For State Prison Inspector,
JOHN PARKHURST,
of Clinton county.

Second Assembly District Convention.

The Republican electors of the several towns of the Second Assembly District of Jefferson County, will send three delegates each, and the Republican electors of the part of the city of Watertown in said Assembly District will send three delegates, to an Assembly District Convention to be held at Vibber's Hotel, in Evan's Mills, on Tuesday the 27th day of September, 1870, at 11 o'clock a. m. to nominate a candidate for member of Assembly, and to transact such other business as may be deemed necessary.

WAYLAND F. FORD,
Ch'n District Committee.

Republican County Convention.

A Republican County Convention will be held at the Court House in Watertown, on Tuesday, the 20th instant, at one o'clock P. M., to nominate County Officers, and transact such other business as may be deemed necessary.

The town of Ellisburgh will be entitled to a representation of four delegates in the Convention, and the other towns and wards of the county to a representation of three delegates each.

R. B. BIDDLECOM,
Ch'n Jeff. Co. Rep. Com.

Watertown, Sept 5, 1870.

Dr. Cyrus D. Glanniger has been renominated for Congress by the Democrats of the Xth Congressional District of Pennsylvania.

A formidable looking movement is on foot in New York to run the present Sheriff, James O'Brien, as the candidate of the Young Democracy for Mayor against A. Oakey Hall, the present Mayor, who is booked for renomination. Those who know O'Brien think he is not sufficiently "hefty" to materially affect the vote of Mayor Hall.

A few years ago, when Horace Greeley signed the bail bonds of Mr. Jefferson Davis, many of his Republican friends believed and insisted that his political influence in the future would be nothing. How is it? The Tribune increases in strength, influence and circulation every month, and its editor lacked only a dozen votes of receiving a plurality for Governor at the last Convention. All that prevented his name leading the ticket was his avowed declaration that he had no "claims."

The New York World, the avowed newspaper leader of the Democratic party, during the whole of the Franco-Prussian war, has been from the first an earnest champion of France and the corrupt and tyranous Napoleonic dynasty. It's arm has been continually raised against Prussia. Will our German readers forget this and vote with an enemy to their fatherland? If they will compare the course of any upright Republican journal with that of the "World," we think they can understand where their interests are, and follow them with their votes.

State Central Committee.

The following named gentlemen were elected members of the Republican State Central Committee at the Saratoga Convention. They meet in New York, we believe, on Friday next, for the purpose of organizing:

Stephen B. French.	John Hammond.
Samuel T. Maddox.	Edwin A. Merritt.
E. D. Webster.	Horatio S. Brown.
Henry Smith.	Ebenezer Blakely.
Thomas Mulligan.	A. H. Laflin.
Hugh Gardner.	Levi Blakely.
A. B. Cornell.	John A. Place.
Chester A. Arthur.	R. M. Gere.
George Opdyke.	Albert Jewett.
Hezekiah D. Robertson.	L. L. Doty.
Cyrus B. Martin.	T. J. Chatfield.
Henry Van Dekar.	C. S. Cole.
George H. Sharpe.	Ben. Field.
Joseph H. Ramsey.	Richard Crowley.
A. D. Wait.	Rodney W. Daniels.

XXIVth Congressional District.

JOHN E. SEELEY, of Ovid, Seneca county, is the Republican nominee for Congress in the District composed of Wayne, Cayuga and Seneca counties. He was chosen on the 139th ballot. He is a Lawyer by profession, and stated to be a gentleman of eminent abilities and high character. It is believed his nomination will unite the party in his district, and we certainly hope it may. He succeeds Judge Cowles, of Wayne county, who has served his District with credit for a single term.

Maine all Right.

The election in Maine, held on Monday, resulted in the success of the Republican ticket by a majority of about six thousand. One hundred and ten towns gives Perham, Republican, 23,750; Roberts, Democratic, 18,660. Republican majority, 5,090, against last year, Chamberlain, 23,167; Smith, 15,834; Hitchborn, 2,091.—Lynch is undoubtedly elected to Congress in the first district, which was the only doubtful one in the State.

The Legislature is undoubtedly Republican.

