☞ See first page for reading matter.

☞ See Telegraph on third page.

Remember!

Democrats will bear in mind the meeting and pole raising at the corner of Fifth and Carolina streets this evening.

☞ Great Land Sale.—We wish to call the attention of our readers to the sale of the property and effects of the Black Rock Land and Rail Road Company, embracing about five hundred acres of choice land, which is to take place at the old Court House in this city, to-morrow, (Saturday,) at nine o'clock in the forenoon. These lands are principally within the village of Black Rock, and offer great inducements as investments, from being rapidly rising in value.

☞ Books Wanted.—It will be seen by an advertisement in this evenings *Post* that the Buffalo Catholic Institute solicit donations of books. The association is designed to furnish the large Catholic portion of our population at a trifling expense the means of access to books which they have not the ability to purchase individually, and to cultivate among that class a taste for reading and study. Books given to the Institute cannot fail to do good.

☞ Fire.—About one o'clock last night a fire was discovered in the brick building No. 395 Main Street, east side, owned by John Miller and occupied as a Cabinet Warehouse by the German Union Association. A small room was partitioned off one corner of the front which was used by a shoemaker as a workshop. The second and third stories were occupied by the family of one of the members of the 'Union.' The fire commenced in the shoe-shop and must propably have originated from some defect in the stove as the floor near the stove seemed to be first burned. It spread rapidly to the Cabinet work which was entirely destroyed. The roof of the back part of the building was nearly burned up, and great thanks are due to the firemen for the strenuous exertions which prevented the flames from spreading to the adjoining wooden building next south.

The stock of Cabinet Ware was insured in the Franklin Fire & Marine Company for $800, which will not cover the loss. The shoe-shop was also insured in the same Co. for $100. Mr. Miller's store next north and his stock of stoves and tin-ware are considerably damaged by fire and water. He had insurance of $1,500 on each of the stores, in the Buffalo Mutual. Loss probably $2,000.

☞ Grapes.—Some of the richest clusters of grapes we have seen this year were at the store of W. J. Lavery, No. 360 Main Street this morning. They were grown in Clarence and their appearance rather goes to show that with careful culture wine might be produced in our vicinity though not perhaps of so good quality or so cheap as in Southern Ohio and Indiana. The ladies who wish grapes for jellies or for table use should go to Lavery.

☞ Excursion.—The Hydraulic Sunday School postponed its Railroad excursion to the Falls from this, till to-morrow morning. Tickets for the excursion can be procured at the Niagara Falls Railroad office.

☞ Thanks.—We are under obligations to Mr. E. L. Spencer of the American Express Company for San Francisco papers to Sept. 11th.

☞ Gough will deliver a temperance lecture at the 1st Presbyterian Church this evening.

Democratic Meeting Last Evening.

In spite of the drenching rain the live democrats of Buffalo answered to the booming of the cannon at six o'clock by repairing, in large numbers, to the head quarters, where they organized by chosing the following officers:—

President—DYRE TILLINGHAST.

Vice Presidents—J. Spencer, of the First Ward, C. T. Rand, of the Second, Patrick Smith, of the Third, M. Friday, of the Fourth, C. S. Chapin, of the Fifth, L. J. Ham, of Amherst, O. Lockwood, of Boston, J. Hascall, J., of Brant.

Secretaries—H. Seymour, Jr., Jas. O. Braytman and Stephen Albro.

The meeting was eloquently addressed by G. W. Clinton, H. S. Cutting, H. Seymour, Jr., Eli Cook, A. P. Nichols, and Orrin Lockwood, Esqrs., as well as by Mr. Lowry of Erie who told how the "fire in the rear" from Pennsylvania was conducted.

A series of spirited resolutions introduced by A. P. Nichols, Esq., were adopted. The meeting was in the best of feeling, confidence of success in November could be read upon every face; and the meeting broke up with roof-raising cheers for our tickets.

☞ Eagle Street Theatre.—In consequence of the illness of Mrs Muzzy the managers were obliged to substitute the "Stranger" for the "Winter's Tale" and those who come to see Mrs. Warner's Hermione had their money refunded. The audience though not a crowded one was large and fashionable. The Mrs. Haller of Mrs. Warner and Stranger of Mr. Ryer were received with the most generous plaudits.

The entertainment this evening commences with the effective play of "Ingomar" in which Mrs. Warner takes the part of Parthenia, to be followed by "Uncle Tom's Cabin," which seems likely to be highly popular with the Buffalo public. Application should be made during the day, to secure seats.

☞ Metropolitan Theatre.—The second night of the new house was one full of encouragement to manager Smith. Though the evening was very rainy and uncomfortable the attendance was large—larger than could have been expected. The play of "As you Like it," was performed very satisfactorily, and the beautiful part of Rosalind afforded an excellent opportunity for Mrs. Mowatt to display her talents and win the admiration of her auditory. Mr. Smith made his first appearance here, in the farce, and at once established himself as a popular low comedian.

