15 CENTS A WEEK

VOL. XXII. JAMESTOWN, N. Y., TUESDAY, OCTOBER 20, 1891 NO. 147.

WEATHER PREDICTIONS.

FOR TUESDAY— Rain.

Satisfied Customers.

Our Cotton Flannel fame has increased with great rapidity during the past week There's nothing counts like good square value and nobody is slow to find it out Besides our 5, 6,8 and 10c, specials we have added yard wide goods in bleached and unbleached Cotton Flannel and you'll readily see the advantage to you in the making up of some garments.

Of course you have heard or probably seen the kind of Table Linens we sell and about the prices. We place a new line in stock to-day in bleached and unbleached.

White spreads are selling almost as well now as ever. With such value as we have at $1.50 and $2.00, spread buying is an easy matter.

Sheetings are selling lively at the prices we have them marked, also Bleached and unbleached cottons some extra values.

DRESS GOODS.

Now the season is in full swing and with the many weaves we have on our counters and shelves we are as well prepared to please you as anyone for choice, probably bet ter, besides the remarkable values we are giving makes this the great Dress Goods center.

If you are interested in Serges see our "Bernhardt" in Black and colors; examine their richness, and judge the goods on their merits—impossible to match our 75, 1.00 and 1.25 qualities short of 25c a yard.

Corsets.

A stock large enough to enable you in finding what you want. At 50 and 75c, we have a good well made corset. And at 1.00 in all lengths Black, White or Drab, the best styles in the market. Try our 1.25 Watch spring corset it will please you. See our better makes including "Her Majesty's" the best corset made. Special bargains all this week in underwear and in fact all through the

A TRAIN SMASH-UP.

THE TWO ENDS DEMOLISHED EACH OTHER.

The Accident Happened on a Down Grade on the Erie—Seventeen Freight and Oil Cars Piled Up.

[Afternoon dispatches by United Press.]

ALDEN, N. Y., Oct. 20.—A bad wreck occurred to a freight on the Erie road here early this morning. Seventeen freight and oil cars were thrown down an embankment and many demolished. The train parted on the down grade and the rear section crashed into the forward section. Nobody was hurt.

WHITECAPS KILL FIVE.

Kentucky Morality Carried Out in the Usual Way.

OWINGSVILLE, Ky., Oct. 20. - A party of whitecaps attacked the residence of George Culp last Tuesday night. As a result James and George Howard were instantly killed, half a dozen others were wounded and one of whom, George Jones, has since died.

A sister of the Howards was ill and the shock killed her. Today an infant to which she gave birth a few minutes prior to her death, also died, making five deaths in all. It is quite certain one or two more of the wounded will die. The true history of the affair has just come out.

A young girl named Della Carpenter was the innocent cause of the tragedy. Mr. See had adopted the girl. The Culps and Rebecca Carpenter and their confederates were incensed at this, as was also Cynthia Jones, who it is claimed said she had bought the girl and was to pay $250 for her. Rebecca Carpenter declared she would kill the girl if she remained with the See family. There was a great deal of excitement over the matter and somebody served a whitecap notice on the Culps ordering them to leave in 30 days under penalty of death.

The Culps remained and the neighborhood talked with more freedom than prudence. So matters continued until the fatal culmination. Some time ago Rebecca Carpenter, an aunt of the girl, came to the house of Prosner See and asked him to take the girl and keep her as the Carpenters were not able to. See promised to take the girl on trial. Not long after this Mollie Culps, Susie Culps and Rebecca Carpenter went to See's house in the absence of the family, stole the girl and secreted her at the house of George Culps It came to the ears of Mr. See that the persons who had the girl in charge intended to take her to Mt. Sterling and put her in the hands of Cynthia Jones, a notorious character. In the meantime the girl ran away from the Culps and came to the house of See and piteously begged him to keep her as she said she was afraid of her people. This led to the attack on Culp's house and the deaths of five or more persons.

RANDOLPH'S POSTOFFICE.

Burglars Effect an Entrance But Only a Few Letters Taken.

RANDOLPH, Oct. 20.—[Special.]—Last night burglars entered the postoffice by breaking a small piece from the glass near the sash lock and then working the lock. They took from the office the letters in the general delivery box, but were frightened away by Marc D. Johnson before they had time to obtain other property. Mr. Johnson and wife occupy rooms over the postoffice, and he, hearing the noise below, planned to capture the intruders, but in turn they heard him and decamped.

Grape Growers Hopeful.

WESTFIELD, Oct. 20.—Disastrous as the late frosts have been to the Lake Erie grape region; the damage is not as bad as at first supposed. After talking with many growers, shippers and buyers it appears that the frost was lightest at North East, growing severer eastward until it amounted to a freeze at Silver Creek Here growers are more hopeful. While but little over half of the crop was picked, those who needed the money most were nearly through picking, and the greatest loss falls on the more forehanded who could afford to hold the crop for higher prices. Buyers are readily paying from 10 to 15 cents per basket for the frosted grapes, at which there is a small profit, while the rise in price of those picked before the frost and held makes up a good share of the loss.

