

The Watertown Re-Union

ISSUED TWICE A WEEK. C. W. CLARE - Publisher

Re-Union Building - 136 Arcade St. Terms - \$1.50 per year, 75 cents for six months, payable in advance.

Entered at the postoffice at Watertown, N. Y., as mail matter of the second class.

SUBPOENA ROOSEVELT AND ROOT.

Mr. Roosevelt, referring to the purchase of the Tennessee Coal & Iron company by the steel trust, boasts that "as to this transaction, I was personally cognizant of and responsible for its every detail."

The steel trust, which is not in the habit of consulting the United States government in the transaction of its business, was evidently much in doubt of its right to take over the Tennessee company and thus acquire a practical monopoly of the coal lands of that section.

A PARCELS POST. There is a very general and a very earnest demand all over the country for a parcels post.

BY AN AMERICAN. For the second time the coronation of England's King is to be painted by a Philadelphian, King George having commissioned John McLeach Hamilton, a native of that city and a graduate of the Academy of Fine Arts, to do so.

A SEA BURIAL. Secretary Meyer expresses approval of the proposition to give the Maine a sea burial after it shall have been raised and the investigation as to the cause of its sinking completed.

SUGAR FRAUDS. It may be true that the man "higher up," President Havemeyer, could not be prosecuted for the sugar trust frauds because he died shortly after governmental action was begun. But

the sugar frauds had been known to the government long before prosecutions began. Ample evidence had been laid before it of their existence.

RECIPROcity TREATY.

The Canadian reciprocity treaty will curtail much of the extortions of the lumber and paper trusts. It will be passed by Democratic votes, to rescue the president and to save his party from ignominy.

"Governor loots state treasury by appointment of unnecessary officials," shouts a Republican organ in announcing the appointment of a port warden in New York city in place of a Republican who term had expired.

Liberty Hyde Bailey, director of the Cornell agricultural school, declares himself heartily in sympathy with Governor Dix's plan to establish on some of the land already owned by the state a farm and industrial colony for tramps and vagrants.

"Boss" Barnes thought he was playing a very clever game on the Democrats when he instructed his Albany county lieutenants to secure an injunction holding up highway construction in all parts of the state.

Governor Dix maintained the high standard of his appointments when he named James W. Fleming of Troy as successor to Thomas Mott Osborne as forest, fish and game commissioner.

Governor Dix's plan for the conservation of the water power rights in the Adirondacks not only preserves these valuable natural resources for the benefit of the people of the state for all time, but it puts a stop to all the private power grab schemes which have been hovering around Republican legislatures for years, several of which would have become laws except for the watchful care of the real friends of the Adirondacks.

"Every promise made in the Democratic platform adopted at Rochester will be faithfully fulfilled by the Democratic legislature," declared Leader A. E. Smith on the floor of the assembly.

The state lost about \$40,000 through illegal and irregular coal contracts made by the prison department, and that is only one of several items of waste disclosed by the evidence secured by Governor Dix's investigating commission.

IN SUPREME COURT

WADE McALLISTER IS SENT TO ELMIRA ON CHARGE OF FORGERY.

TWO LIQUOR CASES

Black River Man and Another Who Conducted Place on Pine Plains Plead Not Guilty—Others Charged With Receiving Stolen Property.

Several more persons recently indicted by the grand jury were before Justice Merrill Tuesday to plead to such indictments.

Ralph Campney, who conducts a place on the Pine Plains, was arraigned on the charge of having sold liquor on Sunday. He pleaded not guilty. Bail was fixed at \$1,000.

John Carey of Black River was charged with selling liquor to minors on the premises when he had only a storekeeper's license. He was also charged with having sold liquor to minors. He pleaded not guilty to both indictments.

Wade McAllister, who Monday pleaded guilty to two indictments for forgery, was up for sentence Tuesday morning. He was sent to the reformatory.

Domonic Rizzo and Vincenzo Rizzo were re-arraigned on a charge of grand larceny and criminally receiving stolen property, they desiring to change their pleas, and plead guilty, the latter to the charge of criminally receiving stolen property.

