THIS MORNING'S TOPICS.

Partly cloudy weather, southerly winds, stationary temperature and stationary or falling barometer.

The POTTER committee has left Atlantic City and appears to have nearly finished its work. Mr. POTTER would doubtless be in better spirits if it had never been begun.

A horrible story of a wealthy lady who, traveling alone, was taken from the cars at Utica, outraged and robbed, comes by telegraph this morning. Brigandage in this country appears to be developing in its worst phases.

KEARNEY, the California agitator, arrived in Boston yesterday, and at once began his attack on capitalists, corporations, the press, etc. BUTLER should now hurry home to direct the movements of his colaborer.

The carrier pigeons which have been reared with so much care and were loosed in Columbus, Ohio, Friday, to fly to New-York, did not reach their destination. It is to be feared the people will still have to trust their letters to the regular mails.

Some students in Yokohoma, Japan, recently ventured to ridicule a couple of Buddhist priests who were preaching JASPER'S doctrine that "the sun do move," and were mobbed for their temerity. The Japanese populace evidently take no stock in literary fellers.

The Mexican revolutionist ESCOBEDO, who was recently captured by DIAZ'S forces, has been condemned to be shot. This, the despatch adds, does not cure the border troubles. Of course not. But it does wipe out the last Lerdist leader, and is likely to give DIAZ a better chance to establish order.

Replying to Mr. GLADSTONE'S characterization of the Anglo-Turkish treaty as an "insane convention," BEACONSFIELD says GLADSTONE is "a sophistical rhetorician, inebriated with the exuberance of his own verbosity and egotistical imagination." Now what has the tree-chopper to say to that?

Washington City has developed a couple of communist leaders of the KEARNEY order, and it seems probable that it is to them more than any other cause that the present riots are due. Their names are COHEN and GRAHAM. Just now they are languishing in jail and the prospects for quiet and order are greatly improved.

The election of 397 members of the German Parliament takes place to-morrow and excites as much interest in that country as a Presidential election does in this. There are about eight and a half million voters in the Empire, and the interest in the Socialist and taxation questions is so great as to probably call out a full vote. It is expected that the National Liberals will lose members, but still retain a balance of power.

The treatment of the new Chinese Ambassador, CHIN LAN PIN, on his arrival at San Francisco last Thursday, was shameful. Though a very important official, no City or Federal official met him at the wharf, and when being conducted to his hotel by the Chinese merchants, who alone did him any honor, he was insulted by a grossing mob of anti-Chinese Kearneyites, who were, however, suppressed by the police. CHIN LAN PIN is said to be a skillful diplomatist and a man of positive convictions.

There is further testimony to the popularity and growing strength of Gen. GRANT as a candidate for President in 1880. Ex-Attorney-General TAFT believes in it, and Senator ROLLINS says the Granite State will be for GRANT if no change occurs. Minister NOYES, who has talked with Gen. GRANT about it, says the General does not absolutely refuse, and he will probably be found as ready to answer a genuine call of duty as ever. Gen. GRANT is just now enjoying the hospitality and receiving high honors at the hands of his enthusiastic Norse admirers.

It is announced that the Marquis of LORNE, eldest son of the Duke of ARGYLE, chief of the Scottish peers, has been appointed Governor-General of Canada to succeed Lord DUFFERIN, and has accepted the appointment. LORNE possesses many accomplishments, is a scholar and writer of some note and a very estimable gentleman with no vices. He is also the husband of Princess LOUISE, fourth daughter of Queen VICTORIA, being the first subject of Great Britain who has married a member of the royal family. This fact, coupled with his own high rank and excellent qualities will doubtless secure him a hearty welcome in Canada, where he will be regarded with pride by the people. LORNE is, however, rather a recluse than a man of affairs, and will probably not entirely fill the place which DUFFERIN vacates on the 28th of September.

THIS MORNING'S DESPATCHES.

Saturday Evening's Despatches on Third Page

WASHINGTON.

REVENUE CASES MAGNIFIED.

