IN ADVANCE

## COMMENCEMENT EXERCISES WILL BE HELD NEXT TUESDAY EVENING -CLASS DAY COMPLETE PROGRAM

Admission to Commencement Up to Eight o'Clock by Ticket Only

Complete programs for Class Day exercises and the annual Commencement in Newark Schools were made public this week by Superintendent Stroup.

Admission to the Commencement exercises in the Presbyterian Church, Tuesday evening, will be by ticket only. This regulation was adopted by the Board of Education because of the size of the class and because the way the matter has been handled in previous years did not prove satisfactory to members of the class and their friends. This plan will give friends of graduates first opportunity for seats in the church. After eight o'clock the doors will be thrown open and tickets will be distributed.

Superintendent Stroup suggests that anyone desiring to attend Commencement and who does not receive a ticket can very likely secure one by asking some member of the class.

Superintendent of Schools Ernest C. Hartwell of Buffalo will give the address at Commencement. Rev. J. J. Gandy will pronounce the invocation. Edith M. DeYoung is valedictorian and Frank Viola, salutatorian.

The Class Day exercises will be held Monday evening at eight o'clock in the High School gymnasium, and an interesting program has been arranged.

The officers of the class are: President, Roger Vanderbrook; vice-president, Ruth A. Espenmiller; secretary, Hazel E. Schwartz; treasurer, Margaret J. DeYoung. The honor members are: Edith DeYoung, Frank Viola, Hazel Schwartz, Alice M. Hyman, Ruth A. Espenmiller, Sybil L. Shearer, F. E. Bodine, Margaret E. Schatner, Ona E. Ridley, and Mary E. Wallace.

The complete programs for the exercises are as follows:

(Continued on Page 12)

## WORK ON PIER AT SODUS POINT BEGINS

Major Eugene Raybold of Buffalo visited Sodus Point last week on a tour of inspection of the proposed harbor work. The dredging and deepening of the channel between the Lake and Sodus Bay has been completed by the U. S. Army Corps of Engineers, and work has started on increasing the height of the pier to protect the harbor. It is expected that the harbor will soon be available for widening the channel entrance.

## CONCRETE REPLACING DIRT IN NORTH ROSE

The main street of North Rose, for a distance of six and one-half hundredths of a mile, is being covered with concrete. Twenty feet of the width is being built by the State and the balance of approximately forty feet total width, together with the curbing, is being paid for by the village. Cleveland and Sons are the contractors, and the work is under the supervision of Division Engineer R. J. Storms.

## G.O.P. TO MEET IN ALBANY ARMORY SEPTEMBER 25

The Republican State Convention will be held at Albany, September 25th in the State Armory. The opening session will convene at 11 a. m. Wayne County's delegation will be one less than in 1928. At the last State Convention the County was represented by nine delegates. There will be only eight this year. This reduction comes from a decision made by the State Committee last week to reduce the size of the convention by changing the basis of representation. The basis this year will be one delegate for each township. This new basis will provide a convention of 991 delegates as against 1147 two years ago. Had the same basis of representation been continued, the convention this year would have had 1703 delegates.

The larger part of the reduction comes in the districts. In the districts of Greater New York, Erie County, Monroe, Niagara, Onondaga, Rensselaer, Westchester, and Albany there is a reduction of forty-three with a reduction of 113 in all of the other counties.

## DECOOK HOME BURNS TO GROUND SAT. NIGHT

The home of John DeCook, about four and a half miles southeast of Newark, burned to the ground Saturday night between eight-thirty and nine o'clock. The DeCook family was in Newark at the time and the blaze was discovered by neighbors who immediately sent in the alarm which was answered by the Phelps Fire Department. Some of the furniture was saved and some animals were rescued. The barn was kept wet so no damage was done to it. An Overland sedan was badly damaged by the fire.

The house is located on the Phelps-Marbleton road and owned by Fred Witt. It is reported that there was no insurance to cover the loss.

## STUDENTS GET SCHOOL PRIZES

Awards Made at Close of Grade Schools and at Last Junior Assembly

At the close of the regular grade school on Wednesday of this week the following prizes were awarded:

Perkins School: The William P. Steiner Scholarship Prize of \$5.00 was given to the member of the sixth grade who passes into the seventh grade with the highest average was awarded to Shirley Howard.

The Progress Spelling Prize of \$1.00 for the 6A grade was awarded to Corneilia DenFamer and 6B grade to Willie Pulver.

