BATCHENOR, as usual, stands at the head, an unenviable place, surely. And this is due to the fact that the leading interest on a large amount of bonds issued over twenty-five years ago.	

### The population of Westchester County is officially given as 140,752. In 1890 it was 108,080.

The only counties in the State which exceed our population are:

New York.....	3,105,801
Kings.....	528,247
Queens.....	329,653
Brooklyn.....	199,428
Albany.....	191,455

### Mr. George A. Dellaves, former candidate for the superintendency of this town. He has, furthermore, gone on a trip to Florida and will not return until next fall.

### Lakewood, N. J., is one of the winter resorts which are now popular in the fashionable world. During this and next month it will be the height of its glory, among its visitors at present being Mrs. Horch of Chester Hill, their mother Mrs. Hornally and their daughter Annie.

### The City Island and Baiton Horse Railroad Company has applied to the Legislature for permission to build a line from Baiton to the Boston Post Road at Prospect Hill. The Public Commission is to go over the route to-day and report to the Legislature whether they approve or disapprove of the application. We hope the permission will be given. Then, when a bill is introduced to be widened and extended to Prospect Hill, the line can be run to Mount Vernon.

### STABE of Newark, the acting Clerk Earl in asking that the Village Trustee call upon the telegraph, telephone and electric light companies, to prominently mark the wires that cross the streets near the notable station of a few weeks ago, in a neat and timely. These wires, alas, are not portable, and like Bango's ghost, will not down. We can only conceive how they can be irreparably damaged. The more promptly the village is given over, and the debris taken away, the better for all concerned.

### The New York Times state a few days ago that through the efforts of the Law and Order League of New Rochelle, two of the ransackers in that village had been indicted for violating the excise laws and had pleaded guilty. The New York Times have also stated that the village had been fined one hundred dollars. This, the Times characterized as a great victory. We doubt the Chronicle characterizes it a great defeat. The law will have no terrors for the ransackers who violate it, until they know that in ordinary cases they will not, on conviction, be sent to the penitentiary. They laugh at fines just as they in the tide did at the old man who threw dirt at their feet.

### Accident in the Tunnel.

The seven o'clock train out of New York this morning, on the New Haven railroad, ran into the "shop train" on the old train track, near the station at Mt. Vernon, about 7:10 this morning, near 80th street, in the tunnel. The engine telescoped the rear car, and on being impressed the employees there, who were going to work.

Up to half-past nine each eight passengers were taken from the car killed or injured to death. It is feared there will be more. There were no injuries to the passengers seriously hurt. Colonel Hunt, who was almost killed, was slightly injured, but he was the only man who was not seriously injured. The main tracks are blocked by an engine that was thrown off the track. The train is running through the side tunnels.

## The Board of Trustees.

Last Tuesday evening was about as usual and unpleasant as one February morning has usually been. The weather, however, has produced—muggy, close, and, oh, so humid. The outside world is full of significance. Among the outsiders who lined the "waiting-boards," was Mr. Wm. L. Tonnison, who escorted him to the chair of Trustee B. McGraw, who has been deemed to participate from the sittings of the August bills. Your reporter was pleased to note that among those who made up a prompt group, was Mr. McGraw, who received the congratulations of his colleagues upon his return.

The usual business proceeded in order, the following bills being referred:

Present, President Sanford, Trustee Appel, Archer, Earl, Geddes, Howell, Johnson, MacGowan, McGraw, Mount Vernon, McGowan and Messers.

The Young Men's Meeting last Sunday afternoon had the largest attendance of any that has been held here. The committee on changes has taken up the work with new interest, and purporting this meeting the most interesting of the year.