The Labor Troubles are Quieting Down—Additional Collection of Washington Relics, Etc.

THE WASHINGTON RELICS.

WASHINGTON, July 28.—The Washington relics purchased by the Government for twelve thousand dollars have arrived and will be placed on exhibition in the Patent Office as soon as the repairs to the building are completed. The architects who are examining the various plans for restoring the burned portion of the building will probably report soon.

POLICE PRECAUTIONS.

Extra precautions have been taken by the police to prevent the recurrance of troubles among the laboring classes. A large force, well armed with revolvers and Springfield rifles, will be ready to-morrow to prevent outbreaks, but there is no great fear that resort to extreme measures will be necessary. Several leaders in the riotous demonstrations yesterday were arrested to-day. Cohen, the agitator, was arrested last night for violating the municipal orders against incendiary language. To-day another agitator named Graham came to the police headquarters and asked to see Cohen. Graham was recognized as an enthusiastic promoter of disorder yesterday and was at once arrested. It turns out upon investigation that the colored man who was shot yesterday and who was supposed to have been an innocent party, was really one of the mob who were endeavoring to impede the movements of the police. A large meeting has been talked of for to-morrow night, but it will not be allowed unless respectable citizens are known to be interested in it, which does not appear to be the case.

THE SOUTH CAROLINA CASES.

Earle, Assistant United States Attorney for South Carolina, mentioned to-night that it was not certain that Judge Bond would go to South Carolina to try the cases of the internal revenue officials under indictment for killing Ladd. The matter remains in *statu quo*, and no definite determination has been reached in those cases, as has already been stated. Possibly the cases may be tried before Judge Bond at Baltimore.

THE REVENUE CASES.

NEW-YORK, July 28.—The *Herald's* Washington special says Earle, special United States counsel for the imprisoned internal revenue officers in South Carolina, denies emphatically that the Government has reached a decision as to what course it would pursue in dealing with the trouble raised by Judge Kershaw's ruling. Nor is there any plan agreed upon, he says, to have Judge Bond open a special term of the United States Circuit Court to proceed with the hearing of the *habeas corpus* issue. Earle says the whole case is greatly overrated as to its importance, and does not deserve the interest it has excited.

THE LABOR RIOTS.

The *Times's* Washington special says with reference to the labor troubles at the engraving and printing building that the contractors say they are paying one dollar, and yesterday, in consideration of the handsome behavior of their employes, increased their wages to $1 25. The ring-leaders in the riotous demonstrations are professionals who would not work at any price. One Isaac Cohen is prominent in this business, and for some time has made incendiary harangues to the idle and vicious from a prominent corner on Pennsylvania avenue. Cohen came here expecting to be made Secretary of the Arkansas Hot Springs Commission, and, failing in this, hung about the departments for a clerkship, without success. He is now the champion of the workingmen. The police authorities have informed Cohen that his nightly street-corner harangues would be tolerated no longer, and, accordingly, his meeting announced for last night did not take place.

A HORRIBLE OUTRAGE.

Two Scoundrels Take Charge of a Wealthy Lady and Rob and Outrage Her.

NEW-YORK, July 28.—The *Times* has a sensational story of a married lady of high position in Boston having been taken in charge on board of a train one evening from Rome to Utica by two well dressed scoundrels who pretended that she was insane, and that they by request of her friends were taking her to the Utica asylum. They successfully imposed on the conductor and passengers whose protection the poor woman piteously claimed, and she was taken to a disreputable house in Utica, chloroformed, outraged, stripped of her diamonds and all her clothing and left there. The lady's husband was awaiting her arrival at the Albany depot, and not finding her on the train, engaged a special engine, and with the conductor of the train went to Utica, arriving at 4 A. M. A hackman at Utica being known by the conductor, furnished a clue to the lady's whereabouts, and she was found by her husband in a horrible condition and taken to Boston. Every attempt consistent with privacy has been made by the husband, and a large amount of money spent, to discover the two villains without success. The victim's reason was nearly unhinged. No names are given.