Lincoln School: The William P. Steiner Scholarship Prize of \$5.00 was awarded to Robert Putnam. The Progress Spelling Prize for 6A grade was awarded to Theresa Niffole and 6B grade to Stanley Wiebicki.

Roosevelt School: The Jacob Loos Scholarship Prize of \$5.00 was awarded to Betty Maynard. The Progress Spelling Prize of \$1.00 for the 6th grade was awarded to Mary Celso.

The Billy Schulz Standard Bearer Prize of \$10.00 was awarded to Duane Brown, who is next highest in standing to Billy and who has (Continued on Page 12)

## SWIM SCHOOL OPENS JULY 7

Red Cross Expert Will Direct Course for Boys and Girls at Wide Waters

A swimming school will be started at the Wide Waters, July 7th, under the direct supervision of Robert S. Brumagin, Red Cross Life Saving Examiner. The Newark Lions Club has co-operated with the local Red Cross to make this school possible and Harry A. Teller, Wayne County Red Cross chairman, has appointed Scout Executive Ingison and Dr. James Davis to take charge of the arrangements and act as an advisory council.

Brumagin is a graduate of Syracuse University and has been connected with the Red Cross Life Saving work for several years. He has held positions at playgrounds and summer camps near Syracuse and Amsterdam. He was recently reappointed by the service by Frank R. Hoercher, Red Cross field representative for New York State.

Classes in swimming and life-saving will be held twice a week during July and August for both boys and girls. There is no fee for this instruction but each applicant must present an applicant blank filled by their parents or guardian. These blanks may be received from the Red Cross office in Newark or at the County office.

Arrangements are under way to form a men's class in life saving work to be held in the early evenings. This will accommodate men and boys over seven years of age who cannot attend the daytime classes on account of their regular work. These classes are also held at Sodus Point, Holland's Cove, Palmyra and Clyde.

## W. B. YOUNG'S CARD LOW IN SATURDAY'S MATCH AT COUNTRY CLUB

W. B. Young turned in the low score in Saturday's event at the Newark Country Club with a net score of 67. His gross score was 84. Four players tied for second honors with net scores of 69. They were H. Newton, Dr. Service, T. Hoffman and L. A. Gilbert. C. F. Smith turned in a card of 70 to take third place. Dr. Case had 71 strokes. R. E. Johnson took 72 and Herbert Jackson scored a 73.

There were a good number of divots dug out in spite of the "weltering" heat and some of them even played twenty-seven holes under Old Sol's blistering rays. The scratch team match which was scheduled for the day was canceled and the regular sweepstakes played instead. Sweepstakes are in order for this Saturday also.

## CAMPAIGN TO RAISE FUNDS FOR BOY SCOUTS NEARLY COMPLETED

Seven Wayne County communities have completed their campaign for funds to support the work of the Boy Scouts in Wayne County. The communities over the top are North Rose, Sodus, Wolcott, Williamson, Macedon, Ontario and East Williamson.

Lyons and Savannah have practically completed their canvass and will raise their quota without difficulty. Walworth, Macedon and Sodus are very close to their objective. Palmyra, Clyde, Rose and Pultneyville were a bit slow in getting under way but it is expected the campaign will be finished by the end of this week. There seems to be every indication that the full amount of \$3900, the objective outside of Newark, will be reached by the time the final reports are in. The campaign in Newark will be reached in the Fall.

## 214 STATE HIGHWAY CONTRACTS UNDER WAY

There are 214 highway contracts under way in the State according to a report for the week ending June 10th issued by Commissioner A. W. Brandt. On these contracts, 7,694 men are employed and the State maintenance force is \$320.

The total yardage completed during the week is 23,093 miles and for the season, 96,473 miles.

Road Oiling

The County road crew will oil Minstead, Marbleton and Zurich roads this week. The Eydesville road, which was oiled last year, will not be resurfaced until 1931.

## ROOSEVELT TEAM WINS ITS ONLY SPORT AWARD

Roosevelt School won their only athletic championship of the year last week when they defeated the Lincoln School in baseball, 6-3. Lincoln had previously beaten Perkins, so Roosevelt gets the baseball banner which is awarded to the winner.

The Roosevelt players were: H. and E. Orbakker, Spade, Rensler, Shaner, D. Boutwell, Monte, Maynard, F. and Wolf. This was the last grammar school athletic event of the season.

