in value every day. The Town Company are actively engaged in grading the streets, and intend putting one of the best stone levees on the whole length of the Missouri River.

JAS. R. WHITEHEAD, Pres't.

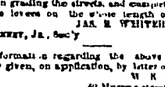
JOS. PAXTON, JR., Sec'y

Any information regarding the above point will be cheerfully given, on application, by letter or otherwise, to

W. R. MARVIN,

1836 40 Morris st, New York.

Buffalo File Works.



S. COLLERSON,

(Late Young & Collerson.)

FILE MANUFACTURER,

MEDICAL.

To Hand.

EVERY DISEASED MAN AND WOMAN SHOULD READ THE FOLLOWING.

PROFFS BOLLES & CHAMBERLIN WOULD say to the diseased, of body and mind, that they are permanently located at the ST. JAMES HOTEL, BUFFALO, and are prepared to treat, Electropathically, all diseases, either chronic or acute. They solicit no patients except those given up everywhere else as incurable. The reader might here ask, do they really cure such cases, or are their statements false? Have they cured any such cases in Buffalo, or are their cases all on paper and star off? In reply they would say they have cured, and are curing every day just such cases. They have restored to health a great number of persons in Buffalo, who have been suffering from various diseases, five ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of "medical profession in all parts of the world. The reader might here enquire by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital organs by drugging the stomach, but by a direct application of the positive and negative polarities of Electricity. Again, it might be asked, has not electricity been employed as a remedial agent for years, both in Europe and the United States, with indifferent success? And, are not numbers now using it, in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only, and uncertain even in these. There has been no fixed principle for applying it, and, therefore no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a species of miracle, by those ignorant of its first principles. The ignorance displayed in the administration of this highly potent agent, is unpardonable.

The current has been generally applied through the hands of the patient, in such a way as to convulse the whole nervous and muscular system, and frequently producing irreparable injury, sometimes it has been applied by means of metallic conductors to different parts of the body with the result to a person unacquainted with the effect upon the nervous system is similar to that produced by over-doses of Strychnine or Quinine

Everything connected with their mode of applying electricity is new and original with themselves. They simply apply it to the electrical laws of life, health and disease, is new. Their reliable method of for the diagnosis of disease by electrical contact is new.

It is also, their important discovery in the use of the positive and negative polarities to the human body for the safe and speedy removal of all diseases.

All is new and unknown to the medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work—no uncertainty, and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily

Instruction given to those desiring a knowledge of this method of curing disease.

Address Proffs. BOLLES & CHAMBERLIN St. James Hotel, Buffalo, N. Y

se6 d&w3m

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP,

For Children Teething,

which greatly facilitates the process of teething, by softening the gums and reducing all inflammation—will allay ALL PAIN and spasm—is safe, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves, and RELIEF and HEALTH to YOUR INFANTS.

Price 25 Cents Per Bottle

We have put up and sold for over ten years, and can say in truth of it what we have never been able to say of any other medicine, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO AFFECT A CURE when timely used. Never did we know an instance of dissatisfaction by any one who used it, but on the contrary all are delighted with its operation, and speak in terms of highest commendation of its medical virtues. We have frequently been requested to certify to the above, but have never deemed it necessary, preferring to let the article speak for itself, fearing that certificates might be considered as mere puffs, but now, after ten years' trial, we think it due to the public to say what we do, and we do it cheerfully, for we know what we say. In almost every instance where the infant is suffering from pain, relief will be found in fifteen or twenty minutes after the Syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED NURSES in the United States, and has been used with NEVER FAILING SUCCESS in THOUSANDS OF CASES

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, WIND COLIC, AND OVERCOME CONVULSIONS, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething or from any other cause. We would say to every mother who has a child suffering from pain, DO NOT LET YOUR PREJUDICES stand between your child and relief, but try the SOOTHING SYRUP, and be satisfied of its merits by its use, and the relief that will be experienced. In no instance will it be known to fail in the most severe case of DYSENTERY OR DIARRHŒA IN CHILDREN, if the Syrup be given in time. While we do not wish to prejudice the mind against the various remedies used for the above complaint, we feel it our duty to say that we have no hesitation in recommending this article as containing no opium or any of its preparations in any form whatever, but on the contrary is perfectly harmless, and as pleasant to take as sweet milk. In fact, all who use it say it operates like a charm, and that it is the only medicine that gives entire satisfaction. In all cases of CHOLERA INFANTUM, (so fatal during the summer months,) if the Syrup be used in connection with proper REGULATION OF DIET, the cure is certain. Full directions for using will accompany each bottle.

CAUTION.

Be sure and call for MRS. WINSLOW'S SOOTHING SYRUP, and take no other kind. Prepared and sold by MRS. WINSLOW, at her Medicine Warehouse, No. 13 Pine street, New York, and for sale by druggists throughout the world.

Principal Office, No. 13 Pine street, New York.
