United Fund In Ogdensburg Is Growing

CANTON — Vice Chairman Richard C. Fox Wednesday reported the Ogdensburg campaign of the St. Lawrence County United Fund had reached more than 60 per cent of its goal in support of the many agencies serving the Ogdensburg area.

Fox noted that the Professional and Health Division with Chairman Frank A. Murray has exceeded the Division Goal of \$7,000 with considerably more

pledges yet to be received.

Murray reported that the St. Lawrence State Hospital CSEA employees and staff increased their contributions by almost 60 percent over last year and St. Joseph's Home employees increased their contributions by 41 percent with participation by all employees. The contributions by both groups create new records in giving, according to Murray.

Fox and Murray both praised Co-Chairmen Dan Herzog and Red Langstaff of the State Hospital drive for the fine increase which, combined with anticipated reports from other divisions, will put the Ogdensburg campaign over the top.

The Advance Gifts Division with chairman Richard E. Winter and the Commercial Division with Patrick Quirk report that all their cards are in the hands of contributors and major returns from these divisions are expected in the next two weeks to bring the campaign to a successful conclusion.

Little Trouble Develops Among Telephone Men

MASSENA—The St. Lawrence County Sheriff's Department reports that no major conflicts developed when a chartered airplane arrived here carrying some 24 Telephone Company workers from out-of-state, at about 8:10 p.m. Friday.

Local telephone employees had threatened to cause problems as the men arrived, the report states. However, Sheriff's patrols were dispatched to the airport where they reportedly found a few strikers on the scene. Slight confrontations did develop, deputies reported, but local taxis were sent to take the crew to various quarters in the Potsdam and Ogdensburg areas.

Dear Editor,
After reading the recent sports article by John O'Donnel, I wonder how many parents are concerned about the freshmen and sophomores at Ogdensburg Free Academy who were caught drinking. Some parents probably read the story and thought "thank goodness my son (or daughter) doesn't belong to the football team, and doesn't drink"...or, "I don't have to worry about that problem with my children"...Parents who feel this way should take a closer look...you do have to worry about it!!! If you have a student in junior or senior high at Ogdensburg Free Academy you should worry about it. We in Ogdensburg, and in probably every upstate community, do have a drinking problem involving young students. Should we close our eyes to the problem and say "Thank goodness it isn't drugs"? or should we try to stop this crime?...It is a crime to sell or to serve alcoholic beverages to minors. Where are the parents when these minors have their parties with drinking?? Where are the parents when the youngsters come home at night?...Who is selling the booze to the minors?? Let's find out before it's too late. Let's start punishing our kids when they're caught. Let's not make it the responsibility of the school to discipline our children. The school have their hands full trying to educate our children, without also having to accept the responsibilities which belong to the parents.

Is there another big party scheduled for the near future?? Who will be responsible for accident or injury involving a minor who has been drinking?? It's time to wake up...Some parents simply do not know what their children are up to, or perhaps they simply don't care enough.