NEW-YORK CITY.

Accidents and Incidents of Sunday in the Metropolis.

NEW-YORK, July 28.—Lazarus Cantel, aged 85, who served under the First Napoleon, and was Marechal des Logis in the Lanceers Guard, was buried Friday in a leather coffin made by himself three years ago. He was well known among the French people of this city.

The eldest boy of Mr. Ewing, of Belleville, N. J., was gored to death by a cow, Thursday. The family lost two children by drowning three weeks ago.

During a drunken fight Saturday night, beginning in O'Brien's rum-shop, which lasted over an hour, during which some fifty roughs fought around two blocks, Isaac Pollock was fatally shot, two others stabbed and several badly hurt with clubs, stones, knives and slung-shots. Two policemen were also badly hurt. There were were only three arrests.

August Volke was knocked down on his own doorstoop by some of the above gang, stabbed, kicked, beat and robbed of his watch and wallet.

THE ROSS-HANLAN RACE.

ST. JOHN, N. B., July 28.—Strangers and residents alike are disgusted at the delays in the Ross-Hanlan race. No blame is attached to either side in regard to the postponements. The weather from Thursday afternoon up to to-night has been unpropitious, and the course never has been suitable for the race in the boats now in use. To-day the weather has been clear, but a high wind prevailed and the river is greatly agitated. It is quite calm to-night and the prospects for to-morrow are good. The race is fixed for the same hours as Saturday, from 3 to 7 P. M.

A suggestion to row in the forenoon is not looked upon with favor, though the chances of having the race come off soon would be vastly improved if the change were adopted. A majority of the strangers who came returned home disappointed. Many of these who remained depart in the morning. The roughs who have distinguished themselves at the course during the last few days last night broke in, to the Tarrybura House and did some damage. They next essayed to break into the Claremont House, but were driven off by the Torontonians and other boarders. They subsequently ran off with some teams and assailed people they met on the roads.

GEN. GRANT'S MOVEMENTS.

NEW-YORK, July 28.—A Paris special states that there is considerable comment there at the report in the *Temps* that Gen. Grant denounced Napoleon as the "enemy of France, the betrayer of the Republic, and the author of useless and fatal wars," and that he did not care to see any of the Bonaparte family.

A Christina despatch says Gen. Grant is received everywhere in Norway with extraordinary enthusiasm, crowds following him about.

SUICIDE.

ALBANY, July 28.—An unknown man aged about 35 committed suicide at four o'clock this morning by jumping off the steamer "St. John," opposite Van Wies Point, two miles below here. The body was not recovered.

NEWBURGH, July 28.—James Lockwood attempted suicide with a revolver here this evening because of domestic troubles. He inflicted a dangerous wound in the abdomen.

MINNESOTA WHEAT PROSPECTS.

ST. PAUL, July 28.—The latest crop reports from different parts of Minnesota indicate a considerable deficiency in the southern counties, where the yield of wheat will not exceed twelve to fifteen bushels to the acre. Much of the low-grade Red River Valley and Northern Pacific counties are better, promising twenty to twenty-five bushels to the acre, all number one.

MURDERED BY INDIANS.

PORTLAND, Oregon, July 28.—Lorenzo D. Perkins and wife were attacked by Indians at Rattlesnake Springs, Columbia River, and both murdered. The bodies were recovered by a party of citizens who went on the trail of the missing people.

FOREIGN.

THE NEW GOVERNOR-GENERAL

Queen Victoria's Son-in-Law—Beaconsfield Attacks Gladstone—Marching Through Bosnia, Etc.

England.

A SPEECH FROM BEACONSFIELD.

