THE DAILY TIMES.

WATERTOWN, NOV. 2, 1870.

REPUBLICAN STATE TICKET.

Governor.....Stewart L. Woodford.
Lt. Governor.....Sigismund Kaufmann.
Comptroller.....Abiah W. Palmer.
Court of Appeals.....Absalom Nelson—Long Term.
Alexander Barkley—Short Term
State Treasurer.....John Parkhurst.

Congressman.....Clinton L. Merriam.

Assembly, 1st dis. Oliver C. Wyman.
2d dis. James Johnson.

COUNTY TICKET.

County Clerk.....Jacob Stears, Jr.
Coroner.....Joseph Thibault.
Justice of Sess...John Parker.

The large agricultural warehouse and factory of Hoagland & Donghan, at Elgin, Illinois, were destroyed by fire on the morning of the 31st. Loss $20,000; insurance $10,000.

Our national debt was reduced to the extent of five millions one hundred and twenty-nine thousand two hundred and ninety-seven dollars and seventy-three cents during the month of November.

The Buffalo papers state that another shock of earthquake was felt in that city on the afternoon of the 1st. It was sharp but short. Doors and windows were shaken, but no damage was done.

Official returns of the election in South Carolina show that the Republicans elected their candidates for Congress in all the districts of the State. Bowen, (white) Republican, is beaten by DeLarge (colored) as representative of the Charleston district.

It is stated that since the war commenced, the Prussians have captured 320,000 prisoners. The number taken at Metz alone is about 150,000, and the spoils captured include three thousand cannon, and 40,000,000 fr. in funds. France is certainly conquered, and the sooner she makes peace on the best attainable terms the better.

The New York Herald, speaking of the heavy registry in that City, says: "This unprecedented registration indicates that our voting men are all alive to the importance of the questions at issue, and our solid men and law-abiding citizens, feeling sure of a fair and peaceable election, are determined to see what majority they can cast in favor of right and law, when untrammeled by roughs."

The Secretary of the Treasury has received a letter from the First National Bank of Altoona, offering to exchange $180,000 of five-twenty bonds for the same amount of bonds under the new funding law, though at a lower rate of interest. This is the first offer of the kind which the government has received. The new bonds are not ready to be put in the market. The plates for the five per cents., however, are prepared.

An address to the Republicans of New York City has been issued declaring that "the opportunity has come to deal an effective blow at the corrupt and oppressive combination which now misrules our City," and urging them to support Judge Ledwith for Mayor. It is signed by William E. Dodge, Henry Clews, Isaac H. Bailey, Le Grand B. Cannon and many other eminent citizens. It cannot fail to have great weight, and to aid reform in the State as well as in the City.

The recent heavy winds have been attended with a great loss of property and life on the Lakes. The schooner Jessie, of Port Stanley, went ashore on the north side of Salmon Point, on the 31st, and will be a total loss, with all on board.—The bark E. W. Head, of St. Catharine, with a cargo of coal and crew of six men, went ashore about eighteen miles east of Erie, Pa., on the same day. Four of the six men were lost. The captain of the Head reports the loss of another vessel a short distance below Erie.

There are indications that the tricks of Tammany are to be extended throughout the State. The New York journals insist that blank neutralization papers, bearing the seal of the court and the clerk of New York city, have been sent out in large numbers. The inland villages and cities are thrown open to repeaters and to frauds, by the repeal of the registry law. Redoubled care will be necessary, to prevent illegal voting. The defiance of national statutes in the metropolis, indicates the daring recklessness which Tammany will carry into all parts of the State. It will not be safe for republicans to take anything for granted. They must watch every point, must attend to every detail.

The New Governor of Utah.

Vincent Vaughan, the newly appointed Governor of Utah in the place of Governor Shaffer, deceased, was an officer in the Confederate service until the close of the war, when he was selected to fill one of the minor professorships at the University of Alabama, which he held until last spring. In consequence of a political difficulty between Ryland Randolph, editor of the notorious rebel sheet "The Tuscaloosa Monitor," and a young student named Smith, son of the Federal General Gustavus A. Smith, in which both were shot, Vaughan was compelled to leave his home, his life being publicly threatened by Randolph's friends. His disabilities were removed by Congress at its last session, to enable him to accept the appointment of Secretary of the Territory of Utah, to which he had been nominated and confirmed by the Senate. He has been in Utah but a few months, and although a gentleman of education, it is feared that he is entirely too young and inexperienced in public affairs to fill such a position, with its attendant complications on the question of polygamy, and by no means a match for Brigham Young.

