DR. J. TELLER CO. TUNES to the most delicate and accurate pitch, and guarantees to keep it in order for ONE YEAR, at a moderate charge. Testimonials from eminent musicians, showing the practical results of the Teller System, can be seen at his Warerooms, with which he is constantly receiving letters from all parts of the country, testifying to the satisfaction it gives. Dr. J. Teller is a graduate of the Medical College of the University of the City of New York, and has had many years' practice in connection with the Piano Forte. He is also a member of the Medical Society of the County of Albany, and has been a practicing Physician in this city for many years. Dr. Teller has devoted a life time to the study of the Piano Forte, and has discovered a principle which has enabled him to overcome the difficulties which have heretofore existed in keeping the instrument in tune. Dr. Teller will receive calls at his residence, No. 5 Hamilton St., Albany, N. Y.

Ten Table Chat,

The Sea of Galilee.

BY MARK TWAIN.

Pilgrims, sinners and Arabs are all abed now, and the camp is still. Labor in loneliness is irksome. Since I made my last few notes I have been sitting outside the tent for half an hour. Night is the time to see Galilee. Genessaret, with the glittering reflections of the constellations flecking its surface, almost makes me regret that I ever saw the rude glare of day upon it. Its history and its associations are its chiefest charm, in any eyes, and the spells they weave are feeble in the searching light of the sun. Then we scarcely feel the fetters. Our thoughts wander constantly to the practical concerns of life, and refuse to dwell upon things that seem vague and unreal. But when the day is done, even the most impressible must yield to the dreamy influences of this tranquil starlight. The old traditions of the place steal upon his memory and haunt his reveries, and then his fancy clothes all sights and sounds with the supernatural.

In the lapping of the waves upon the beach he hears the dip of ghostly oars; in secret noises of the night he hears spirit voices; in the soft swoop of the breeze, the rush of invisible wings. Phantom ships are on the sea, the dead of twenty centuries come forth from their tombs, and, in the dirges of the night wind, the songs of old forgotten ages find utterance again. In the starlight, Galilee has no boundaries but the broad compass of the heavens, and is a theatre meet for the birth of a religion able to save the world; and meet for the stately figure appointed to stand on its stage and proclaim its high decrees. But, in the sunlight one says: Is it for the deeds which were done and for the words which were spoken in this little acre of rocks and sand eighteen centuries gone, that the bells are ringing to-day in the remote islands of the sea, and far and wide over continents that clasp the circumference of the huge globe? One can comprehend it only when night has hidden all incongruities and created a theatre proper for so great a drama.

LOAN COMMISSIONER'S SALE.

Loan Office, Jefferson Co. Nov. 4, 1869.

Default having been made in the payment of the interest on the following mortgages, given to the Commissioners for loaning certain moneys of the United States to the county of Jefferson. Notice is hereby given, that by virtue of the power of sale contained in said mortgages, and by virtue of an act of the Legislature of the State of New York, entitled "Act relating to a loan of certain moneys belonging to the States deposited with the State of New York for safe keeping," passed April 4th, 1857, the premises described in the following numbered mortgages, will be sold at public vendue on the second Tuesday in February next, at the Court House in the City of Watertown, at 11 o'clock a. m. of that day.

The said mortgages are as follows to wit:

Mortgage No. 526—Principal $206, interest due Oct. 1st, 1869, dated Feb. 24, 1860, Elnard Maynard, Brownville: All that lot of land, being part of the S and S-9 western end of the 36 northern rages of the subdivision of Great Lot No. 44 of the Macomb's purchase in the town of Brownville, beginning at a point where the centre of the Sycamby brook intersects the centre of the Pillar Point road; the same being the most northerly angles of 43 56-100 acres of land deeded by E. Kerby and wife to Judah Maynard, Oct. 25 1836, running thence up the centre of said brook, N 32½ W one chain 33 links, thence N 32½ W two chains to the Casenois line, thence along said line N 21 W 47 chains 34 links to an iron wood post, bearing west fifty links from a large basswood tree, then S 44 W 51 chains 10 links to the centre of said Pillar Point road, and thence along the same N 43½ E 29 chains eighty seven links to the place of beginning, containing 54 and 44-100 acres of land, more or less, as surveyed by James Shields.

Best Machine in the World.

LET THE PEOPLE ANSWER.

Over 430,000 already in use—Over 80,000 made in 1869.

READ THE FOLLOWING:

In the testimony before the Commissioner of Patents, the witness (well qualified from observation and experience) directed his especial attention to the simplicity of the Wheeler & Wilson Machine and its consequent freedom from wear and need of repairs.

The only Gold Medal for the manufacture and perfection of Sewing Machines and Button-hole Machines was awarded to Messrs. Wheeler & Wilson, of New York.

HENRY F. Q. D'ALIENY,
Member and Reporter of the International Jury.

Messrs. Wheeler & Wilson, 625 Broadway, N. Y., received the GOLD MEDAL, and THE ONLY ONE, awarded for the most perfect Sewing Machine and Button-hole Machine exhibited at the Paris Universal Exposition.

J. C. DERBY,
U. S. General Agent for the Exposition.

THE BUTTON HOLE ATTACHMENT

The mechanism is a simple device attached to an extra cloth-plate of the machine, which is readily interchanged with the ordinary cloth plate. The button hole, barred at each end, is most substantially neatly, and rapidly made, at the rate of one hundred holes an hour. It is adapted to family work and manufactures in the same range of purpose and material. Seamstresses, dress-makers and shirt-manufacturers, will find it especially useful. Thus the machine, while making the lock-stitch for the ordinary purposes of sewing, combines devices for embroidering and making button holes—a union of qualities found in no other machine in the world. There are other attachments for special purposes.

THE MOST DURABLE MACHINE

I made one hundred pairs of pantaloons, all thick and lined, with *one needle* without changing it: also made three hundred pairs in nine months.
