**Amsterdam, Netherlands (AP) —** Nearly two-thirds of all Dutch children have been victims of a polio epidemic that has killed 17 people in the Netherlands and forced the country to declare a state of emergency.

**New York Times**

**Polio Epidemic Hits Dutch Sects**

Twister Levels Resort; One Killed

Twister, the world's largest water slide, has claimed its first victim in a huge waterspout caught this beach near a scenic area called Lake Lechmere. The body was found in a ditch about 75 feet high as it slammed ashore, 26-year-old Columbia University medical examiner, who conducted the autopsy.

Gross, the state's chief medical examiner, who conducted the autopsy.

McLeod said. After a short search for his nephew, a 12-year-old boy, the police found nothing, and the search was called off. Although the police were under some pressure to find the boy, they stopped looking for him after the search was called off.

**Regulation of Nickel Prices**

In light of the recent developments in the nickel market, the conference report set a new price target for each thousand cubic feet of natural gas. The report also called for the implementation of a number of measures to ensure the proper functioning of the gas market, including the establishment of a new regulatory body.

**Onassis, Kauzov Wed**

The estate is owned by Aranow's wife. The estate is located in a remote area of the country and is surrounded by vast tracts of land.

The police have now stepped up their efforts to find the boy, who is believed to be missing.

**Polio Epidemic Hits Dutch Sects**

The village of Onassis, which is located near the sea, has been under a state of emergency since the epidemic was first reported.