## LIONS SPEAKER TALKS ABOUT NEWARK'S FUTURE

Fred Steinerwald Jr., son of Mr. and Mrs. F. Steinerwald, 101 E. 10th Street, was the speaker at the Lions Club luncheon, Wednesday. His topic was "Newark of the Future as I See It."

He declared that while the future of Newark was in the hands of the younger people, the extent of its progress depended entirely on the degree to which the older folks succeeded in interesting young people in civic progress, and in making them want to remain here after finishing college.

## SCHOOL COST IN NEWARK UNDER STATE AVERAGE

Cost Per Pupil Has Decreased Steadily During Past Eight Years

The cost per pupil of conducting the schools has decreased steadily during the past eight years, according to statistics furnished the Courier by Superintendent, F. N. Stroup. His figures are compiled from a bulletin recently received from the State Department of Education.

In a group of eight-four villages in the State under Superintendent Newark ranks fifth in per pupil cost: that is, forty-nine of these villages have a higher cost per pupil than Newark and thirty-four a lower cost. The highest is Bronxville with an average cost of \$27.84 and the lowest is Frankfort, \$17.76. Newark's per pupil cost this year is \$17.01.

The tabulation shows that the cost per capita in Newark is much lower in comparison in 1927-1928 than it was in 1922-1923. The latter year there were sixty-seven villages under a superintendent and in this group Newark's rank was nineteenth, which was considerably above the average for the group. In 1923-1924 there were sixty-eight villages under a superintendent and Newark's rank was thirty-four. In 1924-1925 there were seventy-seven villages under a superintendent and Newark's rank was thirty-four. In 1925-1926 there were eighty-two villages under a superintendent and Newark's rank was forty-three and in 1927-1928, as per the tabulation given above, there were eighty-four villages under a superintendent and Newark's rank was fifty.

## FIELD LAB IS CONDUCTED AT NEWARK PLANT

A field laboratory from the National Canners Association in Washington has been conducted at the Edgett-Burnham Canning Factory for the past week, for the purpose of improving the products of the factory. They have devoted their time to research work and actual results cannot be obtained until next fall.

This agency is supported by the Canners' Association and the field work is for the purpose of bringing the source of expert advice in direct contact with the packer. The experiments are mainly to reduce the amount of spoilage in the canned products. They have made experiments on the work at the Edgett-Burnham factory. These packs will be taken to Washington where they will be subjected to incubation and the results of the various methods noted.

There are four men doing the experimental work. Dr. Cameron is in charge and his men are Mr. Williams and Mr. Currier. They carry their own laboratory equipment in a large truck designed especially for their work.

The bacteriological laboratory work will be completed tomorrow and the men will move to Michigan, where they will conduct experiments on the pea pack in that State. They will also work on corn in Illinois, Indiana, and Ohio, after which they will return to their headquarters in Washington.

## ROTARY TAKES SOFT BALL GAME FROM LIONS

The Rotary Club's soft ball team vanquished the roaring Lions again Wednesday evening, June 11th. Things looked good for the Lions up to the last inning when they bowled grounders and made wild throws until the Rotarians had sent three men rolling across the home plate giving them a one run victory. Reeves tossed for the losers and Babcock was on the mound for the winners. The Lions line-up included Davis, Ineson, Davidson, Darrow, Chittenden, Stott, and the Rotarians playing were: Holloway, Crofoot, Allen, VanHorn, Chapman and Burgess.

## DR. REED WILL SPEAK TO PRESBYTERIANS AT COUNTRY CLUB TONIGHT

The ministers and laymen of the Presbyterian Churches of Newark, Lyons, Clyde, Palmyra, East Palmyra, Williamson, Sodus, Marion, and Ontario Center will attend a dinner this evening (Thursday) at the Newark Country Club, where they will hear a discussion on the Importance of Seminars by Rev. Harry Lathrop, D. D. Dr. Reed is president of the Auburn Theological Seminary and will talk principally on the work of that school and its service to this territory.

The dinner is given to acquaint the Presbyterians of this locality with the needs of the Auburn Seminary and to start work on their campaign to raise one million dollars for improvement of that school. About thirty churchmen are expected to attend the meeting.

## ASKS CHANGE IN DANGER POINT AT PORT GIBSON

Newark Chamber Asks State to Relocate Route 31 Along Barge Canal

A movement having for its aim the elimination of what is perhaps the most dangerous part of Route 31, was started at the Newark Chamber of Commerce Executive Council's meeting, Monday.