Two Daughters Go Insane.

SYRACUSE, Oct. 20.—Lillie and Margaret Clark, two young daughters of Edward Clark, a prominent citizen of Elbridge, this county, have become insane. Lillie lost her reason while at supper a week ago, and Maggie's insanity began Saturday evening when both girls were so violent that the assistance of neighbors was required to control them. The young women are well known here having been students in Syracuse university. The cause of their affliction is not known.

Cut in Two by the Cars.

HORNELLSVILLE, Oct. 20.—An Erie switchman named James Todd met a terrible death yesterday while engaged in coupling cars. It is supposed he caught his foot in the guard rail which threw him under the car and held him fast. Employees were attracted by his screams but could do nothing until the train was stopped. It passed diagonally across his body, nearly cutting him in two. He lived twenty minutes.

Afternoon Weather Predictions.

WASHINGTON, Oct. 20.—For western New York: Rain, clearing Wednesday, stationary temperature, winds becoming southwest.

SALE AND SUPPER.

Thursday and Friday of this Week in the Warner Block.

Arrangements are about perfected for our W. C. A. entertainments for Thursday and Friday of this week. There has been a great amount of work done to make them attractive. We would, like every one to come and see for themselves what has been accomplished.

I would say for the benefit of all that we are located on the second floor of the Warner block in large pleasant rooms that look as though they might have been arranged for our especial benefit. They are easy of access by a broad staircase; opposite main entrance, with a large landing midway, where one can rest if necessary. I am quite sure all will be pleased with the location.

The sale will open at three o'clock on Thursday, giving time to make selections before the supper hour, which will commence at five o'clock and continue until all are served.

The articles for sale are too numerous to mention, but a look at the doll counter alone will repay one for coming. The Gypsy camp must be seen to be appreciated. The program for Friday will appear tomorrow. The following is the menu for Thursday's supper:

Croquettes,
Tomato Sauce
Escalloped Potatoes
Cold Ham.
White and Brown Bread.
Celery. Pickles
Cake. Ices.
Coffee.

NATURAL GAS EXPLOSION.

Three Men Seriously Injured and a Large Fire Started.

ALLEGHENY CITY, Oct. 20.—An explosion of natural gas in Snagan's large carpet store on Federal street this morning set fire to the building and seriously injured three men. The building was entirely destroyed and the fire is spreading. The injured are F. G. Hilliard, employee of the Heating company, Wm. Snagan and an unknown woman. Hilliard may die. The fire was caused by hunting for a gas leak with a light.

Fined Fifty Dollars.

James Rappole resisted arrest Saturday night. Officer Willard called upon Chas. Johnson to help him. James Wilson knocked Johnson about a rod. Today Wilson was fined fifty dollars.

Judge Yates today sent Angus Young to the penitentiary for six months.

Two Hundred persons Confirmed.

Rt. Rev. Bishop Ryan of Buffalo, administered the sacrament of confirmation to over 200 persons at St.'s Peter and Paul's Catholic church this morning; 120 of these were from this city, the balance coming from Randolph and South Valley.

High Mass was celebrated at 10:30 by Father John of Dunkirk, after which the Rt. Rev. Bishop delivered a lengthy and very impressive discourse, in which he gave excellent advice to those who were to be confirmed, instructing them in the divine principles of their faith saying that the church depended on the young men and women who were going out in the world, to be firm and know their religion thoroughly, and strive to bring others into the fold, for Christ has taught that there is but one fold and one shepard.

The bishop then examined the candidates in regard to their faith, asking a number of questions which were answered without hesitation, showing that they had been well instructed. Confirmation was then administered to them, the bishop being assisted by Father Sheehan of Buffalo, chancellor of the diocese, Father Cunningham of Randolph, Father John of Dunkirk and Father Coyle of this city.

AROUND ABOUT US.

—There are fourteen women serving on school boards in Chautauqua county.

—The Corry schools have begun the banking system and many of the children will forego gum and candy and become bank depositors. The bank took on deposit $72.05 last Wednesday.

—Bradford brags of being a railroad town with nearly 800 employees of the different corporations.

—Olean Times:—One of the salt wells at the Pearl Creek Salt company's works, has been disabled several weeks owing to a cave of the superincumbent mass of rock demoralizing the tubing, so as to render it worthless for the time being, has just been drilled out again and put in working order. To the astonishment of the company, once in 24 hours the well begins flowing with great force and continues to spout brine for several hours when it will cease flowing until the same time the following day, when it will again flow. Before the caving of the well it was a quiet well and only gave up the brine upon being steadily pumped. It is a mystery as to the moving cause of the phenomenon, which some attribute to a pressure of the gas in the well, but there are none of the signs apparent as in wells having a vein of gas, which shows itself by bubbling up through the salt water as it comes to the surface. Its intermittent occupies exactly the same number of hours daily.

FALSE AND MALICIOUS.

