VOTE "NO" ON AMENDMENT 3

In connection with the coming election, the attention of voters is called to Amendment No. 3 in the ballot which is headed: "Local Adoption of Law Affecting Westchester and Nassau Counties." This amendment has received very little attention. In this section it is because of the fact that it is generally believed to affect the location mentioned only and is therefore of no particular local concern.

Mayor Charles A. Stewart, of Rouses Point, however, has written a letter to the Home Rule Association of Westchester County, a non-political organization, in which it is stated that the amendment is misconstrued worded at attempt on the part of a small body of men living in Westchester County to destroy the advantages of representative government and to consolidate the functions of towns, cities and villages in one central hand in the county to be known as the County President.

"Clearly the aim of the amendment before us this fall is to remove and destroy present constitutional guarantees of representative government and the idea that this is to apply to Rouses Point and nowhere else is absurd. It is the first step in a non-governmental campaign of Government in every county in the State for a very obtuse."

Mayor Stewart of Rouses Point and Mayor Tremblay of Chappaqua, point out the very real need and the obvious desirability of local control and home rule in the management and operation of our roads, highways, matters of health, sanitation, taxation, and other matters purely local and not in control of the Village authorities and call attention to the fact that what may be needed elsewhere may not be desirable in our own villages and that there may be many times when we may need improvements that the control of if were in the hands of others, might deny us.

The amendment itself is worded rather ambiguously and its full meaning is not readily understood. Any amendment, however, which has for its object the centralization of power and placing it in hands further from the people than it is, we believe, desirable in the best interests of the people of the State and of this section, and for this reason, if for none other, we believe the amendment should be defeated. VOTE "NO" ON AMENDMENT NO. 3.

ROUSES POINT LOCALS

Bill Elliotridge, who has been a member of the Glenn Falls High School Orchestre for several seasons, has been invited to join the Glenn Falls Symphony Orchestra this fall plays the piano and the flute.

Clara St. John has returned from the Greenbush after a few days上游 on a trip in Glens Falls.
