Better Than Traps For Rats

White Adams Drug Co., Town

They say: "RAT-SNAP is doing the work  
and the rat undertakers are as busy as pop  
corn on a hot stove." Try it on your rat-  
traps. It is "instantly" effective. It is  
easy to use. Comes ready for use; no pre-  
paration with other traps. One rat does not  
touch it. Rats die up and leave no mess.  
These things are for you. Buy one today. See

Out of Harmony, Out of Luck  
This old world isn't any worse off  
than the people on it. More folks are  
out of harmony with themselves and  
nature than one can count in a ses-  
sion's toll. And just as soon as one  
gets out of harmony he's out of luck.—  
Uncle Ben in Grit.

Held Theory Before Marconi.  
About 1870 Maxwell established the  
theory that waves of light were due  
to an electro-magnetic disturbance in  
the ether. It was not until 1896 that  
Marconi applied a provisional specifi-  
cation of apparatus for signaling by  
electric waves.

To Remove Chewing Gum.  
We: the material well around

Christmas Neckties.  
Some individual with leisure and  
curious mind has figured out that 90  
out of every 100 men receive a necktie  
as a Christmas gift. The estimate is  
conservative, but how many of the  
neckties so bestowed are worn by their  
recipients? The giving of neckties is a  
perilous proceeding always, for a neck-  
tie is essentially a matter of indi-  
vidual taste. Many a man gets neck-  
wear at Christmas that he could read-  
ily enough admire as part of a curtain  
or a drape, but that he would wear  
only under the compulsion of a gun  
levelled at his head.

### MYTHS OF CHRISTMAS SEASON

Among Some of Peasantry of France  
is Belief That Bread Remains  
Fresh Ten Years.

LEGENDS and myths without  
number have become asso-  
ciated with the celebration  
of Christmas. Among some  
of the peasantry of France  
is a strong belief that loaves of bread  
baked at Christmas will remain fresh  
for ten years. It is also believed by  
some of the simple folk that during  
the whole of the Christmas holidays a  
portion of bread should be left on the  
table day and night because the Holy  
Mother may come to share it. For  
some reason not to be explained, there  
is a superstition among some French  
peasant wives that no bread must be  
baked between Christmas day and the  
Feast of the Circumcision, because an  
infraction of this rule will bring dis-  
aster on the household.  
There is a peasant belief of age-long  
standing that if the cattle on the farm  
be given drink immediately after the  
midnight mass of Christmas their  
health will continue good throughout  
the year. Another belief is that if seed  
of wheat be wrapped in a tablecloth  
which has been used for Christmas  
dinner, a profitable harvest will be  
insured. Another strange belief is that  
a cold bath taken on Christmas day  
will protect the bather against fevers  
and toothache throughout the year.
