Brevities.

— Croquet is now in order.

— Main street is being cleaned.

— As the roads improve trade will increase.

— Centennial handkerchiefs are all the rage now.

— Crowley's trial commences to-day (Wednesday).

— H. R. Davis now runs a bakery wagon. W. D. Schuyler is in his employ.

— Twenty-six tramps at the soup house Sunday night.

— T. C. Murray has sold his fruit store and news depot to his brother James C. Murray.

— Nat. Stimson, who has been west for the past four or five years, is home on a short visit.

— "Red, white and blue" carpet bags are among the developments of the Centennial year.

— The Centennial Committee meets in this village Saturday.

— Lecture at Christ Church Friday evening, on "Things Incomprehensible in Scripture."

— William J. Conroy, the famous witness in the Germond burglary trial, was in town last week.

— Persons who want to borrow money can now be told that there will be no more Lent this year.

— Charles Quackenbush, formerly with E. L. Adams, is in town, and will bake for Mr. Failing, our new baker.

— The Parish Society of Christ Church, will meet on Wednesday afternoon at the residence of Mrs. Dr. Chatfield.

— Regular meeting of Fort Dayton Steamer Company No. 2, Thursday, 27th inst., at 4 P. M. Trial of engine will be had.

— Mr. G. H. Failing, baker, has our thanks for a mess of splendid biscuit. He will commence baking some time this week.

— Services commence at 10½ instead of 11 A. M. at the M. E. Church. Prayer meeting is held before instead of after evening services.

— The average boy now vieweth his hoard of old iron and bones with the love of a miser for his gold, and yearneth for the coming circus.

— The base ball lover buckles up his sleeves, and with a despairing and mournful look at the last straight finger, goes in for the summer's fun.

— The Rector of Christ Church, will continue on Sunday evenings his lectures on Historic Christianity. Subject next Sunday, "The Ministry."

— An enterprising merchant advertises "leap year oil for front gates." Fathers who have three or four grown-up sons should make a note of this, for it is their front gates that must suffer this year.

— Thursday, Judge Merwin will render his decision on the motion made last week by S. S. Morgan, counsel for Albert Fredenburg, for a new trial. If a new trial is not granted, he will be executed the 12th of May.

— How much better it is to always pay your bills promptly. Tradesmen do not like to call "for that little account" any more than their customers like to be dunned, and it is far better to pay them without the necessity of a hint from them.

— The following are the officers of Grace church, Norway, elected Easter: David DuBois, Wm. Hadcock, Wardens; J. B. Root, L. La Rue, L. T. DuBois, W. Vandenburg, H. S. Burt, J. D. Ives, C. W. Nichols, Dr. C. J. Hall, Vestrymen.

— This is the time of year when every woman stops in front of the millinery store windows, and makes up her mind which hat she will have. It is also the time of year when every married man gives a passing glance at the same window, feels for his pocket-book and swears.

— One evening last week there was considerable excitement in the Court room, caused by a dense lot of smoke filling the room. It was reported that the court house was on fire, but it was afterwards discovered to be caused by a cigar stub which was thrown under the stairs in some rags.

— The first and second nines of the Adroit Base Ball Club, will play their first game of the season, on the County Fair grounds in this village, Friday afternoon at 2 P. M. Admission, 10 cents Proceeds to procure balls and bats for the clubs. Fun may be expected. Go and see them.

— Painters and wall-paperers now monopolize all that is comfortable in a house, while the "lord of the manor" puts up with cold bits and "lites" out through the back door covered with whitewash, and shreds of "illuminated borders" attached to his coat-tail tell him "spring is here!"

— Just as we go to press Tuesday, 2 P. M., we learn that three persons, John I. Snell, Culver Paterson and Michael Turner, were crossing the river in a skiff at Port Jackson, near Amsterdam, when the skiff was capsized and all three were drowned. Search is being made for their bodies.

— An experienced woman, who was about to move, had much difficulty in finding a place to suit her. She was well pleased with a house up town, but the back yard didn't give satisfaction. The fence didn't contain a single knot hole, and she said she wasn't going to break her neck by climbing on top of an old barrel to see what was going on in the next yard.

— This (Wednesday) evening the grand concert for the benefit of Herkimer Silver Cornet Band, will take place in Fox Opera House. The concert deserves the patronage of all, not merely because it will be a fine affair, but also because it is to help the boys. By going and patronizing them, you will not only get your monies' worth, but at the same time help them. A large number of tickets have already been sold, and there promises to be a large crowd in attendance.

