

This Institution is the oldest of its class in this section of the State, having been organized in 1820, and incorporated in 1826. The Academy Building is a fine brick edifice, ninety-six feet long, fifty feet wide, and three stories high. Its Chapel, Recitation and Music Rooms are beautifully finished. The apparatus is new and in complete order. The School is under the charge of Prof. B. S. Potter. The Winter term opens Dec 3d.

**Condensed News.**

—A letter from Fortress Monroe to the Boston Transcript says that 3,000 rebels had mutinied at Norfolk, and that the citizens are showing a disposition to fight under the old "gridiron." The same letter says that the Union flag was flying at Pig Point, where a formidable rebel battery has hitherto existed.

—A family letter received in Washington, dated the 25th of October, on board the frigate Santee, off Galveston, confirms the report of the capture of the pirate Sumpter. The writer says that she was caught in her own trap: It seems that she mistook one of the gunboats for a merchantman, and started in pursuit. When the gunboat had drawn her out far enough, she turned and ran her ashore. Her officers and crew are prisoners on board of the Niagara.

—A balloon reconnaissance on the Lower Potomac shows that the rebels have still a considerable force behind their batteries there, and thence for about twelve miles in the direction of Manassas.

—A large military force is concentrating at Annapolis. At least a dozen regiments are already at that point. It is supposed that if reinforcements are needed at Port Royal or Beaufort, these troops will be immediately sent on there, and if not needed at that point, possibly Gen. Burnside will command a new expedition, to be sent to another point on the Southern coast.

—The Cabinet has determined that hereafter no passes will be granted to Northern persons who desire to go South to endeavor to save their property from confiscation. This course has been deemed necessary, as facts have been shown that some Northern men who have been thus favored have given valuable information to the Secessionists. It is almost impossible to discriminate in these cases between loyal men and traitors, and the only way to remedy the evil is to refuse them all passes.

—Frederick Layton, an officer in the British army, was fined £5 a short time since at Bristol, England, for kissing Mrs. Elizabeth R. Martin, a passenger on the railway train between Gloucester and Bristol. The defendant and the lady were the sole occupants of the car, and during the passage the former engaged in conversation with her and suddenly kissed her twice. The defendant said he was elated and excited at the time the affair took place; but immediately he discovered that the lady was really outraged, he was most anxious to appease her anger and to offer any sort of apology.

—The Republicans and "Unionists" of Boston have nominated Edward H. Tobey, and the Democrats Mr. Wightman for Mayor.

—Seventeen years ago the Gospel was introduced into China. Now there are eighty Protestant missionaries, some fourteen hundred communicants, and three thousand Chinese Christians. It is supposed that within thirty years 100,000 Karens have been brought to the light and liberty of the truth. Facts like these should encourage the Church to put forth greater efforts for the salvation of the heathen world.

—The United States sloop-of-war Dale was spoken in lat. 30.40, lon. 80, and reported that three days before had chased a privateer schooner, but she out sailed the Dale and escaped.

—A Washington dispatch to the Philadelphia Inquirer says that a report had been received stating that at the Eibekton battle 2,000 prisoners were taken, and not 1,000 as first reported.

—Our weekly exportations of breadstuffs to Europe, amount to over \$3,000,000 weekly. This is the largest exportation ever known. It comes just in time, too, binding foreign nations to keep the peace with us, and affording the "sinews of war" in the shape of a handsome balance of trade, to fortify us in the work of crushing out the great rebellion.

—President Lincoln was burned in effigy at Zanesville, Ohio, on the 6th inst., in consequence of the removal of Gen. Fremont. The act shows the terrible intensity of feeling on this subject at the West, yet all right-thinking men will condemn it. No cause ever gained anything by such despicable acts.

—Five of the North Carolina regiments who were enrolled for the war have been disbanded, and surrendered their arms to the State. The Confederate Government gave them neither pay, food nor clothes, and the Raleigh Standard fears that the "other regiments will do likewise unless their demands are promptly met."

—The Louisville Journal reports that at the Federal Court, recently in session at Frankfort, the grand jury returned indictments for treason against thirty-three persons. Among the most prominent names indicted are John C. Breckinridge, Humphrey Marshall, Robt. J. Breckinridge, Jr.

—We learn from the New Orleans Delta of the 28th ult, that four persons in that city thought to be disloyal to the Southern confederacy, were sent for six months to the work-house.
