TENT CATERPILLAR
THREATENS FRUIT TREES THIS YEAR

Considerable Damage Foreseen
Again Unless Preventative Measures Are Taken

In brief, North Albany County Agricultural Agent, states that obser-
ving this method this year may injure the "bark.

Arsenate must be cut to the minimum,
owing control measures.

Nests are small much less damage
mornings while the most of the cate •
three pounds of lead arsenate and
materials are uot called for.

Tables, spoons full of casein spreader or
some cups and measuring spoons that.
used only for measuring water, it will
not be necessary to duplicate those