☞ At Witherstine's you will find new Tomatoes, Parsnips, Spinach, Bermuda Onions, etc.

— Quite a large quantity of butter was offered on the market Monday, prices varying from 28 to 31 cents.

— Patrick Dorsey had two fingers badly crushed in Waite's paper mill, Tuesday morning of last week.

— Seventeen new converts were immersed Sunday afternoon by Rev. E. F. Crane, of the Baptist Church.

— Steamer No. 1 was out Friday afternoon to test the new rubber lined linen hose. It was accepted by the Board of Trustees.

— Prof. W. W. Baker, of Charleston, S. C., a graduate of the senior class of Union College, Schenectady, has charge of the academy.

— The last lecture of the Y. M. C. A. course was given by John B. Gough, Wednesday evening of last week. Although the number present was not large, the lecture gave general satisfaction.

— John Higgins, Pat McDougal and Mike McTully got into a street row the other afternoon, and bruised each other considerably. Two of them were arrested, but as the third could not be found they were released again.

— The cheese market here Monday, was very dull. Few cheese were sold. A quantity, both factory and farm, were sent on commission. Three lots sold at 8½c., two at 8c. and two at 7c. About 500 boxes is all were offered.

— Preparations are being made for the immediate enrollment and equipment of a Military Company in this village. The necessary funds are already largely subscribed and the matter is in the hands of parties who know no such word as fail.

— The late Dudley Burwell leaves by his will park property to the village of Little Falls, subject to the life estate of W. G. Milligan. Each member of the family receives a legacy, and a fund is left for the care of the family grave at Norway, his wife's grave at Ballston Spa, and $1,000 for a cenotaph for his wife to be erected in the park. He left about $15,000 beside the real estate.

— An adjourned meeting of the county centennial committee was held at the Girvan House, last Monday afternoon.—Hon. M. A. McKee was elected chairman and General J. E. Curtiss Secretary, *pro tem.* The committee from Little Falls made a motion to have the third day's celebration withdrawn from Little Falls, as quite extensive preparations are being made for a celebration in this place, on the Fourth, and it is impossible to get unanimous support of the town for a celebration at Herkimer. Owing to the small attendance the meeting was adjourned to reassemble at Herkimer, Saturday, April 29, at 11 A. M.

— Hon. Dudley Burwell died, Tuesday morning, the 18th inst., after an illness of two months, in the seventy-seventh year of his age, and was buried on Friday last. He was born in the town of Norway, in this county. Up to the year 1836 he resided in this county, and a portion of the time he practiced the profession of law in this village. In '36 he removed to Albany, and became attorney for the Albany City Bank, and during his career in that city gained for himself a good reputation as a "motion lawyer." He remained there fifteen years and accumulated a nice fortune and then removed to his native county, in 1861, and retired from the legal service. He represented his Assembly district in the Legislature of 1831-2. In the Circuit Court at Herkimer, Tuesday afternoon, appropriate eulogistic remarks in reference to deceased were made by Judge Hardin, Judge Loomis, Hon. Esra Graves, Hon. A. H. Prescott and Samuel Earl, Esq., and a memorial was prepared and placed on the minutes of the Court. The Court then adjourned, out of respect to the memory of deceased.

— On Tuesday, the 18th inst., the Baptists rededicated their remodeled church on Albany street. The exercises were begun at eleven o'clock A. M., when Rev. Mr. Stiffler, of Madison University, delivered the dedicatory address in the presence of the neighboring clergy, and fully nine hundred spectators. The exercises of the day were closed in the evening with an excellent discourse by Rev. C. De W. Bridgman, D. D., of Albany. This church was originally built about fifty years ago, and before repairs to it commenced last summer it was a rather antique appearing structure. The entire front of the building, which is built of stone, has been torn away and supplanted by a brick front, with ornamental stone trimmings after very neat architectural designs. Two towers adorn the front of the structure, one on either corner. One of the towers, eighty feet in height, contains the belfry and is surmounted by a huge cross. The basement is divided into a lecture or Sunday school room capable of accommodating five hundred persons, and a kitchen or culinary department for the convenience of festivals, etc. In the basement is located Warner's new steam heating apparatus at a cost to the congregation of $1,100. Of course the most noticeable repairs have been made in the auditorium, which is found to be provided with black ash pews with black walnut trimmings. The desirability of the pews is found in three improved designs, they being particularly shaped to suit the human form when in a sitting posture. The carpeting and upholstering are from New York, while the very excellent frescoing which ornaments the ceiling and walls was done by Messrs. Barnard's Sons, of Utica. A semi-circle gallery occupies one end of the auditorium, and has a capacity for seating three hundred; the church proper can comfortably seat 950. The windows are of stained glass in beautiful designs, and the building is lighted with thirty-six gas jets beneath a reflector suspended from the ceiling, and a slate roof covers the whole. The repairs have cost the congregation in the neighborhood of $8,000, and truly it can be said that the Baptists of this place worship in one of the finest churches in the Valley. About $5,000 was raised by subscription during the services.