Below are the names of the Congressmen elect:

District 1—John Lynch.
" 2—Wm. P. Frye.
" 3—J. G. Blaine.
" 4—John A. Peters.
" 5—Eugene Hale.

Maryland.

The Republican ticket for Congressmen in Maryland is now complete as follows:

1st District—Henry R. Torbert of Cecil.
IId District—William M. Marino of Baltimore.
IIId District—R. Stockel Matthews of Baltimore.
IVth District—John E. Smith of Carroll.
Vth District—James A. Gray of Howard.

Political Muss in Missouri.

Gov. McClurg has been nominated by the regular Republican State Convention for reelection, and Gratz Brown, by dissenting Republicans. The ground on which this unfortunate division of our party in Missouri has been brought about, was the reenfranchisement of the rebel element in that State. Gov. McClurg is the candidate of the element opposed to reenfranchisement, and Brown of the class favorable to it. This was one wedge of discord. Another was the high tariff notions of the McClurg interest, and the more liberal policy of the others. McClurg is rather a light, thin man, mentally, while Gratz Brown is one of the ablest men in the State. McClurg is regularly nominated, and comes before the people as the party's authorized candidate; while Brown is regarded by the more advanced Republicans of the State as much the largest and most liberal minded man. The division is an unfortunate one, since it is quite likely to throw the State into the hands of unreconstructed Democracy. It would have been better if each side had yielded a little, both as to men and measures. Reenfranchisement will prevail without doubt, since it is to be voted on separately from the ticket, as a constitutional amendment; and the regular convention had the good sense not to make it a party test. It would have been better to have endorsed it openly, instead of giving it merely a permissible approval.

The Prussian Advance.

The advance of the Prussians upon Paris continues without interruption from the French forces. They are reported at several points near the capital, the numerous columns moving by every road converging from the north-east and east upon the city. Unless the public sentiment of his countrymen, or his own sense of humanity and pity restrain him, there is nothing to keep King William out of Paris.

The military power of France is broken. The Germans have already passed the natural barrier of the Argonne forest, where Dumouriez, in 1792, turned back the Prussians in their invasion of the Republic. The Germans have marched thro' and thro' this intricate country of alternate forest and lagoon in rapid pursuit of an enemy they have utterly destroyed. The Prussians are indeed beyond the positions which Napoleon, in 1814, with an army proportionately larger than the French now possess, abandoned as indefensible against a smaller number of allies advancing in less compact columns than those of the German armies of 1870. The greatest soldier of his day pronounced Paris indefensible when these positions were lost.—How then can the French now hope to maintain the siege of a more helpless city against the first soldier and strongest army of Europe?

It is reported that the Prussians are to be in position before the city by Wednesday, the 14th. Before that time we hope to record an armistice, which will bring them to a halt outside the city walls.—Tribune.

Miscellaneous.

The population of Washington, D. C., is 114,195.

—The product of pins in Connecticut is estimated to be 19,719,000,000 annually.

—California develops humor. There poor Dow, jr., ground out his patent sermons and drank himself to death; there John Phœnix wrote his mirth-provoking Phœnixiana; there, too, Mark Twain graduated from a newspaper office as the court jester of a whole people.

—Milwaukee is the greatest grain mart in the world. It has six large elevators, able to hold from half a million to a million and a half bushels. Yet last week five hundred cars were standing in the freight yards and on the tracks of that city, unable to discharge their wheat.—This immense glut is from old wheat, and the merchants estimate that there are a million more bushels of the crop of 1869 to come.

—The great question now agitating the world is, where shall we get our fashions, now that the empire of Eugenie has collapsed in company with the political dominion of her husband? Berlin is talked of as the next seat of Fashion; but is it not a splendid opportunity to shake off at once and forever the shackles of servitude to the caprice of any foreign mistress, and hereafter invent our own fashions?

—A gentleman residing in Schenectady county says the drouth has been very severely felt in that section. During four months they have had only a few showers. All the wells are dry, and the farmers have been obliged to cart their water for the use of their families and cattle from a considerable distance. The crops, as a result, have suffered severely.

—Fall apples in Lyons, Wayne co., are worth $1,25 per barrel, and purchasers insist upon receiving sound and carefully selected fruit at that. Winter fruit will probably open at $1,50 for choice lots. The apple crop in Wayne co., and indeed throughout all Western New York, is larger than for many years previous.

