Our Creamery is Bonded by the State of New York

Are You Losing Money?

April 1, 1927

To the Dairymen:

Last week we told you through these columns that after deducting banking charges, we paid on an average of 17 cents per can more than any other creamery in our territory.

This means that the dairyman who sells the milk to us is actually receiving from $1 to $2 a day more for his milk. Then why hesitate? We need all the milk we can buy and would appreciate your selling the milk to us as soon as possible.

Should the League not change milk prices during April, we will continue to pay $2.75 for 3.5 and 6 cents for each additional point.

Very truly yours,

LOUIS KADANS COMPANY, Inc.
