THE FARMER.
JAMAICA.
THURSDAY, JANUARY 27, 1825.
TO THE PATRONS OF THE FARMER.
A union of interest has been formed between the newspaper establishments of the STAR at Brooklyn, and the FARMER in this village, we shall hereafter adopt the former title, and the paper will be published in both villages on the same day as the Farmer has heretofore been. We have no doubt that this arrangement will give the most perfect satisfaction to our patrons, as the united exertions of both the publishers will be used to render the paper as interesting as possible, and every attention given to the local interests of this county. To our advertising friends this arrangement will be peculiarly advantageous, as their favours will receive a very extensive circulation throughout the whole island, being inserted in the papers of both places without any additional charge.

N. Y. LEGISLATURE.
IN SENATE.
Saturday, January 15.
REPORT ON THE ELECTORAL LAW.
Mr. Ogden, from the select committee to whom was referred that part of the Governor's message which related to the choice of electors of President and Vice-President of the United States, made a report, accompanied by a bill relative thereto.
[The bill provides, that at the general election next preceding the choice of President and Vice-President of the United States, there shall be elected as many electors from each congressional district as there are members of Congress from such district—what at such election, a separate ballot box shall be prepared for the reception of the electoral votes—that two electors corresponding with the number of Senators in Congress from each state shall be chosen, by the electors chosen from the different congressional districts; at the time of meeting of said electors, and that all vacancies shall be filled at the time of the meeting of said electors in the manner now provided by law.]
Wednesday, January 19.
The committee to whom was referred so much of the Governor's message as relates to General La Fayette, reported a bill authorizing the Governor to procure a full length likeness of the General, and to place it in some proper place in the capitol, and also authorizing the Governor to receive him in a proper manner on his arrival here, and to provide the means of facilitating his journey through the state, which they now ask leave to introduce.

...case of Small Pox, in Watertown, we deem it our duty to say something relative to a case which occurred in our village, on the 11th of December last. The woman, the subject of the case, to which we allude, went with her sister to New York, where she contracted the disease; she had never been vaccinated—her sister had; they were both equally exposed, but only one suffered. On the tenth day she sickened, and by the 25th of the same month she was literally covered with pustules; the symptoms became very alarming, and for four or five days the issue was doubtful; suffice it to say, it proved a genuine case of Small Pox. Two persons who had not been vaccinated, unwittingly exposed themselves to the contagion, but they were immediately vaccinated and experienced no inconvenience whatsoever. Upwards of 20 persons had access to her, and some of them repeatedly visited her, who had previously been vaccinated; one of them occupied the same room during the whole continuance of her sickness, and not one person has taken the disease. This is the more satisfactory when it is known that a great many children occupy the same house, not one of whom has suffered in the least, they having all been previously vaccinated. Such facts as these, and the following, we would think, are sufficient to satisfy the most unbelieving of the efficacy of GENUINE VACCINATION. Who can suffer their children to grow up exposed to so deadly, so distressing an evil as the Small Pox, without the least effort to guard them against it? What must be the feelings of such parents when their children, through their neglect, contract the disease and die with it? Well may they refuse to be comforted.

Congress.—The bill to abolish imprisonment for debt, on the question of its final passage in the Senate was lost—yeas 20, nays 23.
On Tuesday the 18th inst. in the House of Representatives, the following was agreed to, a committee of seven appointed.
Resolved, That a committee be appointed to prepare and report such rules, as, in their opinion, may be proper to be observed by the House in the choice of a President of the United States, whose term of service is to commence on the 4th day of March next, if, on that day, the vote given in the several states, in the manner directed in the Constitution of the United States, shall appear that no person has received a majority of the votes of all the Electors of President and Vice President appointed in the United States.
The bill for the relief of the Niagara...