This evening the bill consists of Talfourd's admired tragedy of "Ion," in which Mrs. Mowatt has won the most unqualified praise both in this country and England; and the pretty farce of Perfection. A rare good bill.

☞ Concert this Evening.—The finest and most perfectly executed sacred music which has ever been produced in this city may be expected at Townsend Hall this evening by the members of the Musical Convention under the direction of Professors Hastings and Bradbury. This will be the last opportunity of hearing the Convention during the present session and we anticipate the room will be crowded.

☞ The Canal Meeting, proved as we expected, a purely Clapp-trap movement designed to commit the democrats of the 1st Assembly District, to support the representative of the contracting party for Assembly against I. T. Hatch who last year denounced the project of devoting the $9,000,000 of the earnings of the people of this State for the support of political parasites. But the bait though well toasted did not take. The Hon. S. M. Burroughs had not the pleasure of inducing any democrat to cut loose from the party; and the result of the election will not probably be flattering to his self-esteem as a persuasive orator, swaying the popular mind.

The friends of Mr. Clapp must try another system of tactics.

Amusements Last Evening.—Besides the two theatres there were last evening the Concert of the Musical Convention at Townsend Hall, the Democratic glorification over State elections, the Canal Meeting at the Court House, a black-faced imitation of negro dancing and singing. Pretty well for a rainy night. Very little necessity of evening schools after that list.

☞ Turtle.—Thomas at the Red Jacket showed a monster Green Turtle this morning. He looked well—wonder how he will taste?

☞ A Fall.—A man named Grote fell yesterday from the Roof of a new building in Ellicott Street to the ground hurting himself considerably but not fatally.

Hosmer, the Bard of Avon, made a Whig Speech at Rochester last evening. Hope his speeches are more interesting than his poetry! If not we pity Rochester Whigs.

Two thousand dollars is stated to be the sum Mr. Thackery will receive from the Mercantile Library Association of New York for his lectures before that body.

Proceedings of the Board of Supervisors.

At their Annual Meeting for the year 1852.

Wednesday, Oct. 13—2 P. M.

Board met. Minutes read and approved.

By Mr. Hascall, the memorial of Charles B Rich, Commissioner for erecting Bridge upon the Tonawanda creek near Akron. Referred.

By Mr. Adams, remonstrance of John Sherman and 90 others, against the division of Collins.

By Mr Willis, the certificate of Lafayette Lamb and Elijah Lamb, Jr. in reference to the division of Wales and Alden. Referred.

By Mr Lockwood, the report of the County Clerk. Referred.

By the Chair, the Annual Report of the Superintendent of Poor:

REPORT of the Superintendent of the Poor of Erie County. October 1st, 1852:

Agreeable to the requirements of the Law of the State, we present you our Annual Report, which embraces the amount of the accounts that have been audited, amounting to the sum of $54,364 43. Of this sum there has been paid $4,938 27, leaving a balance due of $49,366 16 It also becomes our duty to ask an appropriation for such an amount as the said Board of Superintendents shall deem necessary for the support of the poor during the ensuing year. We therefore ask that you raise and place at the disposal of said Board the sum of $10,000, believing this to be the smallest sum that the said department can, with economy provide for the following year. We are not greatly surprised, when looking at the several causes which have operated to increase the sufferings of the poor, tha the expences have been enhanced beyond any previous year. The first of which was an extensive fire in the lower part of the city, in the month of November, which drove from their habitations, from three to four hundred families, composed of the poorest class of citizens. Soon followed a long cold winter, which increased their claims upon our charity, for fuel and other necessaries Adding to this the high price of wood with the unusual amount of sickness during the summer, are sufficient causes for the increased expense

For the evidence of sickness and mortality, there has been interred from the Alms House, city of Buffalo and Black Rock, 1,254, and from the other parts of the county, 41, at an expense of $3 per head, making the sum of $3,885 00

We have had an additional expense at our Alms House, having to move from the old to the new house at different times with an extra amount of clothing, bedsteads, and bedding, in order to place our inmates, in the new building in a more cleanly and wholsome condition To get rid of the old stock of impurities, we have made one hundred and seventy iron bedsteads, and now have in all two hundred and forty of this kind, sufficient to lodge four hundred or more

We have the satisfaction to say that we have entered upon our new premises with fair prospects and great hopes of bettering our condition The building standing on high ground, above the influence of a bad atmosphere from abroad, built in the most substantial manner, every way adapted to the use for which it was designed, sufficient for the accommodation of 800 or more, including the insane building Two wells have been dug, boring into the rock ten feet, furnishing an abundance of excellent water We have also laid eight large cisterns in water lime, completed with pumps as also the wells have Sewers and drains have been built to a considerable extent about the buildings and on the farm We are still in want of yard fences and wood sheds, which the Superintendents are in hopes to be able to erect before the setting in of winter

Seeing the necessity and great want of a barn sufficiently large to hold the products of the farm, the stabling the stock and a large under ground room for the purpose of roots and vegetables The Board of Superintendents feel bound to ask that your board would make the necessary provision for the building of one the coming season

Mr Warren, from committee on town accounts, reported sundry accounts for road damages in the town of Boston, and asked that same be charged to said town. Adopted.

