ADDIE AND GEORGE.

Inscribed to George W Flower and Lady

I

Oh! deserted house! on thy roof settles night
That vanishoth not with the coming of light
For hearts in which sorrow, like ours, holdeth reign
Sunshine but tips the halls of morning in vain
And gloom on the hearthstone, descends like a pall,
While the laughter of childhood is hushed in the hall.

II

Light feet on the stair, bright face in the door,
Betoken the presence of Georgie no more
On Addie, our rosebud, hath fallen a frost,
And the bloom of her beauty in darkness is lost
The rough hand of Winter is draping with snow,
Cold beds where the pets of our household lie low

III

Be reconciled, mourners, whose darlings have fled
For words bringing balm the dear savior hath said
And I hear in the night of your desolate grief,
A low spirit voice and 'tis full of relief
"Where moons never wane, and day stars never set:
Our loved ones, our lost ones may welcome us yet"

☞Universalist Church. Preaching Morning and Evening by the Rev. E. W. Grant.

☞Remember that music will be at the Rink to-night It will also be open until 10½ o'clk. The ice is in fine condition.

☞DONATION. The friends of the Rev. L. D. White, presiding elder of the Watertown District, will make him a donation visit at his residence, No. 2 High street, on Tuesday, the 25th inst, afternoon and evening. A cordial invitation is extended to all.

☞The weather is a little difficult to explain. It is different from what the prognostications foretold in October. Then we were sure to have the hardest winter ever known in this country. But as their prophetic sayings are soon forgotten, they now very coolly tell us that they knew we should have an open winter, because it commenced so early and so fiercely. Wise men, weather prophets are—what they don't know is hardly worth acquiring.

☞ORGANIZED.—The journeymen printers of this city, met last evening at the Jackman House, for the purpose of forming a Printer's Union, which was effected by the adoption of a constitution and by-laws, election of officers, and other necessary acts. After which a vote of thanks was returned to the gentlemanly Proprietor of the Jackman House, E. W. Peterson, for the gratuitous accommodation furnished for the purpose of effecting their organization.

☞CORRECTION.—In our published list of appointments by Sheriff Wheelock, the name of Orrin A. Coon was given as deputy for Philadelphia. It should have been Orrin A Cross.

☞REMOVED—The office of the American Sewing Machine has been removed to the Furniture Ware Rooms of S. B. Van Duzee & Co. No. 19 and 21 Court Street, where Mr. A. J. VanDuzee will be pleased to exhibit the 'American' *right side up*, to intending purchasers.

THIS MORNING'S REPORT

HALIFAX, 21.

The report that Prince Edwards Island has accepted the better terms and agreed to confederation is premature. An island paper indicates that the terms are not satisfactory to leading unionists. They are disappointed at no provisions being made for railways.

A woman and three children were burned to death in a house at West Point, Prince Edwards Island, recently.

WASHINGTON, 22.

A Woman Suffrage meeting was held in the Union League Hall in this city last evening and was addressed by Miss Jennie Collin, of Boston, Hannah Moore Townsend of Philadelphia, and Miss Eliza Stanton of the Treasury Department;

AUGUSTA, Me., 22.

An order passed both Houses of the Legislature yesterday, for the appointment of a joint committee, to attend, with the Governor, the Peabody obsequiss, but subsequently the Senate reconsidered its vote and tabled the whole matter.

PORTLAND.

Many sensational dispatches in regard to the programme of the reception of Peabody's remains at Portland have been published, many of them without foundation.

No programme can be conclusively decided upon until the arrival of George Peabody Russell.

LEWISTON, Me., 22.

The State Farmers Convention closed its sessions yesterday. The attendance has been quite large.

WASHINGTON, 22.

The bill revising laws relative to mints, assays and coinage of the United States, which has been under preparation in the treasury department for some time, was, yesterday, transmitted to the different mints and to the assay office in New York, for examination and suggestion. The bill will probably be sent to Congress about the first of February.

WASHINGTON, 22.

Some time ago a resolution passed the House calling on the Secretary of the treasury for information relative to the sum of six hundred thousand dollars paid the U. S. by Japan, as indemnity for aggressions on our commerce.

The Secretary replied that the books of the department did not show that any such sum had been paid into the treasury, and that he had no information on the subject. It appears that the Secretary of State was the proper officer to apply to for this information, and a resolution to that effect was introduced a few days ago. The point sought to be obtained by the resolution is whether the money has been paid, and if so whether any portion of it has been spent by the State Department or any other branch of the Government.