THE CHARGES MADE AGAINST ARTHUR C. WADE

By One Signing Himself "Granger"—Mr. Wade Makes Plain and Unequivocal Answer, and Says the Charges Were Inspired by Malice and Revenge.

To the Editor of THE JOURNAL:

On my return from the east yesterday, I was shown a letter published in The News of the issue of the 14th, signed by a person calling himself "Granger." If the author of that article had signed it with his own name I should treat it as unworthy of recognition, but inasmuch as he attempted to masquerade under the respectable nom de plume of "Granger," I feel called upon to answer the false and malicious statements therein contained and to expose the identity of my accuser. The name of this man is Albert M. Blanchard, who for many years resided in the town of Ellington and is now a resident of the city of Jamestown. But a few years ago he came to me to employ me as his general counsel. I ascertained in the interview which we then had that his object was to secure my services in a suit against an old client of mine, Chiles Hidecker, for whom I had been doing business for many years. I informed Mr. Blanchard that Mr. Hidecker was, and had been for years, a client of mine, and I could take no case against him.

Later, Mr. Blanchard, or rather Mr. Blanchard's wife brought an action against Mr. Hidecker, which was tried twice at the circuit court at Mayville. The first time the jury disagreed and the second time the trial resulted in a verdict of the jury in favor of Mr. Hidecker. The issue involved was the location of a lot line. The evidence showed that for more than 60 years a stake which had been kept up had marked the location of the lot corner; that when the surveyors and old men of the neighborhood went upon the ground to investigate and locate the corner, they found the stake missing. Upon the second trial, and while I was cross-examining Mr. Blanchard (this man who signs himself as "Granger,") I was then for the first time informed that but a few days prior to the time this spot was examined by the surveyors and old men of that neighborhood, Mr. Blanchard had pulled up the stake, removed the stone that had for so many years marked the corner, and hid them under a hemlock log, but a few rods distant, and that on the occasion when they were making the search to locate the corner Mr. Blanchard was present, claiming it was some two rods north of the spot from which he had removed this stake and stone His further cross-examination developed the absolute truth of this information, and it is that cross-examination yet fresh in the memory of this man that has induced him to style me as a "bulldozer of witnesses."

In the submission of this case to the jury, I took occasion to express my opinion of the character of any man who would stealthily remove the marks that indicated the boundary of his land, for the purpose of enabling him to encroach upon the land of his neighbor. My views upon this matter seemed to have been fully endorsed by the jury. So much for the character of my accuser.

He charges me with having been the counsel for the owners of the "Green driven well patent." and of aiding in swindling the farmers and people of this county out of a large sum of money. No hand could have penned and no brain could have conceived a more malicious falsehood. Some years ago when I resided in Ellington, three men, viz: Henry Day, Willard Aldrich and Luther Johnson were sued in the United States court by the owners of the alleged patent, for infringements. We called in the little town of Ellington, a meeting which was largely attended, and at that meeting we organized for a contest. The agreement which we signed was that each should pay his proportionate share of the expenses of that litigation, and I think it is in existence in the town of Ellington today, and if so, it will be found to bear my signature with the rest. I went from the village of Ellington to the cities of Buffalo, Rochester, Syracuse and Utica and investigated the validity of that patent. From there I went to Cazinovia, Cortland, Ithaca, Owego, Elmira and other places, in the interest of the people owning driven wells. I spent in all, weeks of my time, which I gave to the defense of these actions gratuitously. No man ever paid me a dollar. I never asked for a dollar, but on the contrary I contributed just as much as any other man for our defense. I employed R. Holland Duell of Cortland as our counsel. Subsequently I met him at different places in reference to these cases, and at no time did I ever make a charge of one farthing for my services. Neither did I receive any compensation, except the thanks of the people interested in that litigation. These cases remained in court for some years, and in fact have never been decided. After I removed to Jamestown the supreme court of the United States rendered a decision sustaining the validity of this "Green patents," which afterwards turned out to have been a sort of made up case, and put through the courts ahead of the genuine case that was subsequently decided against the patent. After this first decision of the supreme court, we who had not been sued, decided to settle, but to carry on the litigation already pending. At that time I owned a house and lot in the village of Ellington, on which was a driven well, and with the other people from that town interested in this matter, I went to the Humphrey house and paid ten dollars royalty on my well, precisely as every other man did who settled, and I now have in my office the receipt for that ten dollars which I took at the time. These facts can be proven by the sworn testimony of fifty reputable men in the town of Ellington today. I was never consulted by any person interested in, or representing any person in the "Green patent," or any other driven well patent. The only connection I ever had with the driven well affair was to fight the owners or alleged owners of the alleged patent, and this I did gratuitously.

I would not have referred to this article except for the fact that people in this county have been swindled out of thousands of dollars on this alleged patent, and I will not remain silent when I am falsely accused of being implicated in this business. The author of these accusations against me either knew, or had the means of knowing precisely what the facts were, and his letter is inspired by malice and revenge. In so far as it relates to this driven well affair, it is without the semblance of truth and was, I believe, so known to be by him when he was writing the article.

A. C. WADE.