— Considerable work is being done on the canal in this section.

— Nineteen persons were baptised at the Episcopal Church the 15th inst.

— Emmet Bennett, son of R. R. Bennett, fell and broke his left arm Tuesday of last week.

— This (Wednesday) evening, Rev. A. B. Earle will commence his evengelical services in the Presbyterian Church.

— It is reported that an eastern stock company has just been organized for the control and exclusive sale of the Remington sewing machine.

— The following are the officers of St. Augustine's church, elected last Easter: Wardens, F. C. Shepard, J. W. Newhouse; Vestrymen, J. L. Osgood, Wm. Onyans, W. R. Jenne, James Tuthill, Richard Winegar, Walter Baker, A. W. Haslehurst, Alfred Williamson.

— The Railroad correspondent of the Utica *Observer* says: It is probable that no manefacturing concern in the Empire State will have a more varied and extensive representation at the Centennial than the great Remington firm. For several months past they have given considerable of their attention to the preparation of articles in their various departments, to render their display at the exhibition equal to the best and inferior to none. The last car load for Philadelphia has been shipped. Though the exhibition of agricultural implements will doubtless be complete and attractive in every particular, their display of sewing machines, type writers, guns and pistols will be particularly so. The latter will be displayed in a novel and unique manner. Of course, every exhibiter will regard it as necessary to make the visitor acquainted with his name and address. The object will be met by the Messrs. Remington, who have had a sign of black walnut constructed which is forty-five feet in length and four feet in width, and divided into three sections of fifteen feet each to occupy and fit the end of an octangular hall. On this sign the name of the great firm is artistically arranged, with pistols and revolvers of nickel, gold and silver, mounted on a padded back ground of white satin. The sign is valued at about $5,000 and is so elegantly and cleverly designed that it will certainly attract particular attention from the thousands who will visit the building in which it will be located.

Richfield Springs.

— At the Democratic Convention on Friday, at Cooperstown, Messrs. Hon. M. Hooker, Wm. H. Ely and Edmund Ward were chosen delegates to the State Convention.

— The warm rain of Saturday night made away with many of our snow drifts, and we can now see an almost clear passage out of our winter confinement. Even patches of green are to be seen at rare intervals, giving us a faint conception of the beauties which will soon greet our eyes.

— The Presbyterian entertainment and ice cream sale at the house of Mrs. Conkling on Friday evening was quite a success. After a round of music, tableaux, recitations, &c., came the refreshments, and after they had been disposed of the audience were treated to a charade, in which the proverb, "when the cat is away the mice will play," was acted very successfully, and to the great amusement of those present, by several of our histrionic geniuses. The receipts were over $30, I believe.

— Within a few days a corps of workmen have been hired by Mr. Proctor, and they are now renovating the buildings and grounds of the "Spring House" with all possible speed. This early activity of Mr. Proctor speaks well for his enterprise, and shows that he does not intend to be behind hand, but wishes to have everything ready and comfortable for his guests when they arrive. Parker D. Fay, Esq., is also busy repairing and improving his recent purchase, having several "hands" employed. He, I believe, intends to keep boarders during the coming summer, and *all* must wish him success in his new business.

