OLD ESTABLISHED HOSPITAL.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Fifty Thousand patients cured annually.

DR. J. TELLER CONTINUES to be consulted scientifically and successfully consulted on all forms of private diseases, at his old established hospital, No. 5 Beaver st. Albany, N. Y. Twenty years devoted to this particular branch of practice, enable him to perform cures such as no other physician can; and his facilities are such (being in correspondence with the most eminent physicians of every world) for obtaining the safest as well as the most effectual remedies for the disease, that he can guarantee instruments to the unfortunate, of a quick and speedy cure, to be obtained at no other office in America.

Syphilis, Gonorrhea, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Buboes, Tumors, Sore Nose, Tender Skin Bones, Ulcerations, Eruptions, Blue, Ulcers, Abscesses, and all and every disorder of the system are perfectly under the control of the Doctor's medicines, and have been cured in more than 10,000 cases annually.

Young Men

who have by secret habits ware imparted their youthful and destroyed the vigor of their minds, thus rendering themselves of the pleasures of married life are notified that in consulting Dr. J. Teller, they will find a friend to console, and a physician who has made himself known in almost every part of the United States, who applied to Dr. T. broken down in health and broken in all that materially constitutes man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures. Dr. Teller's Great Work FOR the Married or those contemplating Marriage—Mailed in plain wrapper, sent to all parts, under seal, by mail, post paid. 30,000 copies sold the past year. The single Married and the Married happy. A lecture on Love, how to choose a partner—a complete work on Conjugality. It contains hundreds of secret never before published. Warranted to be worth three times the amount asked for it. Twenty-five cents in specie or postage stamps inclosed will secure a copy by return mail. Dr. Teller has devoted a life time to the cure of those diseases upon which his books treat.

To the Ladies.

DR. J. TELLER still retains the only agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and for in advance of every other medicine. On the receipt of $1.00 (the price per box) these pills will be sent by mail or express to any part of the world.

Diseases at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted—no charge for advice. N. B. No students employed. Notice this address all letters to

Tea Table Chat,

Miscellaneous Items.

—A Candian editor, in order to increase the circulation of his paper, will let any one sending him a dollar have his paper for a year for nothing.

—Kissing goes especially by favor in Melbourne. A youth who saluted a girl against her wish has been sent to prison two months for the offence.

—In Memphis a bride of two days asks a divorce because on the morning after marriage he refused to send her breakfast up to her room.

—A South Carolina negro claims $5,000 damages for being ejected from a ladies' car on the Richmond and Danville Railroad,

—Describing George Francis Train's antics at a recent lecture, a New York paper says: "And those coat tails! How they spread! One could imagine he saw a coolie and a Fenian playing poker thereon and using the brass buttons for chips."

—Sandwich Island people who want substantial buildings import their brick from Japan. They are harder and of better quality than those to be obtained at San Francisco.

—Mrs. Amelia Cloonar, a name once known throughout the length and breath of the land, is living at Council Bluffs. Her poor health, she alleges as an excuse for her not taking a more prominent part in the female suffrage movement.

—The looking-glasses in the Internal Revenue office at Washington cost $30,000 But even these will not enable the officials to see themselves as others see them.—[Ex.

—A constable sold the Pittsburgh Republic for sixty-eight dollars. An exchange thinks the dollar stores will soon have newspaper offices for sale.

—Emma Webb and a Miss Gordon are to discuss the subject of Woman's Rights, in San Francisco, the former taking the conservative side.

—Miss Olive Logan and Miss Kate Field are engaged to lecture every week-day night to the end of the lecture season. The same is true of Anna.

—Two joint owners of a house in Paris, Ill., could not agree on the matter of moving it. The one who desired removal thereupon sawed the house exactly in halves and carried of his half in triumph.

—A Western railroad killed a passenger in a very ingenius way. The iron spout which supplies the locomotive tanks was dropped through the roof of the sleeping car upon him as he lay in an upper berth.

A Little School Girl Dies from the Effects of Punishment.

A sad affair in Manchester, Conn., should be a warning to school teachers against the possible dangerous consequence of some punishments that seem perfectly safe. The story, as told by a correspondent of the Hartford Courant is, in substance, that a little girl, nine years old attending a public school in Manchester, having failed to recite her geography lesson perfectly on Thursday was required on Friday to repeat the lesson for that day and the day before. She failed again, and, as a punishment, was required to stand on the floor in a passage way where there was a draft of cold air, while she learned it.

She stood there for an hour, and afterwards was compelled to stand in the school room five hours longer till she learned Thursday's lesson, and for an hour more, trying to learn Friday's and was not released until some time after the other scholars had been sent home. She is said to have been full of health and spirits on Friday morning, but on Saturday her legs began to swell and she suffered intensly, soon becoming delirous, trying to repeat the lesson which was the occasion of the punishment, and begging of her teacher leave to take her seat. After a few days of this agony she died. An investigation by the School Committee was demanded and held, the committee finding that the teacher was guilty of an error in judgment

An Anxious Father.

P. T. Barnum relates the following The managers of Railroads running west from Chicago pretty rigedly enforce a rule of excluding from certain reserved cars all gentlemen traveling without ladies, and as the ladies' car was sometimes more select and always more comfortable than the other cars, I tried various expedients to smuggle myself in. If I saw a lady about to enter the car alone, I followed closely, hoping thus to evade the vigilence of the brakesman, who generally acted as door-keeper. But the car Cerberus is pretty well up to all such dodges, and I did not always succeed. On one occasion, seeing a couple, evidently just married, and starting on a bridal tour, and about to enter the car I followed closely, but was stopped by the doorkeeper who called out—

"How many gentlemen are with this lady?"