LONDON, July 28.—The Carlton Club gave a grand banquet last night to the British Plenipotentiaries to the Congress, Lords Beaconsfield and Salisbury. The Duke of Buccleuch and Queensberry presided. Five hundred peers and commoners were present. Beaconsfield, replying to a toast, awarded Salisbury the greater share of and merit in the labors at Berlin. He defended his conduct towards Greece, saying he had counselled Greece to abstention and the facts proved that Greece obtained more than the revolted principalities which had lavished blood and treasure. He passed a great eulogium on the present Sultan, who throughout was desirous of acting in a conciliatory manner to Greece. Beaconsfield maintained that by the convention with Turkey we diminished, not increased, our responsibilities. He brought back from Berlin the conviction that neither the Crimean nor the last war would ever have occurred if England had spoken out firmly. Repelling the assertion of Mr. Gladstone that the Turkish convention was an insane convention, Beaconsfield spoke of Mr. Gladstone as a sophistical rhetorician, inebriated with the exuberance of his own verbosity and egotistical imagination.

Salisbury and Sir Stafford Northcote also spoke.

THE SPEECHES.

The Carlton Club banquet in honor of Beaconsfield and Salisbury was held in the Duke of Wellington's riding-school. In his remarks relative to the Anglo-Turkish Convention, Beaconsfield argued that had the settlement of Europe been limited to the treaty of Berlin, Russia would probably in a few years again assail Turkey, when, whatever British party might be in power, that party would, even though no convention existed, have felt bound, after considerable and perhaps fatal hesitation, to defend Asia Minor. The convention with Turkey, by preventing such hesitation, practically lessened England's responsibilities.

Salisbury in his speech claimed that her Majesty's plenipotentiaries had tried to pick up the broken thread of England's imperial traditions. He refused to believe that the other powers would display jealousy when they saw that England's object was to establish peace and order.

CANADA'S GOVERNOR GENERAL.

The *Post* announces that Lord Beaconsfield has selected the Marquis of Lorne to succeed Lord Dufferin as Governor-General of Canada.

The *Times* announces officially that the Marquis of Lorne has accepted the Governor-Generalship of Canada.

A LOST CABLE.

The Anglo-American Cable Company announces that the attempt to recover the cable of 1866 has failed.

MARRIAGE OF AN AMERICAN LADY

NEW-YORK, July 28.—A special says A. H. Paget, Lieutenant, of the Scots Fusileer Guards, was married Saturday to Minnie Stevens, daughter of the late Paran Stevens, of Boston. The Prince of Wales and several English and American aristocrats were present. The gifts were numerous and costly. The Prince of Wales evinced extraordinary condescension, paying a personal visit to the bride's mother.

Austria.

THE OCCUPATION.

LONDON, July 28.—A special from Brod makes no mention of the entry of Austrian troops into Bosnia. Everything is ready, including the material for two large bridges.

Gen. Philippovitch has issued a proclamation to his soldiers similar to that addressed to the inhabitants of the Turkish provinces. He says he will know how to meet any resistance.

A despatch from Vienna says it is becoming more and more probable that the crossing will be ordered regardless of negotiations unless the long-expected instructions arrive by courier announced for to-day. It is reported from Constantinople that all parties and the Porte itself fully understand the uselessness of resisting the principle of the decisions of the Berlin Congress relative to Bosnia and Greece.

TURKEY'S PROTEST.

LONDON, July 28.—A dispatch dated Vienna, Sunday, states that the advance into Bosnia has not yet been ordered. Carathedori Pasha told Count Andrassy that the paragraph of his proclamation to the inhabitants declaring that the Sultan commits them to the protection of the Austrian Emperor would probably be the subject of protest.

THE CASE OF GREECE.

Another despatch from Vienna says it is reported from Athens that the Porte has intimated its consent to negotiate with Minister Tricoupis at Constantinople but has given no idea of the basis of negotiations.

Greece.

THE FRENCH SQUADRON

ATHENS, July 28.—The French iron-clad squadron has quitted the Piraeus for the Grecian Archipelago.

Turkey.

WORK DISCONTINUED.

CONSTANTINOPLE, July 28.—Osman Pasha has ordered the discontinuance of the work at the entrenchments on the Constantinople lines, all probabilities of a conflict with the Russians having disappeared.