— These bright, pleasant days make the sap start from the roots of the maples and course to the topmost branches; or, perchance, it finds its way into the vessels placed for its reception, filling them to overflowing. Then the cool, sweet liquor is carried by men with yokes upon their shoulders, to great cauldrons, there to be boiled down into thick, delicious syrup or sugar. Now is the time for merry-making in the woods! What more pleasurable, than a glowing, crackling fire in the "sugar bush" at night, with a great kettle of boiling syrup sending up its delicious fumes to fill the air around, and great the olfactory nerves of a jolly party of young folks, gay as the larks, and making the the forest aisles ring with their mirth? What more exciting or thrilling picture than this same party gathered 'round the cool and glistening snow-bank, their faces and figures lit up by the glow of the blazing fire, looking with expectant and eager glances, while one pours out the steaming nectar upon the cold, white snow, there to be congealed into broad flakes of crisp, delicious wax. Maple sugar making is now in full blast, and the prospects seem favorable for a good season. The sugar is of a good quality, and is brought into the village in considerable quantities.

— Frank Aldrich is employed in the Telegraph office at Amsterdam.

— Mr. G. Waterman is to occupy Mr. Hosch's new house on Center Street.

— Mr. J. M. Bellinger intends to finish his steamer about the first of August.

— Dr. Powell has taken quarters with Dr. Lewis, and will practice medicine in this village.

— The house on Washington Street, formerly occupied by Frank Ford, is soon to be sold at Sheriff's sale.

— William Smith while at work in Trenbeth's carriage shop Herkimer, lost one of his eyes by accidentally hitting it with the point of a knife. Mr. Smith being an elderly man the accident is a severe and unfortunate.

— Dr. Thomas is recovering.

— They are at work on the lock, repairing it. Boatmen are looking anxiously for the time they can go on the "raging canal."

— The mud is drying up in our streets, and the 40 teams that the Frankfort itemizer for the Ilion *Citizen* saw stuck in the mud have gone home.

— Arthur Mengel, employed at Gates' upper mill, had two of his fingers on his left hand broken and the others badly bruised by being caught in the moulding machine, Wednesday of last week.

— The literary society met at the house of D. M. Kenyon. Question: Resolved, "That it is never right to do wrong." Decision in favor of affirmative. The following officers were elected: President, F. B. Parkhurst; Vice-President, E. T. Marsh; Secretary, R. J. Richards; Treasurer, J. S. Smith.

— Our school meeting Saturday night turned out a success. Our citizens attended nearly *en masse*. Good order and good feeling prevailed. Mr. Cooper, (architect,) from Utica, being present, gave to the audience a fine description of the proposed building from cellar to garret. His words were listened to with great deference. After him came the report of the committee, which was very favorable, informing them that they had received bids for its erection, the lowest bids amounting to $7,641. They then compared prices of this with other similar buildings, showing that this is a very favorable time for its erection. A motion was then made by J. J. Dudleston, Jr., that the report of the committee be adopted and that $7,700 be raised in four annual installments by law for the erection of a new school house. This motion was voted upon by ayes and nays, which resulted in 94 for and 39 against. The proposed building will be an honor to the place. It will be 44 by 70, made of brick. The committee are continued with the instruction to secure by contract the lowest bidders. They have discharged the duties committed to them in a satisfactory and congratulatory manner. Our chairman voted against the motion.

Newport.

— Mrs. Thomas Walker, an old resident, is suffering from a severe shock of paralysis.

— From present indications, Main street will assume quite a different appearance in a few months.

— Of the seventy pupils who were in the advanced department during the winter term, but twenty have returned to school.

— Quite a display of oratory on the street, Saturday morning. The periods were well rounded and listened to by an appreciative audience.

— In contradiction to the old adage, "That a house divided cannot stand," the wood part of the Hawkins Hotel is moving away from the old stone building, and yet both are standing.

— It was an act of wisdom on the part of the trustees of our school to place one so well qualified for the position as Miss Cora P. Sweezey, as successor to the efficient instructor and excellent disciplinarian who had charge of the intermediate department during the winter term.

— Newport has a newspaper called the Bi-Weekly Standard, a very creditable little sheet, published by Jackson & Wooster. The aforesaid paper, in commenting on the new bell, "thinks the herdsmen in this vicinity would do well to employ L. D. Browne to select their cow-bells." A good suggestion. The people are greatly dissatisfied that such an inferior bell should be placed in so fine a building. Will not our trustees or a committee appointed for the purpose, who have a just idea of the fitness of things, see that this great evil is remedied, and place a more appropriate bell in the tower of our new school house. If a better bell should be secured, we would suggest that there are more appropriate days to place it in position in the tower than the Holy Sabbath.

