The Town Council can do more to help you

The Town Council should help relieve the burden our Senior Citizens living on a fixed income face from increasing inflation by giving them more tax benefits.

The Town Council should consider an attempt to bring in new small businesses to employ area people and widen our tax base.

The Town Council should prepare to take a common-sense approach to the inevitable problem of local zoning—avoiding the extensive, inadequate zoning and the more serious problem of too many restrictions.

The Town Council should encourage more citizen participation in local government and give the people more say about how their hard-earned tax dollars are spent.

A healthy two-party system, with each party acting as a watchdog on the other is a good one, and lets us see where we’re going.

The Town Council has not had a new member on it for ten or fifteen years. Maybe, it’s time to give it a change.

If elected Councilman I will be an independent worker for all the people of our town—regardless of party label.

ELECT

Tom Schimmerling
COUNCILMAN FOR THE TOWN OF MIDDLETOWN

Give me the chance to work for you.