The 98th annual convolve of the Grand Commandery of Knights Templar, of the State of New York, is now recorded on the pages of history. It is over and done.

Waterbury Commandery is Especially Gratiated With Manner of Greeting of the Public.

The city, from one end to the other was beautifully decorated and everything, so far as is known, was done for the comfort and pleasure of the thousands who came to participate in and witness the various functions in connection with the convolve.

Waterbury Commandery, which undertook all of the responsibility for the entire affair and sought no aid outside its membership, is today proud of the office and its members for the general public for the generous manner in which business blocks and homes were decorated.

Two honors fall to the city of Elmira Tuesday afternoon, when it was chosen as the city for the next State convolve, and when one of its most prominent citizens, Guy W. Shoemaker, was elevated to become Grand Commander of the Grand Commandery, a position for which he was elected in the usual routine of the Commandery, on account of having acted as deputy grand commander the past year.

Machinist Injured. James Tyron, a buffer employed at the J. B. Wise plant, was caught in the shafting at the machine Tuesday morning and was considerably bruised and shaken up.

Breaks Two Ribs. A man named Busler while engaged in some carpentry work on the Marshall farm outside the city on Leray street fell and broke two ribs at his home at 753 Cooper street, where Dr. B. C. Cheeseman attended him.

Shaynik sets, smoking sets, shaving mirrors, traveling sets, military brushes at Rice's drug store.

DR. NUGENT KILLED

KNOCKED DOWN BY A SOLDIER ON A BICYCLE.

DIED 12 HOURS AFTER

Rider, a Soldier, Loses Control of Bike When Sprocket Wheel Breaks While Going Down Steep Hill and Crashes Into the Doctor.

Dr. Daniel B. Nugent, the oldest resident of the village of Henderson, and for 30 years a practicing physician there, was struck by a bicycle Monday on the walk there and died 12 hours later.

Monday morning the 24th Infantry company at Stony Point left there for Madison barracks and at about the same hour more companies from the post left for Stony Point village. It had been planned to have manoeuvres on the way in the vicinity of Henderson, or wherever the two opposing armies might come together.

About noon the two armies were getting close together and the scouts of each were doing some scurrying and on the sharp lookout. An officer had handed a scout of the blue army an important message to be delivered at once and the scout on his wheel started to obey the command.

At the same moment Dr. Nugent was passing along the walk near Dr. C. Sawyer's grocery. The infantryman shouted at the top of his voice to warn all who might be in his path.

Dr. Nugent was unable to get out of the way and was struck and thrown heavily to the walk, being considerably cut and bruised. The post surgeon was at once sent for and one or more Henderson physicians made the veteran physician as comfortable as possible but it was seen from the first that in all probability the shock which he had received was so great that he could not survive and at midnight, 12 hours after the accident, he breathed his last.

MR. HOSMER'S LETTER. Candidate for Sheriff Starts Canvass Through the Mails.

In a letter which he is sending out to the voters of the county, Charles C. Hosmer, deputy sheriff, and one of the candidates for sheriff at the coming election, states the reasons which he believes will tilt him to the office.

"I have been the under sheriff of the county since Jan. 1, 1908, and during that time have performed a large part of the work in the sheriff's office."

"First—Because by training and experience I believe that I am fully qualified for the office, and I am nominated and elected would be sheriff in fact as well as name."

"Second—Having for years done a large part of the work of the office for others at a moderate salary, I want the opportunity to do the same for myself and reap the benefits thereof. There is money in the office if properly managed, and that is what I need."

Reports which are reaching the Republican politicians of this city qualified to indicate that Captain C. W. Rees, of Clayton, one of the aspirants for the office of sheriff, has secured the use of an automobile in which he is carrying his canvass into every town in the county, seeking the support of the leaders at the caucuses.

Woman Collapses in Station. Mrs. Andrew Wagoner of Philadelphia collapsed at the Central station at 9:30 o'clock Thursday night. She was carried to the concrete platform and while Detective Dempsey and others held back the crowd, Dr. Cheeseman worked over the woman.