I have always noticed that young newly-married people are fond of saying "my husband," and wife," they are new terms which sound pleasantly to the ears of those who utter them; so in answer to the peremptory inquiry of the doorkeeper, the bridegrom promptly replied—

"I am this lady's husband."

"And I guess you can see by the resemblance between the lady and myself," said the Cerberus, "That I am her father."

The astonished husband, and the blushing bride were much "taken back" to deny their newly-discovered parent, but the brakes man said as he permitted the young couple to pass into the car

We cannot pass all creation with one lady."

"I hope you will not deprive me of the company of my child during the little time we can remain together," I said with a demure countance.

The brakesman evidently sympathized with the fond "parent" whose feelings were sufficiently lacerated at loosing his daughter through her finding a husband, and I was permitted to pass. I immediately apologized to the young bride and her husband, and told them who I was, and my reasons for my assumed paternity, and they enjoyed the joke so well that they called me 'father' during our entire journey together. Indeed, the husband privately and slyly hinted to me that the first boy should be christened after.

ARCHITECTURE.

The subscriber would inform the public that he has opened an office on the second floor of V. S. Hubbard's block, corner of Public Square and Franklin Sts., where he will give his entire attention to making Drawings, Plans, Specifications and Estimates of every description of building, both Public and Private, in an accurate, neat and artistic manner. All orders left at the above mentioned place, will receive prompt attention.

The patronage of the public is respectfully solicited. JOHN ROSE, Architect.

THE AMERICAN BUTTON HOLE
Over Seaming
AND
SEWING MACHINE COMBINED.
UPSET.

THE REASON WHY.

Because it did not take the premium at the Jefferson County Fair! Its sales are increasing rapidly, and to-day its reputation is higher than any other machine ever was since so short an acquaintance with the public

Or one but here shows. Simein operation to be convinced of its superiority, and NEVER fail to give it their highest praise. It combines a Button Hole, Overseaming and Sewing Machine in one complete form; is easy to operate and understand, and is adapted to all kinds of work needed in a family, and although it is now over one year old it is not taking the premium at the Jefferson County Fair, yet it runs and keeps on running, and is destined to run, notwithstanding the Premium Machine is made in Jefferson county. The principal difference in the running of the two Machines is this: The American runs easier, runs faster, runs stiller, and does five kinds of work that cannot be done by the Premium Machine. But the American is not the only machine in use; the Howe, the Grover & Baker, and Singer, as stand like this. These old established, first class machines, that have established the world for their service and durability were not only utter, but swept away and are now among the things that have been, and by many good judges (Jefferson county of course) this thought doubtful if Gabriel's blast will be loud enough to raise them again. But such is life, and such has been the fate of all Sewing Machines but the Premium Machine of Jefferson county. But on close examination we find Fairs were held in other counties all around us, and, strange to say, we hear there was a State Fair, and that the American kept right side up, and on trial with other machines, (where the Premium Machine of Jefferson county was never heard of) it took the First Premiums and Diplomas; also, Herkimer county, First Premium and Diploma over thirteen competitors, and many other County and State Fairs, that time and space will not permit us to mention of now. And now, dear friends, in closing this general dirge on the Genius American, allow us to return my sincere thanks to the many friends and patrons of the American who have always expressed entire satisfaction in its work and have spoken loud in its praise. I will solicit your patronage, and cordially invite the public to my sales room, where the said Machine is on exhibition on its honest merit and reputation, north side of Public Square, opposite to the Fountain in Wilson's block.

Every person wanting a Sewing Machine,
Should examine the Wheeler & Wilson one purchasing, as it has proved itself to be far the
Best Machine in the World.
LET THE PEOPLE ANSWER
Over 480,000 already in use—Over 80,000 made in 1869.

READ THE FOLLOWING.

In the testimony before the Commissioner of Patents, the witnesses (well qualified from observation and experience) directed the special attention to the simplicity of the Wheeler & Wilson Machine, and its consequent freedom from wear and need of repairs

The only Gold Medal for the manufacture and perfection of Sewing Machines and Button-hole Machines was awarded to Messrs. Wheeler & Wilson, of New York

HENRY P. Q. D'ALLEMY,
Member and Reporter of the International Jury.

Messrs. Wheeler & Wilson, 625 Broadway, N.Y., received the Gold Medal, and THE ONLY ONE, awarded for the most perfect Sewing Machine and Button-hole Machine exhibited at the Paris Universal Exposition.

J. C. DENNY,
U. S. General Agent for the Exposition.

THE BUTTON HOLE ATTACHMENT

The mechanism is a simple device attached to an extra cloth-plate of the machine, which is readily interchanged with the ordinary cloth plate. The button hole, barred at each end, is most neatly, neatly, and rapidly made, at the rate of one hundred holes an hour. It is adapted to family work and manufactures in the same range of purpose and material. Seamstresses, dress-makers and shirt-manufacturers will find it especially useful. To the machine, while making the lock-stitch for the ordinary purposes of sewing, combines devices of embroidering and making button holes—a variety of qualities found in no other machine in the world. There are other attachments for special purposes

THE MOST DURABLE MACHINE

I made one hundred pairs of pantaloons, all tucked and lined, with one needle without changing—also made three hundred pairs in nine months.

Very truly yours,
MRS. A. M. TAYLOR.
