PROSPECTUS FOR 1872.

FIFTH YEAR.

A Representative and Champion of American Art.

THE ALDINE:

An Illustrated Monthly Journal claimed to be the handsomest Paper in the World.

"Give my love to the artist workmen of *The Aldine* who are striving to make their profession worthy of admiration for beauty, as it has always been for usefulness."—*Henry Ward Beecher.*

The Aldine, while issued with all the regularity, has none of the temporary or *timely* interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of *The Aldine* will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness as compared with rivals of a similar class, *The Aldine* is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of the volume just completed cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times its cost.*

The labor of getting *The Aldine* ready on the press is so great that *reprinting* is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871, is already exhausted, and it is now a *scarce* as well as valuable book.

NEW FEATURES FOR 1872.

ART DEPARTMENT.

The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced, has convinced the publishers of *The Aldine* of the soundest of their theory that the American public would recognize and heartily support any sincere effort to elevate the tone and standard of illustrated publications. That so many weakly wicked sheets exist and thrive is not evidence that there is no market for anything better indeed the success of *The Aldine* from the start is direct proof of the contrary. With a population so vast, and of such varied taste, a publisher can choose his patrons, and his paper is rather indicative of his own than of the taste of the country. As a guarantee of the excellence of this department, the publishers would beg to announce during the coming year, specimens from the following eminent American artists:

W. T. Richards	Granville Perkins,
Wm. Hart,	F. O. C. Darley,
Wm. Beard,	Victor Neglig,
George Smiley,	Wm. H. Wilcox,
Aug. Will,	James H Beard,
James Smiley,	R. F. Pigott,
Frank Beard,	Paul Dixson,

J. Hows.

These pictures are being reproduced without regard to expense by the very best engravers in the country, and will bear the severest critical comparison with the best foreign work, it being the determination of the publishers that *The Aldine* shall be a successful vindication of American taste in competition with any existing publication in the world.

LITERARY DEPARTMENT.

Where so much attention is paid to illustration and get up of the work, too much dependence on *appearances* may very naturally be feared. To anticipate such misgivings, it is only necessary to state, that, the editorial management of *The Aldine* has been intrusted to MR. RICHARD HENRY STODDARD, who has received assurance of from a host of aid the most popular writers and poets of the country.

THE VOLUME FOR 1872

will contain nearly 300 pages, and about 250 fine engravings. Commencing with the number for January, every third number will contain a beautiful tinted picture on plate paper, inserted as a frontispiece.

The Christmas number for 1872, will be a splendid volume in itself, containing *fifty* engravings, (four in tint) and, although retailed at $1 will be sent without extra charge to all yearly subscribers.

A CHROMO TO EVERY SUBSCRIBER

was a very popular feature last year, and will be repeated with the present volume. The publishers have purchased and reproduced, at great expense, the beautiful oil painting by SEIS, entitled "DAME NATURE'S SCHOOL." The chromo is 11x13 inches, and is an exact fac-simile, in size and appearance, of the original picture. No American chromo, which will at all compare with it, has yet been offered at retail for less than the price for *The Aldine* and it together. It will be delivered free, with the January number, to every subscriber who pays for one year in advance.

TERMS FOR 1871.

One Copy, one year, with Oil Chromo....$5 00
Five Copies, " " " 20 00

Any person sending ten names and $40 will receive an extra copy gratis, making 11 copies for the money.

ONLY FIRST CLASS COOKING STOVES

Pat. April 23, 1867. Reissued Aug 3, 1868.

BY MEANS OF WHICH WE GUARANTEE.

1. A saving of fifty per cent. in fuel.

2. A fire may be kept [illegible] throughout an entire season, with either wood or coal, without rekindling, and not become dull by the accumulation of slag or ashes in the fire box; consequently, the oven is at all times in baking order.

3. A perfect combustion of gas and smoke, so that the damper in the [illegible] may be kept closed the most of the time [illegible] retaining the heat in the stove), without any escape of gas or smoke into the room.

4. It makes a perfect [illegible] of stoves to which it is applied. The [illegible] at all times bright on the grate, no clinkers [illegible] the coal is reduced to ashes and [illegible] through the grate, instead of remaining in the fire box [illegible] as in the case with other stoves.

5. The heat being [illegible] to the stove to a great extent, the temperature of [illegible] is kept very uniform, there seldom being more than two degrees difference in temperature between [illegible] and rising.

6. These stoves are [illegible] economical; the fire can be perfectly controlled, [illegible] there is no difficulty in making them the most [illegible] stoves for summer as well as winter use.

7. The best baking stove in the world. Ten loaves of bread can be baked in [illegible] No 7 oven at the same time, uniform and even [illegible].

At the State Fair held in Syracuse, September, 1870, (in competition with all the leading stoves in market), the FIRST PREMIUM was awarded to the NEW EMPIRE COOKING [illegible]. [illegible] no Fair held in this State for years has [illegible] a great competition. But the superior qualities of this stove made it the centre of attraction on the grounds, and obtained for it the unanimous award of the committee. This stove has been exhibited at about one hundred State and County Fairs during the last year, and in every instance it has taken the first premium above any premiums were awarded to cooking stoves. During the past winter several very important IMPROVEMENTS have been made in this stove, one of which is the application of a patent Ash Sifter to the [illegible], by means of which all ashes can be sifted in the stove without the escape of one particle of dust or ashes into the room—thereby avoiding the great annoyance of ash sifting in the old fashioned way. We challenge the world to produce a Cooking Stove that will equal the IMPROVED NEW EMPIRE in any respect.

DENTISTRY! DENTISTRY!

CHARLES H. STEVENS,

RESIDENT DENTIST,

Has *REMOVED* to the building, one door east of his former place of business, on Fulton Street, Jamaica,

Adjoining the Hall of Pharmacy,

Where he can be seen at his rooms every day in the week,

EXCEPT THURSDAYS.

Those favoring him with a call will find that they can get their work done as well and as reasonable as they can at any of the large establishments in the city.

One great difficulty with those having Artificial Teeth is the settling of the gums causing the plate to cut the mouth, so that they are frequently obliged to go to the dentists to have it remedied. If the work is done here all that can be remedied without losing the time and expense of going out of the village.

Particular attention given to *Childrens' Teeth*, for by attending to them at the proper time the permanent ones will be more regular.

All work done in a neat and mechanical manner, and warranted as represented.

Mr. S. will visit private residences to extract teeth if required. 86