Political.

The New York Times aptly remarks:—"The criticism of the Democratic journals on the Republican ticket will remind the public of the celebrated instructions to a lawyer in difficulties,—"No case; abuse the plaintiff's attorney."

—The New York Herald pointedly remarks: "The best election canvassers that General Grant can have are the statisticians of the Treasury Department. They are the most effective and convincing of stump speakers. Every now and then they utter sentiments in advocacy of his reelection that burn like words of fire.—The very largest reads somewhat in this way: 'Receipts for revenue from all sources from September 1, 1867, to March 1, 1869, under Johnson—$556,315,203; receipts of revenue from all sources from March 1, 1869, to September 1, 1870, under Grant, $643,728,968; strength of argument in favor of Grant, $87,413,765.'"

Nominations.

The Democrats have nominated Wm. D. Murphy for reelection to the Assembly in the First District of Albany county.

—The Republicans of the Second District of Washington county have renominated Hon. I. V. Baker, jr., for Assembly. Mr. Baker has represented the district for the past two years in the most creditable and satisfactory manner.

—The Republicans of Clinton county have nominated the following excellent ticket: For Member of Assembly, A. P. Brand; County Clerk, Stephen Moffit; Justice of Sessions, Harvey Carter.

THE REPUBLICAN PLATFORM.

Resolutions Adopted by the Saratoga Convention.

On Wednesday evening the regular committee, through their chairman, Roscoe Conkling, reported the following resolutions, which were unanimously adopted:

Resolved, That the National Administration under President Grant has, in all respects, kept faith with the people, and fully established its title to their confidence and support;

By reducing the national debt, by the unparalleled financial achievement of paying in eighteen months, in addition to all accruing interest, one hundred and seventy million dollars of principal;

By restoring the National credit at home and abroad, and with rapid strides bringing near the restoration of specie payments;

By largely increasing the revenues of the country under diminishing taxation, through an honest enforcement of the laws and at the same time greatly decreasing the expenses of the government and of the collection of the revenues;

By providing for the relief of the people from eighty millions of existing taxation, and so limiting the subjects of revenue as to lighten the burdens of all classes of people;

By maintaining honorable peace with all nations, while carefully vindicating our own rights and advancing the name and honor of the American people among all nations on earth;

By so dealing with the Indian tribes as to avert the chronic wars which have heretofore drawn deeply from the blood and treasure of the country;

By providing a system for the funding the national debt, by which its interest will be largely diminished, and a just portion of the burden carried over to the fast growing population of the future;

By encouraging and finally securing the adoption of of that Constitutional amendment by which the rights and liberties of all classes of citizens, without regard to past conditions, are placed by the fundamental law on a footing of universal equality;

By completing the reconstruction of the rebel states by measures designed to secure justice to all, and permanent peace to the country;

And these things it has done without display, with a firm and quiet hand that gives promise of continued progress in the same direction and of sure prosperity to the country.

Resolved, That the Republicans of the United States of America send congratulations to the United States of Germany, and heartily join with our German brethren in rejoicing at the righteous victories of their Fatherland, and fondly trust that the brave people who have given a Republic to France may soon establish free institutions in their own country.

Resolved, That we hail with unmingled joy the new Republic of France; the overthrow of Imperial rule, and the swift destruction of a usurper's claim to dynastic power.

Resolved, That we sincerely sympathize with the people of Cuba in the struggle for liberty against a despotic Government in whose administration they have no share.

Resolved, That the Democratic State Administration has not shown itself entitled to the confidence or support of the people of this State.

Because it has put itself into the hands of the irresponsible political corporation which so long ruled the city of New York, and made the wealth and power of that city subservient only to its own selfish and corrupt purposes, and is now seeking to make the State itself a wider field for the same abuses and corruptions.

Because it has so mismanaged the canals of the State that while the expenses are largely increased, the revenues are nearly destroyed, and a deficit has taken the place of an annual surplus of more than two million dollars; while the tolls have been reduced with such unjust discriminations as to confer the chief benefits upon products of other States, many of the products of our own State are unrelieved. It has burdened the canals with a host of unnecessary officers; it has permitted State claims for damages to be relieved for the benefit of its partisans, and is seeking to transfer the debt, now charged upon the revenue of the canals, to the shoulders of the tax-payers alone, while other States will reap the chief benefit of the change.