A resolution was unanimously voted asking the State Highway Department to eliminate the dangerous bend at Port Gibson by a re-survey and reconstruction of Route 31 directly along the "heel path" on the south side of the Barge Canal through Port Gibson. The secretary of the Chamber was instructed to forward copies of this resolution to the Automobile Club and Chamber of Commerce in Rochester and to all service clubs along the line of Route 31. The resolution adopted is as follows:

RESOLVED: That we, the members of the Executive Council of the Newark Chamber of Commerce, respectfully request and urge the State Highway Department to take early action in the matter of removing the most serious danger point on Route 31, at the center of Port Gibson, by resurveying and building the highway from the east side of Port Gibson directly along the heel path of the canal, connecting again with the present Route 31 at the northwest side of Port Gibson, and be it further:

RESOLVED: That copies of this resolution be forwarded to Arthur W. Brandt, State Commissioner of Highways, and to civic and service organizations in the cities and villages along Route 31.

The Executive Council voted to invite the Isaak Walton League to hold its State Convention in Newark on September 11th, 12th and 13th.

The secretary of the Council was instructed to present to the Village Planning Board the suggestion that the State lands along the north side of the Barge Canal, between the property recently purchased by the Sure Oil Company and the Edgett-Burnham bridge with the idea that this land be used at some future time for a village park.

## QUEEN OF THE AIR

ELINOR SMITH  
The 18-Year-Old Flying Phenomenon Who Will be in Newark July 4 & 5

## COUNTY JOINS EFFORT TO GET VET. HOSPITAL

Chances of Locating Hospital East of Lyons Village Improving

All Wayne County is uniting in an effort to have the new United States Veterans Hospital located on the proposed site just east of Lyons village. At the time of the Legion conference in Newark it was believed that Wayne County was out of the race and that the location would undoubtedly go to Canandaigua. On account of this the Seventh District Legionnaires voted approval of the proposed site in Newark on Sunday, at Washington seems to be available there. It is reported that the plans for the new institution involves one acre of ground to each ward. Therefore, if 400 beds will be needed, this amount of land is said to be easily available in the Lyons location. A small part of the land there is owned by the County having been purchased originally for the site of a tuberculosis hospital but it is reported from Lyons that additional acreage up to probably 700 if needed can be acquired at a nominal price.

The Wayne County Legion held a meeting in Lyons on Sunday, attended by about fifty representatives of Wayne County Posts. The site was inspected and was unanimously approved. The Chamber of Commerce in Newark added its endorsement Monday and it is expected that service clubs throughout the County will follow suit.

It is believed that the character of the site will be the principal factor in bringing about a decision of the location by Washington authorities, and it is said in favor of the Lyons location that it is the center of the area to be served, it is high in elevation and beautifully wooded, and that it is centrally located on a highway by either rail or improved highway.

The Chamber of Commerce of Lyons, of which S. L. Hartman is president, is holding a dinner at the Wayne Hotel, Friday evening.

## EAST PALMYRA LEADS IN RED ARROW CLUB'S BAG OF GOLD CONTEST

In the past two weeks since the publication of the contest, the ladies of the East Palmyra Church by accumulating more than 1,100,000 new credits, have stepped to the front place in the Bag of Gold contest of the Red Arrow Club.

The American Legion Auxiliary who, in the last report, were in the first place, now stand third in line. The East Palmyra ladies now have 3,423,025 while the Legion Auxiliary are credited with 2,856,806. The Newark Hi-Y Club holds its second place with 3,150,806.

The ladies of the Lutheran Church are coming strong and are now in fourth place with 2,672,675, with the Redmen in fifth place with credits amounting to 1,763,750. This organization has added no credits since the report two weeks ago. Almost all the credits expected in the way of reports between now and the closing date, July 10th.

## FILKINS ROAD TO BE FINISHED THIS WEEK

The Filkins road, running south from Peak's bridge, will be covered with gravel this week. For several days Superintendent Welcher's crew has been very busy there with scrapers, making a real road out of what was nothing more than a cow path.

The lucky finding of a fine gravel pit on the DeWitt farm will materially reduce the cost of rebuilding this mile of road and enable Welcher to extend his work about a half mile farther to the south for the same appropriation.

