SURE I HAVE A PLAYGROUND; GIVE IT THE ONCE OVER

BUT WOULD YOU LIKE YOUR CHILDREN TO PLAY HERE?

An empty lot does not a playground make, to paraphrase the poet, although some folks seem to think that vacant lots solve all the problems of growing childhood. This kind of playground—the only kind that many children in our city know—does not make for health, safety or development of sturdy character, those invaluable products always resulting from properly developed and supervised playgrounds. Rather, such makeshifts (some of them are better and some are worse) breed disease, cause accident and are a constant menace to the morals of entire neighborhoods. Until we have a playground and recreation system which provides a safe, healthy, supervised place and program for intelligent capitalization of every child's free time, the future of our city will be menaced by a steady increase in delinquency, vice, crime, sickness, accident and insanity. These are chiefly the product of civic neglect of that most important phase in child life—the play time—during which character and health are either strengthened or wrecked.

Securing Loose Casters
Loose casters can be made secure by filling up the hole with melted paraffin and resetting the caster while the wax is still hot.

Announcing

a new service

for your convenience and comfort

New and wonderful labor-saving uses of gas and electricity have developed in the past few years. Even the most up-to-date home manager welcomes expert advice on the methods—and particularly on the appliances—by means of which gas and electricity take the labor of housekeeping off the woman's shoulders and place it where it belongs—on machines.

What our new service does for you

Our new service offered by our appliance department is established to give you information and assistance in getting full use of your gas and electricity. This department

- (1) tests all new appliances and offers for sale to our customers only those which give best service at most economical cost.
- (2) assures our customers of attention and service on all appliances bought from us—instruction, adjustment, repairs.
- (3) makes it possible for our customers to secure these appliances on small initial payments and small equal monthly payments added to the gas or electric bill.
- (4) brings to the attention of our customers such tested and guaranteed appliances.

Every customer is entitled to know about every gas and electric appliance

The prime duty of this department is TO HELP YOU KNOW what the various appliances will do and how each appliance operates. To be sure, this department will sell the appliances at the easy terms mentioned; but its very first duty is not to sell but to spread information. You are under no obligation whatsoever to buy.

In our showrooms, in your home, let us demonstrate the various appliances and their power to lighten the labor of house work. Telephone now. Ask us to send an expert who will show you how to operate any appliance we carry.

If you pay for gas or electricity, it is your right to know how any gas or electric appliance may serve you. Don't hesitate to ask. Telephone, write, or step into our store.
