Silver and Gold

GUARANTEED MINING STOCK

FOR SALE.

THE SUBSCRIBER HAS FOR SALE

500 SHARES OF THE STOCK

OF THE

Oneida Montana Gold and Silver Mining Company,

AT $12 PER SHARE.

THIS COMPANY was organized at Utica, New York, in April, 1866, with a capital of $200,000, divided into shares of $10 each, and is managed by a Board of Thirteen Directors, comprising some of the best business men in the country. It has just completed a thorough preliminary development of the famous Gregory Mine of Colorado district, Montana, one of the largest silver bearing mines in the world.

The Company commenced in August, 1866, the construction of a tunnel one hundred and twenty feet in length, and reached the vein fifty-six feet beneath the surface; from this point a shaft was sunk to the depth of 150 feet, a gallery was then extended on the vein a distance of 106 feet, revealing a crevice 36 feet wide, a width only equalled by the great Comstock mine of Nevada, which is now producing upwards of fifteen millions of dollars per year in silver.

The Company having thus fully and satisfactorily tested the extent and capacity of the mine, is now erecting smelting works, which will be completed about the 1st of October next, with sufficient capacity to reduce 8 tons of ore each day, the next yield of which is expected to fully $800, or at the rate of $240,000 per year, of 300 working days, from this mine alone. The Company owns in addition to this, claims on the following Gold and Silver Mines:

Antelope,	La Mott,
Rothschild,	Black Tail,
Northern Belle,	Rio del Mont.
Sunburst,	Excelsior,
Jefferson,	Hartford City.
Starwano,	Axe,
Westmoreland,	Star.
Red, White and Blue,	Fenian Extension.

All of which are located conveniently near the "Gregory," and will be developed as rapidly as the interests of the stockholders will warrant.

The Company's stock is full paid, and those who are familiar with this property, are confident that the profits will be very large and returns speedy.

The present low price of the shares of this company, affords an admirable opportunity for the investment of a small sum in one of the most favorable mining enterprises of the day, the very large profits of which cannot be looked for in any other branch of business.

Persons desiring to invest, can remit to the subscriber $12 for each share they wish to buy, and receive their Stock by return mail, with the following guaranty:—

It is hereby agreed that the purchaser of the annexed shares of the stock of the Oneida Montana Gold Mining Company, shall receive dividends of this stock amounting to not less than fifteen per cent. within six months, from October 1st, 1867, the payment of which the subscriber hereby personally guarantees and agrees to pay on demand in case the same is for any cause unpaid by the company. The subscriber further agrees to give the purchaser of these shares the option of returning them to him at any time within sixty days, ensuing the expiration of six months from date and receiving for them the par value of each share less the amount the purchaser may have received on them in dividends from the company or as above stated.

Dated

Signed **Arthur B. Johnson.**

Farmers and others who desire perfectly secure investments, should not loose the opportunity to purchase a few shares of this Guaranteed Stock, which may within a year be worth *twenty times its present price*, and without risk of loss to the purchaser.

Full information and references to the leading business men and bankers of Utica will be promptly furnished on application to the undersigned. Address or apply to

ARTHUR B JOHNSON,

The following extracts from Montana papers will give some idea of the value of the company's property.

[From the Rocky Mountain Gazette, published at Helena, Montana, January, 1867.]

GREGORY LODE.

Work on the Gregory Lode is progressing under favorable auspices and some remarkably rich developments have been made within the past three days; 106 feet from the surface, 50 feet from the level of the tunnel, the "metal vein" has materially increased in quantity.—Judging from present appearances, Dr. Russell will be compelled ere long to "raise" native silver, and thus be relieved the necessity of using a smelter or quartz mill. A visit to the "Gregory" will demonstrate to the doubter that I have neither over estimated nor exaggerated, and will amply repay the time occupied, to those interested in quartz mining.

[From the Helena Herald.]

JEFFERSON CITY, M. T. June 3, 1867.

To the Editor of the Helena Herald:

Noticing in your last issue a notice of *our* "Gregory" lode, I thought I would give you the requisite information for a correct report.—The shaft upon claim No. 3 northeast, is now 150 feet in depth, displaying a ledge fully 18 feet in width, rich in lead, silver and gold. At present they are drifting along the course of the lode, saving the ore which they remove for working. All the lodes are silver bearing to a great degree, and the quartz assays highly of gold also; so that working the ore with a mill for gold alone would be profitable. I imagine this season will not pass without bringing machinery to us, and when once we can proclaim a "run," then will these deluded machinists wonder "where were their eyes!" when they might have profited thereby.

[From the Rocky Mountain Gazette.]