And because it has upheld, with all its power, the acknowledged crimes and frauds upon the ballot box, through which it has been elevated to power and enabled to misgovern the State.

Resolved, that the common School government of our State must be fostered and maintained, and that we condemn all appropriations for the establishment or maintenance of sectarian institutions, as hostile to the spirit of the Constitution and the religious liberty and equality it secures to all.

Resolved, That so long as the people of towns, cities and villages have the right, by law, to license the sale of intoxicating liquors in their several localities, they also, by a majority of votes, should have the right to prohibit such sales.

Resolved, that it is the duty of all honorable citizens, and firm determination of the Republican party, to preserve the purity of the ballot box in such form that the vote of every lawful elector shall count as it is cast, and not be nullified by fraud or crime; that we demand the enforcement of all laws, and especially such as have been enacted by congress, and may be enforced in the Federal courts, which are designed to prevent violation of the naturalization and election laws of the country.

That, laying aside all individual preferences, the Republicans of New York will, with one heart and one mind, strive to redeem our State from the rule of those whose power was first obtained by fraudulent votes and dishonest count of votes which were never polled.

General News.

There was a slight frost in many parts of the State on Monday morning.

—The World states that Gov. Hoffman has accepted Gen. Woodford's challenge to discuss the principles and claims of the Republican and Democratic parties, in the principal cities of the State before the election. We are glad to hear it.

—Hamilton College will open its Collegiate year on Thursday, with a Freshman class larger than has been known since 1860. In anticipation of the usual "rows," the well trained Sophomores will be obliged to "sue for peace," or meet overwhelming numbers.

The Steamer Yeddo exploded her boiler at Yeddo, Japan, on the first of August killing Rev. Edward Barnes, Mrs. Alida Barnes, and Edward Barnes, Mary Simmons, Mr. Cassidy, and a number of Japanese embassy, and injuring many others. The Coroner's jury found gross carelessness on the part of the engineer. The steamer Hiago also exploded her boiler at Osaka. Four Japanese were killed and 15 or 20 wounded.

The Results of the War.

The French Empire which has so long led in politics, the diplomacy, the fashions, the laws of Europe, was a Roman Catholic power. Her main idea has been military and political glory. She was briliant, audacious, fiery; but her masses were uneducated, and she seems to be without a public conscience. Germany is a protestant power. She is solid, quiet, orderly, and thoroughly educated. The ideas that she will take to the front of European politics, and that will now become the general fashion, are not showy, but they are massive with power. They are—

And an admirable Military System, which by making every male citizen a soldier, compelling all to serve alike in the army, tends to make war unpopular, unless for a just cause, and disposes the people to maintain peace, so that they may avoid the universal losses and hardships of war.—Detroit Post.

A Good Opinion from one Competent to Judge.

We take the liberty of publishing the following business letter from our esteemed friend, J. H. RAMSEY, President of the Albany & Susquehanna Railroad, addressed to the publishers of this journal:

A. & S. RAILROAD CO.,
PRESIDENT'S OFFICE,
ALBANY, Sept. 10, 1870.

GENTS:—Enclosed you will receive $2 for your paper one year in advance.

I consider it one of the best published in the State, and wish you all manner of prosperity.

Very truly yours,
J. H. RAMSEY.

P. S.—If the Country does its duty, from what I learn we shall gain sufficient in New York and Brooklyn to carry the State.

So mote it be.

A ROYAL COINCIDENCE.—The Empress disguised as a Sister of Charity, under the escort of M. de Lesseps, joined the Prince Imperial at the Marine Hotel, Hastings, on Saturday. The dispatches say that the scene at the meeting of the mother and son is not described because those who witnessed it say that it was indescribable."

The Empress was sick the next day, and the same physicians were called to administer to her that attended Louis Phillippe on his landing at Hastings twenty-two years ago.

German Jollity.

