School Building Program Based on Census Figures Extended Next Few Years

History of the building pro-

grams for Massena Central

Schools and what that might

mean for future enrollments at

the village and the area are

reported in this section. The

committee is working on the

proposals for the next few

years, and they indicate that

the future of the school sys-

tem in Massena will be deter-

mined by the success of the

programs now under way.
