As I See It

The world in the 1960s is a vastly different place from the world in the 1950s. The era of the baby boom, which began in the late 1940s, brought with it a new generation of young people who would shape the world in the decades to come. The world of the 1960s was marked by social and political upheaval, with the Civil Rights Movement, the Vietnam War, and the counterculture movement all contributing to a sense of cultural and political change. The world of the 1960s was also marked by technological advances, with the development of the internet, personal computers, and smartphones all changing the way people communicate and access information.
