Plus Art Views of Oswego.
 Probably no enterprise has ever been
 commenced in this city which has re-
 ceived such prompt and universal sup-
 port as is being accorded "Oswego Illus-
 trated." Several gentlemen engaged on
 this work have been here but a few days
 and have already secured the support of
 the majority of the representative men of
 the city. A work that can command the
 co-operation of such parties has a
 peculiar merit which will carry it for-
 ward to a successful issue. The work
 will not only be a credit to our city,
 as well as a handsome and valuable pres-
 ent to the library of the views are made by
 a new process, which produces them as
 fine as steel engravings, and are made
 at the publisher's expense.

Kingston's Big Fair.
 The second annual fair of the Midland
 Agricultural Society of Kingston, Ont.,
 will be held from September 1st to 8th
 inclusive. The annual exhibition of this
 society are among the most attractive in
 the Dominion. This year the exhibition
 will be on even a grander scale than
 heretofore. Among the attractions will
 be a "hundred" and "parade" and
 John J. Frable of this city, is
 engaged for both.

New Haven.

 for a very little money, at this
 rate.

KINGSFORD'S

The Palladium
 JULY 23.—About 30 persons accepted the
 invitation of True Brothers to a ride on
 their yacht down the river yesterday
 afternoon. A story was told of an
 island where a lively game of pool had
 been had, when the party reached the
 yacht which proceeded to Point Island.
 The trip was thoroughly enjoyed by all.
 Mrs. A. Gilmore and her daughter
 Anna, gave a party on Friday evening
 at their home in Fourth street. The
 guests were mainly from the village
 well known acquaintances. Mr. J. J. Hall
 of New York, and Mr. J. J. Hall of
 Oswego, and Mr. J. J. Hall of
 Oswego, were present.

Upper bridge is being repaired.
 While the work is being done, there
 will be a detour of traffic to the
 lower bridge.

Sawdust is piled up here July 23.
 "No" has been piled up here July 23.
 The pile is now about 100 feet long
 and 10 feet high. It is now being
 piled up here in a few days with
 variety goods.

 Atlantic Cable.

Paris, July 15.—An extraordinary
 astronomical discovery has been
 made by the scientific world. Last
 night Prof. Seeley, caught sight of a
 comet of the first magnitude. As its
 brilliant tail flashed through the heav-
 enly professor found, to his sur-
 prise, the phenomenon that the name of
 OSTERHOUT was inscribed in fiery
 letters together with a full list of his
 latest styles in summer clothing. Al-
 most as wonderful as the celestial
 display was the remarkably low price
 at which his goods were offered.
 Look at his
