Mrs. Mildred Jenkins
8 COURIER FREEMAN, THURSDAY, AUGUST 8, 1959

The secretary and treasurer re­
der by the sub-district president,

The meeting held last week in New
the evening's sponsor. He

ductions.

ing will be held in Syracuse, Oct.

The meeting was called to or-

SPRAY LESS and PAY LESS
with long residual

Why spray every day?
SPRAY LESS and PAY LESS
with long residual

DIAZINON
One spraying kills flies for 4-6 weeks

TRY SPRAY LESS with EFFECTIVE FLY CONTROL because our extensive trials of DIAZINON have shown that you can save in flies and kill less flies, and bring in a few cents more, too.

PAYS LESS with EFFECTIVE FLY CONTROL for those busy flies that cannot be controlled with DIAZINON. DIAZINON kills in 24 hours, but the flies are back in 2-3 weeks. DIAZINON will keep flies away for at least 2 weeks longer than DIAZINON.

DIAZINON is effective against flies, mosquitoes, fruit flies, wasps, and flies in the spring.

DIAZINON is not to be used against house flies or heavy fly infestations. It is not to be used on fruit trees or vegetables.

DIAZINON is to be applied as a dust, not as a spray.

DIAZINON is to be applied to the foliage of all plants except those that are poisonous to animals.

DIAZINON is to be applied to the foliage of all plants except those that are poisonous to animals.