HOUSE OF ASSEMBLY.
Friday, January 21.
The bill for the relief of Michael Francisco, granting him 200 acres of land for revolutionary services, was read a third time, and passed, yeas 107, nays 1.
Peru.—A letter has been received in this city, on which, it is said the fullest reliance may be placed, which states that on the 6th of October Lima and Callao were in the hands of the Royalists. It was supposed, however, that they would soon fall into the hands of the Patriots. Letters received in Philadelphia also assert the same fact.
A letter from Valparaiso received at Norfolk, states that a battle was fought on the 31st Sept. between Bolivar and Canterac—the two armies amounting to about 17,000.—The slaughter was prodigious, 3 to 5000 men being left dead on the field, two thirds of whom were of the royal army. Victory decided in favour of Bolivar.—Com. Adv.
Norfolk, Jan. 14.
From our Mediterranean Squadron.—The ship Mohawk, of and bound to Baltimore, 45 days from Gibraltar, went up the Bay on Wednesday morning. We regret to learn also by this arrival, that Commodore McDougall was in very low health at the time of her sailing, and that there was a great want of harmony among the officers of the squadron on that station. Midshipman Kerr had fallen in a duel, but with whom he had, the particulars we have not learned, or any other particulars relative to his unhappy affair.

SMALL POX.
We the undersigned, inhabitants of Watertown, consider it a duty we owe the public as well as an individual, to make a statement of the facts regarding a case of small pox which lately appeared in this town, and the tests of the efficiency of Vaccination lately made in this place.
On the 14th of November last, James Woodruff, son of Mr. Nathaniel Woodruff, of said town, was seized with the ordinary symptoms of fever, and on the 17th of the same month discovered conclusive symptoms of small pox; during and since this period there was a very general exposure to the contagion. Among them were three children of Mr. Woodruff, who were constant in their attendance on their sick brother.—A school-house within a few rods of Mr. Woodruff's abode, contained a large number of scholars who were exposed daily to the contagion. In consequence of the alarm which spread when the character of young Mr. Woodruff's complaint was ascertained, Dr. Sylvanus Fausser was employed to vaccinate all the inhabitants of Watertown, who had never had small pox. And on the 20th of said November, Dr. Fausser vaccinated all the persons who had been exposed, and the remainder of the inhabitants of the town during the following week. The consequence was that the small pox was not communicated to an individual in the town. Mr. Woodruff's family, and all others who had been so much exposed had the same result. It is ascertained that the small pox was communicated to Mr. Woodruff by a deranged man (by the name of Turner) who had recently been an inmate of the Almshouse, New-Haven; the same person to whom the contagion is traced in Bethany Society in the vicinity of New-Haven. He was at Mr. Woodruff's house precisely fourteen days before Mr. Woodruff's son broke out with small pox.

At a court of Oyer and Terminer, held in the city of Schenectady, on the 12th instant, John F. Van Patten was convicted for the murder of Mrs. Schermerhorn, on the 20th of October last, and sentenced to be hung on Friday the 25th day of February next.
Murder.—Mr. David Morgan was murdered in Peru, in this state, on the 23d ult. while on his return from the iron works. His horses returning home alone, alarmed his family, and search was immediately made. His body was found near the road, shockingly bruised, his skull fractured, and one eye broken. A short time previous, Morgan prosecuted four Irishmen for robbing his chard, and recovered four dollars, and when they were much exasperated, and once they observed that he (Morgan) had sold his life for four dollars. This circumstance led to their apprehension, and they have been lodged in the Plattsburgh gaol. A Coroner's inquest was held on the body, who, after a long investigation, could not agree. A second jury was summoned who returned a verdict "that David Morgan came to his death by accident."
Execution.—Jason Treadwell, was executed at Montrose, Pa. on the 13th inst. for the murder of Oliver Harper, in May last. He died without making any confession, and to the last moment declared himself innocent of the crime for which he suffered. He was retained the same hardened indifference he had characterized him, during his life, and conviction.
Of Friday week, while Mr. J. F. Rome, of New-London, aged 77, near the beach in close conversation with his son, who was on a visit to his aged parents, suddenly stopped, and laying his hand on the shoulder of his son, remarked that he was faint, instantly dropped down and expired.
The house and shop belonging to D. L. Willard, at Burlington, Vt. were destroyed by fire on the 11th inst. Loss estimated at \$1200.
On Tuesday week, the elegant dwelling-house of Charles W. Henry, Esq. at Geneva, was set on fire by an incendiary, and nearly consumed. Loss estimated at upwards of \$2000.
The Treasurer of the American Bible Society, acknowledged the receipt of \$350.00 for the month of December.
A letter from Wilmington of the 7th inst. states, that news was just received that the steamer boat North Carolina, from Fayetteville, had run ashore of a snag about 10 miles above Wilmington. She was loaded with cotton, sugar, and tobacco—the main run cargo, where the boat was lost, and the remainder saved.