By Mr Stiles, the report of Highway Commissioners of Aurora in reference to road damages to Horace Blood.—Referred.

On motion of Mr Woolson,

Resolved, That Charles E Young be and he is hereby authorized to publish in pamphlet form three hundred copies of the minutes of the proceedings of this Board, for the present year, including both the October and subsequent sessions, and which shall be a complete copy of the minutes of the Clerk, including the annual statements of the Clerk, and abstract of the town accounts and the various reports made to this Board, and that he be allowed therefor the sum of fifty-five dollars, he having preposed to deliver them for that sum to the Clerk of the Board, upon the reception of which the said Clerk is required to deliver eight copies to each of the members of the present Board and to reserve the remaining numbers for the use of subsequent Boards. Adopted.

On motion of Mr Godard,

Resolved, That the Springville Herald be added to the list of papers designated by this Board to publish proceedings of same during their annual sessions thereof, at an expense not exceeding fifteen dollars. Adopted.

By the Clerk, the following report in relation to number of acres in the several towns

To the Honorable the Board of Supervisors of Erie County, N. Y.

The undersigned begs leave respectfully to represent that at the annual meeting of this Board in 1851, he suggested to several members of the Board that the number of acres assumed to be contained in the respective towns in the county in the Equalization Reports for many years past were quite inaccurate, and advised that a committee from the Board be appointed to investigate the subject.—It was however intimated by several members of the Board that such a course might involve considerable expense, which they were unwilling to incur. But as it was supposed, I had already procured for the use of the county in the shape of Field Notes and Maps of original surveys the most if not all the materials necessary for a correct compilation of the number of acres in each of the respective towns in the county, a resolution, of which the following is a copy, was on the 8th day of December, 1851, adopted by the Board.

On motion of Mr. Wood.

Resolved, That in the opinion of this Board, it is actually necessary that the number of acres of land contained within the boundaries of each and every town in the county of Erie, should be correctly ascertained for future use and taxation—and that the Clerk of this board be, and he is hereby directed to take the most expedient and economical method in ascertaining the same, and report his doings to the Board of Supervisors of said county at its first session in October, 1852.

Adopted.

In pursuance of said resolution I have expended considerable time and labor in examining the Field Notes, Maps, &c., of the various original surveys of the lands in the county, and I herewith submit the result of my investigations in the shape of a table, showing in a simple abstract from the number of acres in each of the respective towns of the county, (with the exception of Tonawanda, Black Rock, Cheektowaga and West Seneca,) accompanied by a book containing my original figuring of the items on diferent surveys, comprising the several amounts or acres mentioned in the abstract

The reason that the above named four towns are not included in my abstract and calculations is simply this, the town and lot lines do not correspond. The Ogden company's survey of a part of this territory was made without reference to the civil divisions into towns.

There are some minor difficulties in other parts of the county in arriving at an entirely accurate result, but the date or surveys already made and which I have consulted, furnish the means of arriving at a sufficiently accurate conclusion for the practical purposes of this Board

In conclusion I have simply to say, that under all intimations that were thrown out by the Board at the time the above Resolution was adopted, I have not felt authorized to direct any new survey or incur any other expense than I have done in examining and compiling the surveys already made.

It will be perceived that there are some considerable variations from the numbers heretofore used.

In consideration of the premises, I would not only respectfully suggest the propriety but esteem it a personal favor, that this Report, together with the whole subject to which it relates, be referred either to a special committee or to the committee on Equalization to be carefully reviewed before being made the basis of equalization.

All of which is respectfully submitted.

NELSON HOPKINS.

Buffalo, Oct. 9, 1852.

Mr. Welch from the committee on Judges and Justices accounts to whom was referred the report of Peter M. Vosburgh, late Surrogate of the county of Erie, reported that said report is made out in items and duly verified according to law. That from said report it appears that said surrogate has received for fees of office from Oct. '51 to January 1, 1852, the sum of $422.08. That the annual salary as fixed by this Board is $1,200. That therefore it appears he has in his hands over and above his salary the sum of $122 08 which he is required by law to pay into the Treasury of Erie county. Therefore,

Resolved, That upon the production to the Clerk of this Board by P M Vosburgh, late Surrogate of Erie county, of the Treasurers receipt for the sum of $422.08 that the annual report of said Surrogate be received and adopted and said Surrogate discharged. Adopted.

Sundry accounts presented and referred,

Mr Hascall from committee on Constables accounts, reported sundry accounts. Passed.

Mr Welch from committee on Judges and Justices accounts, reported sundry accounts. Passed.