The books of the Revenue Bureau show a large increase in the sale of beer stamps since the commencement of the European War. About 200,000 stamp are now sold daily, which is three or four times as many as before. The increased demand is mainly from St. Louis, Chicago, Cincinnati, Milwaukee, and is undoubtedly attributed to the jollity with which the German victories have been celebrated in this country.

HOFF'S MALT EXTRACT

The surprising and unanimous assent of physicians in favor of HOFF'S MALT EXTRACT in certain forms of disease, owing to the rapidity of its effects, with which it will obtain mastery given it the character of a specific. There exists but a few to half cases of Dyspepsia, Diarrhœa, diseases of the stomach, and all of the lungs, which yield so readily and at the same time so promptly as Hoff's Malt Extract in the form most susceptible of being proved here:

Summary of Report,

Your Committee would report on the lots of 5 cows exhibited. There were 8 lots of very superior cows with certificates all satisfactory.

The first lot for last week in May,	1,775
" " " " June,	1,653
" " " " July,	1,344
" " " " August	1,020
	5,792
The second lot, last week in May,	1,661
" " " " June,	1,591
" " " " July,	1,265
" " " " August,	1,194
	5,711
The third lot, last week in May,	1,588
" " " " June,	1,533
" " " " July,	1,137
" " " " Aug.,	1,069
	5,327

The third and last lot above-mentioned are all beautiful grade cows, an ornament to any farm, being grade short horns, while the other two lots were Ayrshire and other grades.

The duties assigned to your committee on grades and natives have been very onerous, and we would recommend that hereafter there should be four classes instead of one, in order to draw out a full exhibition. The best cow four years old and upwards, in the judgment of your committee, was No. 175; but as the exhibitor did not comply with your rules, we could not award a premium, but recommend a special premium for her. The yearlings and calves were very creditable to the exhibitors—all of which Jefferson county should feel proud of.

JUDGES.—Chas. Shepard, John Lowe, W. H. H. Ellsworth.

EXPLANATION.

By some unfortunate circumstance the reports of classes 8 and 9 were lost from the judges possession after they had made their awards. It was thought best not to attach the prize cards on that day, and the day following the committee not being aware of the facts the exhibitors had removed their property. The committee could not remedy the mistake. Had the exhibitors returned or left their animals on the grounds, as the regulations required, the matter could have been corrected. As it is, I see no way to reach it, only by the same class of exhibitors presenting the animals to the committee again, otherwise the result will stand as reported.

SPECIAL NOTICES

BEAUTIFUL WOMEN.

All men know that it is beauty, rather than genius, which all generations of men have worshipped the sex. Can it be wondered at, then, that so much of woman's time and attention should be directed to the means of developing and preserving that beauty? Women know, too, that when men speak of the intellect of women, they speak critically of their deficiency, coolly; but when they come to speak of the charms of a beautiful woman, their language and their eyes kindle with an enthusiasm which shows them to be profoundly, if not indelicately in earnest. It is part of the natural sagacity of woman to perceive all this and therefore employ every allowable art to become the goddess of that adoration. Preach to the contrary, as we may, against the arts employed by women for enhancing their beauty, there still remains the eternal fact, that the world does not produce the society of an ugly woman of genius to that of a beauty of less intellectual acquirements. The world has yet allowed no higher mission to women than to be beautiful, and it would seem that the ladies of the present age are carrying the idea of the world to greater extremes than ever before, and now to whom nature has denied the fascinating power of beauty, supply the deficiency by the use of a most delightful toilet article, known as the "Bloom of Youth," which has been lately introduced into this country by GEORGE W. LAIRD, a chemist, who by the use of it, smoothes out all indelible furrows, scars, removing tan, freckles, and discolorations from the skin, leaving the complexion clear, brilliant, and beautiful, the skin soft and smooth. With the assistance of a new American article of a Lady's toilet female beauty is destined to play a larger part in the admiration of man and the subjection of women than all the arts employed since creation. Prof. C. F. Chandler, chemist to the Metropolitan Board of Health, has recently made a chemical analysis of this delightful toilet preparation and reports that the "Bloom of Youth" contains nothing injurious to the health. Ladies need have no fear of using this invaluable toilet acquisition.

Sold by every druggist and fancy goods dealer in the United States.