GREECE WANTS A SETTLEMENT

The Porte intends to issue a memorandum relative to the Greek question. Greece has applied to Prince Bismarck, as President of the Congress, to make representations to induce Turkey to come to an arrangement.

India.

THE LOCUSTS

LONDON, July 28.—A despatch from Calcutta reports that the Government of Madras telegraphed for extra famine officers immediately, because of the ravages of the locusts.

Italy.

ENCOURAGING REVOLUTION.

ROME, July 28.—Gen. Garibaldi has written a letter warmly approving the annexation demonstrations and recommending rifle practice throughout Italy.

France.

THE STRIKES.

NEW-YORK, July 28.—A Paris special states that the strikes in the mining districts show signs of coming to an end.

THE EXHIBITION.

The average attendance at the Exhibition is 75,000 daily.

STANLEY.

Stanley gave a dinner Wednesday to his American and French friends. The affair was a brilliant one.

A REACTIONIST PLOT.

LONDON, July 28.—A correspondent at Paris telegraphs that a plan has been formed for the dissolution of the Chamber of Deputies in the anti-Republican interest in November.

Africa.

FIGHTING IN THE TRANSVAAL.

CAPE TOWN, July 9.—There has been some severe fighting with the natives in the out-lying districts of Transvaal. The British losses are comparatively heavy.

Germany.

STEAMERS FOR RUSSIA.

LONDON, July 28.—A Berlin despatch states that Russia is still negotiating for the purchase of the fast North German Lloyd and Hamburg steamers.

THE EMPEROR'S CONDITION.

Two pellets came out of the Emperor William's arm during the past week by suppuration.

STABBING AFFRAY.

WORCESTER, Mass., July 28.—Saturday night, during a fight between two Italians and two Frenchmen, one of the latter, Thomas Gardner, was fatally stabbed. Alex Demers, his companion, was seriously hurt. Paul Baker, another Frenchman, was cut slightly while witnessing the fight. Bonifacio Pericoli, one of the Italians, has been arrested. Camello Rasoff, who stabbed Gardner, escaped.

STOCKING LAKE GEORGE WITH FISH.

LAKE GEORGE, July 28.—A meeting was held at Black Mountain Point yesterday to organize an association for the purpose of stocking the lake with fish and improving the lake and its surroundings generally. The stocking of the lake is under the auspices of Seth Green, Superintendent of the State Fisheries, and will be inaugurated without delay.

A STRIKE FOR LIBERTY.

BOSTON, July 28.—Saturday an attempt was made by two convicts of the new State prison at Concord to escape. They reached the roof of the main building, where they were discovered by the guard, who immediately brought them down by several well directed shots. One prisoner was probably fatally wounded through the body.

FIGHTING MEXICANS.

GALVESTON, July 28.—A Fort Clark special says that on Friday night Mexicans from Los Vacos, Mexico, fired shots in the town of San Felipe, Texas, in retaliation for having been punished the day before by Captain Kelly, of the United States army, who took from them some stolen stock. Great excitement prevailed. Parson Potter, of frontier fame, shot and wounded a grasser Friday night, who was in the act of stealing his horses.

Escobedo is condemned to be shot. This, however, does not bring peace to the border.

A THIRD TERM.

Further Favorable Opinions of General Grant's Renomination—The General's Remarks to Noyes.

NEW-YORK, July 28.—The *Herald's* correspondent at Hampton Beach, N. H., writes that in an interview with ex-Attorney-General Taft with reference to the nomination of General Grant for a third Presidential term Mr. Taft said: Of course it is rather early to open the question, as two more years must elapse before the Convention meets, but at present he is the man to whom a large portion of the party are looking, for in him they see those qualities so essential in an Executive in trying times—courage, strong personality and positive convictions, as well as a wide range of experience. Mr. Taft did not think Grant was seeking the office, but if he could be made to see it was for the best interests of the country or party, or both, he might possibly accept the nomination if tendered with the strong concurrence of the party leaders.