## NEWARK BOY IS GIVEN HONORS AT WEST POINT

Cadet Richard Meyer, son of Mr. and Mrs. Gordon Meyer, has been named as "A Distinguished Cadet" at West Point. He received this honor for having an average of over 92 per cent in both Academic work and general merit. The citation entitles him to wear the Gold Star insignia on the collar of his uniform. Dick was the only first year cadet in "A" company to be awarded this distinction.

## LEE SHOENHAIR WILL ATTEMPT TO ESTABLISH NEW SPEED RECORDS AT THE AIRMEET HERE JULY 4-5

Wayne Co. Fruit Above Average

Present Condition Promises Fine Crop Says Assistant County Agent

According to Assistant County Agent, Bond, of the Wayne County Farm Bureau, the fruit crop in Wayne County is in unusually good condition compared with that of other parts of the State and country. The sour cherry crop in the State is reported to be 77%, compared with 62% last year. Mr. Bond says that Wayne County's crop will be considerably better than that figure. The trees have been overladen with fruit, but so far the drop has just about been sufficient to put the trees in good shape.

Apples in Wayne County, with the exception of Baldwins are in unusually good condition. The Baldwins blossomed poorly and the crop will be short. On the other hand, the McIntosh trees promise an unusual crop, with Greenings a close second.

Pears are in better than the average condition throughout the County. The State report says that the crop is about the average throughout the State but light in the Middle West. The total crop of the country is estimated one million bushels more than the five year average.

## WAYNE SCOUTS AT THE AIRPORT

Court of Honor and Round-Up Will be Held in Newark Saturday

Six troops of Wayne County Scouts have already registered for practically full attendance at the Wayne County Scout Round-Up and Court of Honor to be held Saturday at the Newark Airport. Several other troops will be represented by part of their enrollment.

The troops are scheduled to arrive at the camp at one p. m., Saturday, at 2:30 p. m. a program of contests will begin, covering many activities of the organization.

At 4:15 the Scouts will parade, headed by the Eagle and a drum corps of Williamson and by a volunteer band from Troop 138, Newark. At six o'clock will come supper, cooked by the boys themselves over camp fires. At 8:15 there will be an open air Court of Honor around the Court fire. This will be conducted in a manner similar to the methods used by Indians, the first part of the program being given over to ceremony and the granting of awards, and the second part to entertainment.

Leaders training certificates will be presented to the following leaders who have completed the minimum course in Scoutmaster's Training: Raymond Cooper, Williamson; Eldon Sanford, Sodus; Wilbur Colby, Newark; Herbert White, Marion and Clarence DeLay, Sodus. Taps will be sounded at 10:30.

On Sunday reveille will sound at 6:30, breakfast at eight o'clock and from eight to ten the boys will be on shot drill. From ten to twelve the boys will attend church and at noon dinner will be served. Camp will break up at three o'clock.

## FARM HAND SHOOTS AT PETTY THIEF BUT MAN ESCAPES IN CAR

Harold Merriott, an employee on the Wesley Palmer farm north of Newark, shot and wounded a man who was stealing oats from the barn at that place Monday night. Merriott heard the man load up into a Ford touring car and was driving away. Merriott shot once and the man screamed as if in pain which leads to the belief that the shot went true. From ten to twelve the boys will attend church and at noon dinner will be served. Camp will break up at three o'clock.

## VILLAGE FATHERS ATTEND CONFERENCE

Seven representatives of Newark, headed by Mayor Frank Bailez, attended the New York State Conference of Mayors and other Municipal Officials at Utica, last week. Other members of the group were: Albert Fisk, village clerk; LeRoy Wright, village engineer; Harry Parker, fire chief; Mitchell Chedwick, member of Municipal Board, and Trustees John Metcalf and Curtis Scott.

It was the largest meeting the Conference has yet held and all of Newark's representatives reported that the conference benefited them in their municipal activities. The Conference will be held in Glens Falls next year.

## FINISHED THIS WEEK

The Filkins road, running south from Peak's bridge, will be covered with gravel this week. For several days Superintendent Welcher's crew has been very busy there with scrapers, making a real road out of what was nothing more than a cow path.

The lucky finding of a fine gravel pit on the DeWitt farm will materially reduce the cost of rebuilding this mile of road and enable Welcher to extend his work about a half mile farther to the south for the same appropriation.