—In Iowa the Republican majority was 19,497 in 1868, and this year is 41,284. The Democrats are beginning to give up all hopes of "carrying" that State in Iowa.

What the People Owe to the Republican Party.

While the Tammany Democracy have been slaughtering the State Revenue, increasing the expenditures right and left, and piling up the debt, what has the Republican party been doing for the country? For one thing, it has paid off $180,000,000 of the national debt, thereby reducing the yearly interest account by nearly $10,000,000. For another, it has reduced the taxes by $80,000,000. For another, it is running the government more economically than it has been run since Jackson's day. For another, it has brought up the value of the paper dollar from sixty-five cents in gold to ninety. For another, it has so improved the public credit abroad that some of our bonds are now quoted above gold. Intelligent people cannot fail to find in these facts the weightiest possible arguments for sustaining the Republican Administration. It is their plain interest to do so. That Administration has saved them in the last year and a half $170,000,000. It is only by what a party has done in the past that we can form a judgment as to what it will do in the future. The financial question is now the great question before the people. It will be for years to come. Let every intelligent voter candidly compare for himself the record of Grant's Administration at Washington and that made by Hoffman's Administration at Albany. After he has done that, he will be at no loss to decide which of the two parties deserves his support.—Troy Times.

Mr. Stears and the Re-Union.

The last issue of the regular Democratic organ in this city, the Re-Union, says some very mean things of the Republican candidate for County Clerk and says them in a very mean way. The editors show, however, a very full acquaintance with the ways of the turf and make all sorts of charges against Mr. Stears, which we know have no existence outside the sickly imagination of the political editor of the aforesaid Democratic traducer.

Mr. Stears has been in no way connected with the Congressional question, now amicably settled, except to use his every effort to secure the election of whomsoever should be designated by the Committee of reference. He will lose no friends in anyway, not even in the Democratic party, and the verdict of the people next Tuesday will show that the people believe in his integrity in all things. Because he is Secretary of the Watertown River Park Association we do not know as that is sufficient reason why the Re-Union should throw mud upon him in such a disgraceful manner by charging him with "making money no matter how."

Messrs. Phelps, Bradford, Powers, Brintnall, White and others belong to the same Association, and are good Democrats as well as good men. Dare the "Re-Union" make a similar charge against them? and can it procure the approval of either one of these gentlemen to any such charge against Mr. Stears? We say it cannot.—Mr. Stears is neither a gambler, a "drinking man" or a Democrat. We want everybody to understand that, and that every vote for him is a vote for one of the best men on the ticket.

The Utica Herald entered yesterday upon its 24th year. In an anniversary editorial, Mr. Roberts says of his paper:

Its early years were a period of struggle. Unwearying labor, persistent watchfulness and lavish expenditure have been unstintingly devoted to it. It has had the privilege of doing what service was within its ability for the abolition of slavery. It stood by the Union, and tried to hold up the hands of the army and the government, in the dark days of the war. It sustained the administration in raising men and money, and has never doubted the national resources, but insisted always that the public credit must be maintained to the uttermost. It has been permitted to rejoice over the triumph of the arms of the republic, and the approaching completion of reconstruction. In that conflict it fought the fight of free and elevated labor, and now steadily continues the same good fight.

What he says of its earlier years being a period of struggle, of unwearying labor, persistent watchfulness and lavish expenditure, we can fully appreciate; for if it required these in the center of the State, where a rich and dense population surrounded him, with extraordinary mail facilities in every direction, and telegraphing under associated interests, how much more do troubles thicken in smaller places, with less people and less wealth, and meagre mail facilities, and an independent line of telegraph to support! We can believe all Mr. Roberts says in this behalf, and rejoice with him that he is fairly beyond them, if we are not.

New Freezing Machine.

