EXPECT TO AT

Philadelphia, Pa., Aug. 3.—(Night)—French troops are being massed along the Rhine ready to proceed through Bavaria to the assistance of Poland, according to reports from Bavarian cities received here tonight.

London, Aug. 5.—Premier Lloyd George announced today that he would present the entire Russian-Polish situation to Parliament this afternoon and ask support for the action the government intends to take.

London, Aug. 5.—Russian cavalry has actually invaded the "corridor" through East Prussia, according to reports received here today.

Germany in Deal The Times said it learned that the Germans and Russians negotiated a secret treaty before the beginning of the Soviet offensive, under which it was agreed that Russia should appropriate Polish arms, including stock and goods without interference from Germany.

WANAMAKER'S

Fourth Day of the Great Furniture Sale

Tooth Brushes 5,000 at 25c

Remnants of Summer Cottons

The helpfulness of its economies in the kind of furniture wanted by people who are making happy homes, lifts the August Sale above all others.

Closing out Ruffled Curtains

Why do people in homes near and remote mark the month of August in a ring of red to remind them of the Wanamaker Furniture Sale?

Women's Suits of Silk Shantung at \$25

BECAUSE in August, at Wanamaker's is assembled a stock of furniture representing the best American producers in all grades, at the lowest prices for which such furniture may be bought, at or near that time, anywhere.

Special purchase of Philippine Lingerie

Have YOU ever realized that? We have done this for years. And the people's purchases in August have grown year by year.

2,934 pairs of our finer Shoes for Women, \$8.75 pair

They are all this seasons shoes—pumps and oxfords, very sizes 2 1/2 to 8, in AAA to D widths—not in every size, but several choices in every size.

Special purchase of Philippine Lingerie

In the Silk Packet Sale

A sale of fine SILK SHIRTS

True, lines are broken. Otherwise, how could you expect to get heavy broadcloth silks, and the very fine radium silks with satin stripes at this price?

Health Advice

Epilepsy

Epilepsy is an affection of the brain which at variable intervals gives rise to an attack characterized by convulsive movements and unconsciousness.

HELPFUL HINTS FOR HUSTLING HOUSEWIVES

Hot, unsweetened cocoa may be used in place of scalded milk in cup custard.

Cook cucumbers as you would squashes. They make delicious fritters and pies.

When making sweet sandwiches, see that the jelly or jam is firm.

When beating whites for cakes use a flat dish and a wire whip.

The eggs being saved for meringue should be turned every day.

Your cake will be lighter if you beat rather than stir the batter.

Codfish stuffed and baked in a good main dish for a spring dinner.

When making pie crust add a little baking powder. It makes the crust much richer.

To stop a cake from burning, when your oven is too hot put a tin in and pour your cake tin in it. This will keep it from burning on the bottom.

In baking juicy pies try putting in each pie a spoonful of fine tapioca. It will prevent the juice from running over and impart a rich flavor to the pie.

When broiling a steak take the steak on the end of a butcher fork, plunge quickly in and out of boiling water. This tends to seal the outside and saves the juice. Then broil in the usual manner.

When making tea try putting in a piece of dried orange peel about the size of one's thumb nail into the teapot before pouring in the boiling water. You will wonder at the fragrance and taste that it gives the tea.

Q. Please give me information as to how long tuberculosis germs will live away from an animal body; i. e. how long will they live after one has died in a house and has left more or less deposits of sputum on clothing, bedding, furniture, etc. if the house has been closed after the death of the patient.

A. The length of time that tuberculosis germs will live outside of the animal body varies considerably. It depends principally on the kind of material in which the germs are lodged (mucus, pus, feces, urine, etc.) It also depends on the amount of moisture present, on the presence or absence of sunlight, temperature, and other factors.

Q. Can diabetes be cured? If so, please advise treatment.

A. The treatment of diabetes has developed and improved considerably in recent years. The basis of much of the treatment at the present time is an initial starvation until the sugar disappears from the urine. The original fast may last from two to ten days in length, but after that no fast need be longer than a day.

Q. While the principle of this treatment may be understood by a person having diabetes, it is obvious that it can be successfully carried out only under the supervision of a competent physician.
