TROY AND BOSTON

Packets.

SCHOONER HENRY, WILLIAM GROZER, Master; **SLOOP KEAPER,** SAMUEL CHADWICK, Master, will be run the present season, as regular traders, between Troy and Boston.—For freight or passage, having good accommodations, apply in Troy to **T. B. BIGELOW;** in Boston, to **BIGELOW & BANGS,** No. 6 India-street, or to the Masters on board.
BIGELOW & BANGS will sell on commission any Produce that may be shipped to them, for which liberal advances will be made in Troy. **T. B. BIGELOW** will be constantly receiving large supplies of New-England Rum, warranted pure. Cod and Scale Fish, and Mackerel, Boston inspection. All of which will be sold on very reasonable terms.
T. B. B. will pay Cash and the highest prices for all kinds of coarse Grain, Timothy Seed, Green Peas, Beans, and W. O. Pipe Staves. Feb. 28, 1826. 3m30

Steam Transportation.

THE Steam Navigation Company have established a line of Steam Tug Boats, or Freight Barges, for the transportation of property on the Hudson river, and will commence business on the opening of the navigation. Boats of the first order will at all times after the first of April, be in readiness to receive property, near the foot of State-street, in Albany, and at or near the Coenties slip, in New-York.
Merchandise, Produce, Horses, Cattle, Carriages, and almost every description of Live Stock will be forwarded with safety and expedition.
The advantages of this mode of transportation and the arrangements of the company, are such, it is believed, as will secure a liberal share of patronage.
Insurance will be effected on property sent by this company, and arrangements are made with lines on the canal to forward property immediately on its arrival from Albany.
Property will be received, and contracts made, by **RICHARD M'MICHAEL,** on the Pier in front of State-st. Albany, and by **A. VAN SANTVOORD,** No. 17 Coenties slip, corner of Front-st. New-York. 3m31

TROY STEAM TUG BOAT LINE.

THE Subscribers have made arrangements for Freight, the ensuing season, with a line of

FREIGHT BOATS,

POWERED BY THE STEAM-BOAT

NEW-LONDON.

This Line will be in readiness to receive freight on the opening of the Canal, and will consist of six substantial Freight Boats, of light draft of water. The New-London has a powerful Engine, which gives an assurance that the passages will be made in about twenty hours—leaving New-York on **Wednesdays and Saturdays,** and Troy on **Mondays and Fridays,** taking two Freight Boats in tow each passage, which will leave at all times two Boats at Troy, and two at Coenties Slip, New-York, to receive freight. All freight by this line, either for the West or North, will be immediately forwarded, on arrival at Troy, by good established lines of Canal Boats, to their respective places of destination, and country produce received direct on board, and forwarded, without delay, to New-York. The experience of the past season gives to the public sufficient assurance of the facility of this mode of transportation, by which the currents, bars, and shoals are overcome, and the delivery of property is made certain, at a point seven miles above the termination of the Canal. The Subscribers deem it only necessary to mention this fact, leaving the public to make their own estimates of its advantages.
PATTISON & HART, Troy, S. H. HERRICK, New-York.