Senator Rollins said to the correspondent that the people, so far as he had been able to judge since he returned from Washington, were looking to Grant as the man who might be able to reunite the party, and that unless some other man should come to the front within the next two years the Granite State would vote for the renomination of Grant for a third term.

Minister Noyes stated that he had talked with Grant in Paris about the evident tendency of the Republican party to offer him a renomination, but the General declined to state whether he would accept the nomination in case it should be tendered. He said he was tired of politics, and should hesitate to again enter the arena. He had had more than his share of the honors and burdens of office, and would much prefer to take his ease the balance of his life.

AN ABORTIONIST INDICTED.

CHICAGO, July 28.—The coroner's jury yesterday recommended that Dr Earll be held without bail for having committed a fatal abortion on Miss Elizabeth McKay. Mrs. Rosier, at whose house the act was committed, was held as an accomplice. Earll served a term in the penitentiary for a similar offence.

CHURCH DEBT RAISING.

PROVIDENCE, July 28.—Edward Kimball has been laboring to-day to liquidate the debt of the Free Evangelical Church of this city. Service commenced at 10 A. M. and was not concluded at 11 P. M. It is now thought that enough will be pledged to meet the debt—about $16,000.

THE LEITRIM MURDERERS.

PHILADELPHIA, July 28.—At a meeting to-day on behalf of the prisoners charged with the murder of Lord Leitrim in Ireland, it was stated that the amount already raised for their defense is $354, of which $295 have been forwarded. The total cost of the trial of four prisoners will be about £750.

A WOMAN SHOT.

NORFOLK, Va., July 28.—At Higgin, Accomac county, Mrs. Eliza Richardson was recently shot down while drawing water from the well. She was horribly wounded, and after crawling into the house, expired. Julius Lewis, a brother-in-law of Mrs. Richardson's son, has been arrested on suspicion.

CARRIER PIGEONS.

NEW-YORK, July 28.—The great pigeon race from Columbus, Ohio, to New-York seems to have been a failure, as up to midnight no tidings of the birds have been received. The owner of the New-York bird says the birds were started in a fog. He regards his bird lost.

YELLOW FEVER.

NEW-ORLEANS, July 28.—The total number of yellow fever cases reported to the Board of Health up to noon to-day is 59 and 25 deaths. No report was received to-day from the Charity Hospital, but it is stated that a number of new cases were admitted.

MINING SUSPENSION.

POTTSVILLE, Pa., July 28.—There will be a general suspension of mining operations in the Schuylkill region, beginning to-morrow and continuing until the 5th of August after which it is thought there will be steady work during the balance of the shipping season.

KEARNEY.

BOSTON, July 28.—Dennis Kearney, the California agitator, arrived to-day. He was met at the depot by several hundred people, and on being driven to a hotel addressed the crowd from the balcony, denouncing politicians, capitalists and the press.

PHILADELPHIA'S EXHIBITION.

PHILADELPHIA, July 28.—The permanent exhibition was open to-day, the first time on Sunday since last summer.

STEAMER NEWS.

NEW-YORK, July 28.—Arrived, the steamer "City of Chester" from Liverpool. "Schiedam" from Rotterdam. Adriatic from Liverpool, "Amy Dora" from Shields and "State of Louisiana" from Glasgow.

QUEENSTOWN, July 28.—Arrived, the steamer "Germania" from New-York.

NEW-YORK, July 28.—The steamship "City of Chester," while on her way to New-York, broke her shaft Thursday last. The steamer "City of Louisiana towed the disabled vessel into port.

PLYMOUTH, July 28.—The steamer "Herder" from New-York has arrived.

CITY AND VICINITY.

A ONE-SIDED RACE.

The Queen City and Celtic Boat Clubs—The Former in Hard Luck.