F. Mulhausen, civil engineer of Brunswick, has invented, according to the British Medical Journal, a new freezing and ventilating machine of remarkable ingenuity. The cold is produced by the mechanical expansion of atmospheric air. It produces, when in operation, any desired degree of cold, freezes water without the use of any chemical agents, and will effectually cool and ventilate any apartment or building, on whatever scale, large or small. In hospitals, especially in tropical climates, where the productions of ice and the cooling of air are often matters of great urgency, and always of great value, in theatres and workshops, and in our new Indian barracks, such a machine will be of infinite value. The London theatres can hardly afford to be without it. The labor of one man, with a small 5-horse motor power machine, will produce 100lb of ice an hour, and cool 15,000 cubic feet of air from 80 deg. to 50 deg. Reaumur.—*sic in B. M. J.*

On the 1st inst. two magazines containing 150,000 pounds of nitro-glycerine, exploded at Fairport, near Painesville, Ohio. Four persons were blown to atoms, viz: Patrick Scribner, two persons by the name of Malone, father an son, and Ed. Duncan. The buildings on the east side of the river were greatly damaged. The shock from the explosion was felt for miles.

—Senator Fenton and C. M. Depew addressed a large and enthusiastic meeting of Republicans at Jamestown, Chautauqua county Monday night.

What it Has Cost.

The people of this State are very heavily burthened by our Democratic administration for the benefit of Western grain speculators, owners of elevators, the Canal Ring, and a score or two of Western dock-men and shippers. To enrich these classes, our people paid this year, to be met by a direct tax next year, the following sums:

Loss in tolls	$1,500,000
Increase of repair expenditures	1,400,000

And where hitherto there has been a surplus of $8,000,000, there is now no surplus at all. The consequences will be that, while the Canal tax is this year $4,000,000 (150 per cent. more than last year) next year the tax will be at least $6,000,000.—Albany Evening Journal.

"New York City is to be placed at the mercy of thieves and villains," is the heading of a leader in the Albany Argus. We should say the city had been "at the mercy of thieves and villains" for several years; and that the question with which the people are concerned just now is whether the State likewise is to be "placed at the mercy" of that sort of beings.

Mayor Hall makes the mock offer of $100 for the conviction, *in the State Courts*, of any one caught fraudulently registering. Bah! He knows full well that a Tammany man could no more be convicted in those courts than the Sing Sing prison can be proved to be filled with honest men.

General Wilson Shafer, last spring appointed Governor of Utah Territory, died on the 31st ult., at Salt Lake City, of consumption. He was born at Jacksonville, Illinois, entered the army at the first summons of the President in 1861, served during the entire struggle on the staff of Gen. Butler, achieving marked distinction during that General's numerous campaigns. His funeral was attended at Salt Lake City on Monday, and the highest respect was shown his memory. The procession which followed his remains was large and very imposing. Brigham Young's carriage, with five apostles, the entire federal military, masonic fraternity, members of the church, the Mormon high council, and a large company of citizens turned out.

Deception of the French Leaders.

The Independence Belge of Brussels, derives from an officer who escaped from Metz, and from the Moselle Independence, published at Metz, at the time of the entry of Germn troops, the fact that the French leaders deceived the army by promises to cut their way out.

These promises were solemnly repeated, even while negotiations for the surrender were pending. The Independence Belge says Gambetta was unquestionably right in charging Bazaine with high treason.—The population of Metz were unanimous in denouncing Bazaine as a traitor.

At Tours, the news of the capitulation fell upon Government and people like a thunderbolt, so strong had been official assurances of its safety.

Some journals, however, and notably, the Constitutionale Francaise and Gazette de France, demand suspension of judgment, and deprecate the strong language of Gambetta's proclamation condemning Bazaine.

The latter journal suggests a council of war to investigate the matter, in order to give the Marshal a fair opportunity to make his defence. The government at Tours is in receipt of several memorials numerously signed in adjacent departments, urging the prosecution of the war to the bitter end, and denouncing Bazaine for his treasonable surrender of the strongest fortification of the nation.

Bazaine and suite reached Cassel on Monday.

—Three hundred feet of the bed of the Portland and Ogdensburg Railroad, across Otter Creek, in Standish, settled ten feet at the time of the recent earthquake. It seems from this that the said earthquake was a regular "old settler."

—A Wisconsin man, going to Milwaukee on business, was entrusted with a commission to purchase musical instruments for a Sunday school. He brought back six fifes and a brass drum.

(Business Notice.)

A Body and Mind Diseased.

Such is dyspepsia. The stomach and the brain are too intimately allied for the one to suffer without the other, so that dyspepsia and despondency are inseparable. It may be added, too, that irritation of the stomach is almost invariably accompanied by irritation of the temper.