BROOKLYN, N. Y., August 16.

Gentlemen—It is with feelings of gratitude that I place before you a simple statement of my sufferings and cure from the use of the PERUVIAN SYRUP. I am forty years of age, and my occupation is that of a map engraver. About fifteen years ago I was attacked with what I suppose was a disease of the spine. I could not walk erect, owing to a great weakness which I experienced at the small of my back. My digestion became impaired, and by degrees my whole system became deranged. I suffered in this way for seven years, and then placed myself in the hands of eminent physicians. They treated me with mercury and many other strong remedies, but I grew worse instead of better.

In the spring of 1857, there appeared upon my back and side two large abscesses, and at this time I was also suffering from a very bad fistula; my whole system became utterly prostrated, when I was advised to try the PERUVIAN SYRUP. I commenced using it, and at once experienced great relief. I have taken three bottles of it, and every trace of my former complaints have left me. My system has regained its strength, my appetite has returned, and I feel myself completely renewed in age and vigor. In a word, my health is now perfect, and I can truly say that I was never able to do more work, and with greater ease to myself than at this time.

Yours respectfully,

JAMES P. COX.

"O, wad some power the gift to gi'e us,
To see oursel's as ithers see us."

☞ Behold that pale, emaciated figure, with downcast eye, like some criminal about to meet her fate! See that nervous, distrustful look, as she walks along with a slow and unsteady step. The pink has left her cheeks and the cherry her lips. The once sparkling, dancing eyes, are now dull and expressionless. The once warm, dimpled hands are now thin and cold. Her beauty has fled. What has wrought this wondrous change? What is that which is lurking beneath the surface of that once lovely form? Does she realize her terrible condition? Is she aware of the woeful appearance she makes? Woman, from her very nature, is subject to a catalogue of diseases from which man is entirely exempt. Many of these maladies are induced by her own carelessness, or through ignorance of the laws of her being. Again, many Female Diseases, if properly treated, might be arrested in their course, and thereby prove of short duration. They should not be left to an inexperienced physician who does not understand their nature, and is, therefore, incompetent to treat them. The importance of attending to Female Diseases in their earliest stages cannot be too strongly urged. For if neglected, they frequently lead to Consumption, Chronic Debility, and oftentimes to Insanity. In all classes of Female Diseases, Dr. Pierce's Favorite Prescription is without a rival. No medicine has ever surpassed it. In "The People's Common Sense Medical Adviser," of which R. V. Pierce, M. D., of Buffalo, N. Y., is the author and publisher, is an extended treatise on WOMAN AND HER DISEASES. Under this head, the various affections to which woman is incident are carefully considered, accurately portrayed, and a restorative course of treatment suggested. Every woman, as she values her life and health, should possess a copy of this valuable book. If she be diseased, this "Adviser" will show her how she may be restored to health, and also direct her how she may ward off many maladies to which she is constantly being exposed. Let every suffering woman heed this timely advice and *see herself as others see her.* Price of Adviser, $1.50 (post-paid) to any address.

IT PAYS

any smart man who wishes to make $2,000 a year on a *small* capital, to commence in our line of business. Roofing is a Specialty. There is no one in your county who carries on the business. You can learn it in one week by studying our instructions, which we send to all who ask for them. Any man having $100 capital to start with can purchase enough material to roof *three* ordinary houses. The sum realized from sale and profit on this supply, added to the regular pay for labor as roofer, should amount to not less than $200. An expert man could *easily* do the work in nine working days. Two persons of small means can join together to advantage: one canvassing, while the *other* attends to the work. Send for our book of instructions (*free* if you write *at once*), and *study* it. Ask for terms. If you are unable to advance the money, present the matter to the principal storekeeper *in your place*, and talk it over with him. He will be *glad* to furnish the stock and *divide* the profit with you. We will guarantee the territory to the *first* responsible applicant. Address N. Y. SLATE ROOFING CO., LIMITED, 4 Cedar St., N. Y., and mention. apr26w4

AYER'S

SARSAPARILLA

FOR Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Eruptions and Eruptive diseases of the skin, Ulcerations of the Liver, Stomach, Kidneys, Lungs, Pimples, Pustules, Boils, Blotches, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Ulcers, Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa, arising from internal ulceration, and Uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives—Stillingia, Mandrake, Yellow Dock—with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure,

Its ingredients are so skillfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, proves their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.