FROM JEFFERSON CITY

JEFFERSON CITY, M. T., June 2, 1867

Editor Gazette: Quartz continues to excite the usual amount of interest in this district, and several new companies, encouraged by almost fabulous assays of ores, have organized and commenced vigorous operations that promise ultimate success. Dr. Russell has resumed work on the Gregory, drifting on the metal vein, unearthing to the view a pile of glittering ore, which only awaits the action of proper machinery to transform it into bullion by the wholesale. I have visited the most prominent mining camps in Montana, and can safely say, without hesitation, that none excel Colorado district in richness of ores, and in no place could capital be invested with greater certainty of remuneration. This I say without prejudice or partiality, as I am not interested in the quartz mines, either here or elsewhere in the Territory, and merely express an opinion founded on personal observation. Time will demonstrate the truth thereof.

The Jefferson City Silver Mines, although struggling on without furnaces or mills, are being steadily developed and more positively proven from day to day, to be deserving the eager attention of capitalists. The noted Gregory Lode of this camp has been sunk on to a depth of one hundred feet, and shows a vein of extraordinary thickness as well as of undoubted wealth.

Specimens we have seen from that district are among the rarest of the whole catalogue.—But here, too, is felt the real and pressing wants of proper facilities for reducing the ores and extracting the precious metals.

☞Several "pricks" of Montana gold have recently been received at St. Louis. Among them is one valued at $9,600; two pricks, one weighing 452 and the other 453 ounces, valued respectively at $7,609.47 and $7,775 43, each containing 43-100 of pure gold. These pricks are the result of a lucky venture of a St. Louis typo.

Ayer's

Hair Vigor,

For the Renovation of the Hair.

The Great Desideratum of the Age.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color and the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. *Nothing can restore the hair where the follicles are destroyed*, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they *should be taken moderately to stimulate the stomach* and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Manhood: How Lost, How Restored.

Just published, a new edition of Dr. CULVERWELL'S Celebrated Essay on the *radical cure* (without medicine) of spermatorhœa, seminal weakness involuntary semenal losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also consumption, epilepsy, and fits induced by self-indulgence or sexual extravagance.

☞Price, in sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from thirty years' successful practice, that the alarming consequence of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure at once simple certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically. This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a *plain* envelope, to any address, post-paid, on receipt of six cents, or two postage stamps. Also Dr. Culverwell's Marriage Guide, price 25 cents. Address

MORTGAGE SALE.—Whereas default has been made in the payment of money secured by a certain indenture of mortgage bearing date 5th day of Oct., A. D., 1863, executed by Harris Burr of the town of Diana, county of Lewis and state of New York, to Harrison Austin of the town of Denmark, county of Lewis and state of New York, and which said mortgage with the power of sale therein contained was recorded in the clerk's office of the county of Lewis in Liber H of mortgages, at page 576, on the 24th day of October, 1863, at 8 o'clock A. M., and whereas the amount claimed to be due upon said mortgage at the date of the first publication of this notice, is $140 55, which is the whole sum unpaid on said mortgage, except $17.50 two years interest, and whereas no suit or proceeding at law has been instituted to recover the sum of money so due as aforesaid or any part thereof, and whereas said mortgage was given to secure the payment of the sum of one hundred and twenty-five dollars and interest from its date; and whereas said mortgage has been duly assigned to Howard G. Mantle, the subscriber, now therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage and duly recorded as aforesaid, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction, at the dwelling house on the premises hereinafter described, on the 7th day of Oct., 1867, in Diana, Lewis county, N. Y., at 1 o'clock in the afternoon of that day. The said premises are described in said mortgage substantially as follows: *All that tract or parcel of land situated* in the town of Diana, Lewis county, N. Y., on Great lot No. 964 of Great tract No. 4 of Macomb's purchase, commencing at the most southeasterly corner of a lot sold by David and William Gardner to Darius Woodard, on the north bank of the Oswegatchie river, a spruce post and stones marked D. CHEESE CURING AND PACKING CASE!

THIS CASE is simply constructed, and within the reach of any individual to make

The cheese is cured in a hoop instead of bandage, the hoop serving as a permanent covering for the circumference of the cheese, and in connection with a cover at each end as a box for turning, for storage and transportation, or the same hoops and covers will serve instead of bandage for many years.

This hoop is far better than a cloth bandage for several reasons: The *cheese dries* equally and does not dry out or become hard for a distance in from the circumference, all the expense of the cloth is saved, as a box must be provided in any event for transporting cheese; preserves its shape, the circumference being perpendicular; there is less shrinkage or loss in weight, and it is less trouble to take care of the cheese; there is no danger of mould, as there is no bandage of cloth for it to collect about; the cheese are more sightly.

The undersigned having patented the above Cheese Case, will sell or lease Factory, Town, County or State Rights to make and use the Cheese Curing and Packing Case. Samples can be seen at the residence of the subscriber in Lowville, N. Y., or upon application the undersigned will forward samples for exhibition to any part of the country.