Richard Schell, a leading New York broker, was examined at great length yesterday, by the banking and currency committee, concerning the Wall street gold conspiracy He went fully into the subject, explaining the workings and operations of the Gold Bank, and attributes most of the trouble and disaster which occurred on those memorable days to that institution. He also explained to the committee the effect which the panic produced to business interests generally all over the country, and said many of the best men and strongest houses had not yet recovered from it, and it was doubtful if they ever would.

The committee seem to be very desirous of obtaining all information to be had respecting this branch of the subject, as the committee will undoubtedly recommend some legislation that will prevent a reappearance of the panic hereafter.

James Fisk, Jr, and his partner, Jay Gould, arrived last night, and will be examined to-day before the banking and currency committee of the House.

The Senate financial committee yesterday resumed the consideration of a bill to fund the public debt, but laid it aside for the purpose of considering the House proposition of defining the meaning of the law and extend the income tax during 1870. After agreeing to report this measure the committee proceeded to discuss the funding bill but did not complete the measure. The committee are desirous of maturing a bill that will insure the funding of the national debt at a rate of interest that will be acceptable to the holders of the present bonds. They have been unable as yet to agree upon the rate of interest to be allowed.

General Howard is constantly receiving advices from the Southern States of the purchase of real estate by the negroes, who are absorbing all the land offered them.—Gov. Scott, of South Carolina, has, since he came into office, sold to the blacks of that State, about 40,000 acres at from $1 to $5 dollars per acre. In another instance, in his late trip to the South, Gen. Howard was present when an ex-slave owner sold to four of his former slaves 700 acres of his plantation, for which they paid him half cash and gave him their notes for the other half

As the House meets only for debate to-day, the Virginia bill will not come up till Monday. The general expectation is that there will be a lively time between Butler and Bingham. The former threatens to read the latter out of the party, and afterwards to add more strengthening provisions to the bill and pass it over Bingham's head.

It is thought that the House will concur in the Senate's amendments to the bill.

NEW YORK, 22.

It is now claimed by responsible parties that there is not any truth in the affidavits lately made in regard to extensive whisky frauds. It is said that the persons who are accused will voluntarily give themselves up.

Wm. Douglas, owner of the yacht Sappho has published a challenge to any yacht in Great Britain or Ireland to sail against his craft, from Cape Clear to Sandy Hook, in the month of July.

The Jewish Reform church, of Brooklyn, was dedicated yesterday.

In the live stock market yesterday the supply of beeves was light for Friday, and buyers were compelled to pay a little advance, but there was scarcely any improvement in the dead meat market.

Sheep were in moderate demand and with light offerings on this side the river. A fair business was transacted at Communipaw.

Live hogs were nominally unchanged, with none offered. Dressed hogs were more steady.

Receipts were 835 beeves and 3,512 sheep.

Gen. Gillmore sailed on the LaFayette to day on a two months absence in Europe, to make certain engineering investigations for the government.

OPINIONS IN BRIEF OF EMINENT MEN.
Prof. W. S. Clark, President of Mass. Agri. College says: "It is non-explosive. The light is better than is produced by any other lamp. I believe it is true economy in view of the safety, the quality and quantity of light, and the durability of this lamp, to throw away all other kinds and use this only."
C. T. Jackson, M. D., of Boston, State Assayer, Says: "I find it free from all danger of explosion, when exposed to the severest proofs. Its general introduction, in place of the unsafe glass lamps, will save much property from fire and prevent those fearful explosions, which have so often proved fatal to life.
The New York Tribune says: "No other is perfectly safe. All the points of danger have been so carefully guarded that disaster is simply an impossibility.
The New York Independent says: Nothing more need be said to bring this lamp at once into public confidence and Universal use.

ONE DOLLAR.
In consequence of the general decline in prices the
Great Shoshonees Remedy!
of the Indian Dr. Josephus of Columbia Territory is now reduced in price to one dollar per bottle.
This great Alterative and Blood Purifier is called the greatest Medical Triumph ever achieved, and the most lasting boon ever laid at the altar of suffering humanity, for in it is offered to the world a Great Remedy that will actually cure all diseases of the Throat, Lungs, Liver, Kidneys, and digestive organs as well as diseases peculiar to females. For Scrofula, Skin Diseases, Humors, and all diseases arising from impurities of the blood, except the third stage of consumption. Yet there has never been a purely Genuine discovery without some inconsistent persons, hence we ask where was there ever a case of combined scrofula and consumption, cured? Read the case of Miss Stagg, of Geneva, N. Y. which frequently appears in this paper. We might give scores of other equally strong cases, but while you get such a remedy for one dollar, you must not expect columns of advertisements. A hint to the wise is sufficee.
Manufactured by Dr. Young & Bro., Syracuse, N. Y. For sale by all dealers in medicine in Watertown.