The invigorating and tranquilizing operation of Hostetter's Bitters is most powerfully developed in cases of indigestion. The first effect of this agreeable tonic is comforting and encouraging. A mild glow pervades the system, the chronic uneasiness in the region of the stomach is lessened, and the nervous restlessness which characterizes the disease is abated. This improvement is not transient. It is not succeeded by the return of the old symptoms with superadded force, as is always the case when unmedicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The aperient and antibilious properties of the preparation are scarce secondary in importance to its tonic virtues. If there is an overflow of bile the secretion is soon brought within proper limits, and if the bilery organs is inert and torpid it is toned and regulated. The effect upon the discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The bitters also produce healthy evaporations from the surface which is particularly desirable at this season, when sudden spells of raw, unpleasant weather are apt to check the natural perspiration, and produce congestion of the liver, coughs, and colds. The best safeguard against all diseases is bodily vigor, and this the great Vegetable Restorative essentially promotes.

[Business Notice.]

No HUMBUGGING! No CHEATING!!—A pint bottle full of Dr. Sage's Catarrh Remedy is prepared from one fifty cent package, and the proprietor offers $500 reward for a case of Catarrh which he cannot cure. Sold by druggists, or send sixty cents to Dr. R. V. Pierce, 133 Seneca street, Buffalo, N. Y., and receive it by mail. A pamphlet free. Beware of counterfeits and worthless imitations. The Genuine has, upon the outside wrapper, Dr. Pierce's private Government Stamp with his portrait, name and address, and the words "U. S. Certificate of Genuineness" engraved upon it.

It is only the very essence of intrinsic merit which we know to belong to the recent Medicinal Discovery that induces us to step aside from our regular course and make mention of the fact without remuneration. We therefore tell you that this peculiar combination of Indian Vegetable Remedy Medicines, known as the Great Shoshonees Remedy, in merit stands unequalled in the world to-day.

—Mr. Jencks, of the first Rhode Island District, since the failure of the convention to nominate a candidate for Congress, announces that he will go before his constituents and present his claims for re-election.

(Business Notice.)

LAUGH AT THEM.—If you happen to have a narrow chest, don't allow people to persuade you that, therefore, you are in imminent peril of consumption. Meet the first symptoms of a cough, a cold, or a bronchial attack, with a few doses of Hale's Honey of Horehound and Tar, and you are as safe from consumption as if your chest was as broad as the torso of Hercules. All the complaints that lead to phthisic yield invariably to this new and wonderful remedial agent. Sold by all druggists at 50 cents and $1. Great saving by purchasing large size.

MARRIED.

KLEIN—SKINNER—At the residence of the bride's mother, in Watertown, Oct. 30, by Rev. J. W. McKee, Mr. Charles A. Klein, of Toronto, Ontario, and Miss Emma Skinner.

J. EDGAR THOMPSON, } Trustees.
CHARLES L. FROST, }

The bonds are issued at $30,000 per mile against the portion only of the line fully completed and equipped.

The greater part of the road is already in operation and the present earnings are largely in excess of the operating expenses and interest on the bonds. The balance of the work necessary to establish through connections, thereby shortening the distance between St. Paul and Chicago 45 miles, and 90 miles to St. Louis, is rapidly progressing, in time for the coming grain crops, which, it is estimated, will double the present business of the road.

The established connections of this road, running as it does through the heart of the most thickly settled and richest portion of the great State of Iowa, together with its present improved condition and large earnings warrant us in unhesitatingly recommending these bonds to investors, in every respect, an undoubted security. A limited quantity of the issue only remains unsold, and when the enterprise is completed, which will be this fall, an immediate advance over subscription prices may be looked for.

The bonds have 30 years to run, are convertible at the option of the holder into stock of the company at par, and the payment of the principal is provided for by a sinking fund. The convertibility privilege attached to these bonds cannot fail to command a market price considerably above par. U. S. Five twenties, at present prices return only 4½ per cent. currency interest while these bonds pay 9% per cent., and we regard them to be as safe and fully equal to any railroad bond issued; and until they are placed upon the New York Stock Exchange, the rules of which require the road to be completed, we reobligate ourselves to re-buy at any time of these bonds sold by us after this date at the same price as realized by us on their sale.

All marketable Securities taken in payment free of commission and forces charges.

A CARD.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weaknesses, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by Mercurial and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, free of charge. Address JOSEPH T. INMAN, Station D, Bible House, New York City.
