HAVING REMOVED OUR STORE TO

No 10 COURT STREET

Where we have room to keep a large stock of

Musical Instruments.

and Musical Merchandise constantly on hand, we invite our old patrons and all interested, wishing to purchase Music or Musical Instruments to give us a call, and examine our fine stock of

First Class Pianos

Organs, Melodeons, Sheet Music

Violin Strings, &c. which we keep in great variety, at Wholesale and Retail.

Every person wanting a Sewing Machine,

Should examine the **Wheeler & Wilson** before purchasing, as it has proved itself to be far the

Best Machine in the World.

LET THE PEOPLE ANSWER.

Over 430,000 already in use—Over 80,000 made in 1869.

READ THE FOLLOWING:

In the testimony before the Commissi Patents, the witnesses (well qualified from observation and experience) directed his special attention to the simplicity of the Wheeler & Wilson Machine, and its consequent freedom from wear and need repairs.

The only Gold Medal for the manufacture and perfection of Sewing Machines and Button-hole Machines was awarded to Messrs. Wheeler & Wilson, of New York.

HENRY F. Q. D'ALIONY, Member and Reporter of the International Jury.

Messrs. Wheeler & Wilson, 625 Broadway, N. Y. received the GOLD MEDAL, and THE ONLY ONE awarded for the most perfect Sewing Machine and Button-hole Machine exhibited at the Paris Universal Exposition.

J. C. DERBY, U. S. General Agent for the Exposition.

THE BUTTON HOLE ATTACHMENT

The mechanism is a simple device attached to an extra cloth-plate of the machine, which is readily interchanged with the ordinary cloth plate. The button-hole, barred at each end, is most substantially sewed, and rapidly made, at the rate of one hundred holes an hour. It is adapted to family work and manufacturers in the same range of purpose and material. Seamstresses, dress-makers and shirt-manufacturers, will find it especially useful. Thus the machine, while making the lock-stitch for the ordinary purposes of sewing, combines devices for embroidering and sewing button-holes—a union of essentials found in no other machine in the world. There are other attachments for special purposes.

THE MOST DURABLE MACHINE

I made one hundred pairs of pantaloons, all thick and fine, with one needle without changing it: also made three hundred pairs in nine months.

Very truly yours,

MRS. A. M. TAYLOR.

Life and Endowment Policies issued on all the popular plans No Company of its age possesses more solid and enduring strength We invite the public to a careful examination of the condition of the Company, and its plans of insurance. Such an examination will, we believe, convince all that we are just what we claim to be—to wit:

1. A strong Company now, and increasing in strength every year.
2. A Company that offers to its members important pecuniary advantages.
3. A Company whose plan of business is simple and easy of comprehension by every one.
4. A Company that deals fairly and honorably with all its members, adjusting every claim in the strictest equity.
5. A Company that assures every desirable form of insurance at the lowest rates consistent with security, whose Policies are or be made non-forfeitable, and free from the need burdensome restriction on occupation and travel.
6. A Company whose income from interest alone exceeds its losses by a large amount—a fact which can be stated by very few Companies.
7. A Company in short, whose members may rest in perfect confidence that their interests will be carefully guarded and the amount of their insurance promptly paid, and a liberal dividend to their families.