On Saturday afternoon over one thousand persons assembled along the tow-path of the Erie Canal, between the Genesee-street bridge and the covered railway bridge, to witness what promised to be a very exciting contest between the Queen City and Celtic Rowing Clubs. The race was announced to take place at half-past five o'clock, but owing to the fact that many canal boats were in motion at that time, it was fully six o'clock before the word was given. The race was the result of a dispute as to which was the stronger of the two crews, the question having grown out of the victory won by the Celtics in the Fourth of July regatta. The crews as they took their positions ready for the start were as follows

Queen Citys, boat "Patrick J Dolan"—Stroke, John Callahan; No. 3, James Curran; No. 2, Daniel Horrigan; bow, James Harty.

Celtics, boat "Jerry Donovan"—Stroke, W. F. Sheehan, No. 3, T. Dismond, No. 2, M. O'Brian; bow, T. P. Donovan.

The judges, Messrs. Jerry Donovan, William Sheehan and J. Lacy, for the Celtics, J. Messmer, John Pfeil and John Clune, for the Queen Citys, and Mr. C. W. Baldy as starter, were on board of the tug "Harley." Mr John Dorr, who filled the position of time-keeper, was on the tow-path. As Mr. Baldy gave the word the boats started, the Queen Citys taking water first and leading the Celtics, who were a little discouraged by the send-off their opponents obtained. But no sooner were the boats fairly under way than the stroke oar of the Queen Citys was snapped off at the row-lock by striking against a yawl lying alongside a canal boat. This accident determined the race, and left the Celtics to pull over the course alone. Although they had the course to themselves, they bent their oars with a will, and finished the three miles in 21 minutes and 47 seconds. The Celtics were the recipients of many flattering compliments, and when Mr. Dorr announced the time cheer after cheer went up. We presume the Queen Citys will not consider the question of superiority settled by this trial.

THE MECHANICS' INSTITUTE EXCURSION.—Next Wednesday the Mechanics' Institute will have an excursion down the river to Niagara View. The Steamer "Arundell" has been been chartered for the occasion, and will leave the foot of Main street at 9 A. M., and 2 P. M., making short stops at Black Rock. The programme of sports at Niagara View has already been published, and will include, a four-oared boat race between the Celtics, of this city, and the New Dominion Club, of Canada; a clinker-boat race, shooting-matches, foot-ball, etc. Gold and silver medals will be awarded as prizes. The proceeds of the occasion are to be devoted to the increase of the library fund. Gentlemen's tickets will be 50 cents each, ladies' tickets 25 cents and children's 15 cents.

ACCIDENT AT WENDE.—About three o'clock Saturday afternoon a freight train on the New-York Central Railroad struck a buggy at Wende station, killing the horse and injuring one of the three occupants of the vehicle so that he died shortly afterward. Another of them had a leg and arm broken, and the third sustained several cuts on the head. They were racing horses with another party and did not see the train until it was too late.

THE FOREST CITYS.

They Discover a Goose Nest in Buffalo—Other Base Ball News.

Nine brawny backwoodsmen came down from the Cleveland wilderness last Saturday for the avowed purpose of dusting the jackets and lifting the scalps of the Buffaloes. Their plan, however, happened to miscarry, and now they are bathing their wounds and nursing their wrath preparatory to a second onslaught to-day. The game was a magnificent exhibition of the national pastime. Although organized rather late in the season, the visitors, by their work on this occasion, showed themselves to be a powerful team. The score was as follows:

BUFFALO.

	T.	B.	R.	B. M.	P. O.	A.	E.
Crowley, l. f.	4	0	0	1	0	0	0
Allen, 3b.	4	0	0	0	0	0	0
Bagley, c. f.	4	0	0	0	0	0	0
Libby, r. f.	4	0	0	0	0	0	0
Galvin, p.	4	0	0	0	0	0	0
Fulmer, 2b.	4	0	0	0	0	0	0
Dolan, c.	4	0	0	0	0	0	0
Mack, 1 f.	4	0	0	0	0	0	0
Force, s. s.	4	0	0	3	0	0	0
Total	35	0	0	4	0	0	0

FOREST CITY

	T.	B.	R.	B. M.	P. O.	A.	E.