## WAYNE CO. FRUIT ABOVE AVERAGE

Present Condition Promises Fine Crop Says Assistant County Agent

According to Assistant County Agent, Bond, of the Wayne County Farm Bureau, the fruit crop in Wayne County is in unusually good condition compared with that of other parts of the State and country. The sour cherry crop in the State is reported to be 77%, compared with 62% last year. Mr. Bond says that Wayne County's crop will be considerably better than that figure. ## FINE PROGRAM OF CHAUTAUQUA OPENS JUNE 26

Chautauqua will open this year on Thursday, June 26th, and will continue as usual for six days. The program planned is without question, one of the best presented in all the history of this organization. It includes three plays, three musical entertainments, five noted speakers and an entertaining children's program.

Foremost among the plays is "Journey's End" which for the past two years has been playing to crowded houses on Broadway and throughout the country. It is referred to as "a war play that should end wars."

"The Perfect Alibi" is the first mystery play ever presented by Chautauqua and is fresh from big Broadway success. It is full of thrills, chills, laughs and drama.

"Broken Dishes" by Martin Flavin, is a mirth stirring domestic comedy that has also met with marked success in New York and other cities.

Among the musical stars on the program are Madam Tamaki Muira, premier Japanese soprano, assisted by Marie Carley, American pianist and William Durieux, renowned Dutch cellist. Other attractions are the Hernandez Brothers and Senorita Aida Luciano, specialists on stringed instruments and popular radio artists and Victor record makers.

The Singing Cadets, a male quartet in uniform, which has sung and rollicking college pieces, will furnish another important feature of the program.

The five inspiring public speakers include Carvelh Wells, famous British explorer; Captain T. Dinsmore Upton, who will discuss "Re-creation Through Recreation"; Lieutenant Jack E. Richardson of the U. S. Navy, navigator of the Los Angeles and official observer for Uncle Sam on the Graf Zeppelin; Fred M. Snyder, newspaper man who is referred to as "T. N. T. compound of keen wit and hard baked truths"; and Walter E. Stevens, political expert of Columbia University, who will discuss foreign affairs.

Among other features on the program is Mardoni, the mawkish; J. Willis Mackay, children's entertainer; and Sue Hastings with her Marionettes.

## BEAUTY CONTEST

Three candidates have so far entered the contest for the title "Miss Wayne" and the \$125.00 diamond ring offered by the Air Meet Committee. Last Friday he piloted "Miss Silvertown" in the Ford reliability tour, beginning at Detroit, October 8th and ending at the same point in San Diego, California. He was a mere boy. He was not permitted to get into the fighting in the late war because of his extreme youth. He is now twenty-nine years old and has been flying sixteen years. Following the war, Shoenhair qualified as a mail pilot and flew mail planes in the West for several years. He joined the Lockheed-Vega forces and contributed largely to the development of that famous speedy ship. For several years he has been associated with such pilots as Art Gabel and Frank Hawkes on the Pacific Coast.

In April last year he joined the Goodrich staff as pilot of the Goodrich test plane after a thirty-months later he flew from Los Angeles to Cleveland in the record time of thirteen hours and twenty-nine minutes. Last Friday he piloted "Miss Silvertown" in the Ford reliability tour, beginning at Detroit, October 8th and ending at the same point in San Diego, California. He was a mere boy. He was not permitted to get into the fighting in the late war because of his extreme youth. He is now twenty-nine years old and has been flying sixteen years. ## BEAUTY CONTEST

Three candidates have so far entered the contest for the title "Miss Wayne" and the \$125.00 diamond ring offered by the Air Meet Committee. Last Friday he piloted "Miss Silvertown" in the Ford reliability tour, beginning at Detroit, October 8th and ending at the same point in San Diego, California. He was a mere boy. He was not permitted to get into the fighting in the late war because of his extreme youth. He is now twenty-nine years old and has been flying sixteen years. Following the war, Shoenhair qualified as a mail pilot and flew mail planes in the West for several years. He joined the Lockheed-Vega forces and contributed largely to the development of that famous speedy ship. For several years he has been associated with such pilots as Art Gabel and Frank Hawkes on the Pacific Coast.

In April last year he joined the Goodrich staff as pilot of the Goodrich test plane after a thirty-months later he flew from Los Angeles to Cleveland in the record time of thirteen hours and twenty-nine minutes. Last Friday he piloted "Miss Silvertown" in the Ford reliability tour, beginning at Detroit, October 8th and ending at the same point in San Diego, California. He was a mere boy.
