

**LOCAL RESULTS OF MONDAY'S PRIMARIES**

(Continued from page 1)  
 votes for him. On the Republican ticket Hinman ran second here with 30 votes. Glynn was the favorite on the Democratic ticket with 32 votes. The vote for Representative in Congress on the Republican ticket was close here. H. D. Stevens got a majority in this district of one vote over Merritt.

The only interest manifested in the vote for State Senator here was between Stevens and Emerson. Stevens carried this district by 102 votes. Kenyon had a walk-over for Member of Assembly here receiving 78 votes. His two opponents were given one vote each.

The run for County Treasurer was interesting here. Levi Pond seemed the choice of the Republican party in this district.

With the exception of George A. Stevens, Nye, the candidate for the office of Superintendent of the Poor, received the highest number of votes cast for any candidate. Although he was the sole candidate on the ticket he polled 99 votes.

In the vote for County Committeeman chiefly between Leahy and Isham here the latter polled 60 votes to the former's 34.

The town gave its vote to George Merriam for State Committeeman and gave him 42 votes; Hayes did not receive a vote here.

The Socialist Party had a number of candidates on their ticket but North Elba did not give a single vote to that party.

In the vote for District Delegate to the Constitutional Convention Melvil Dewey ran even on the Progressive ticket with McArthur and Hewett, each polling 2 votes.

**WEEK'S SUMMARY OF WAR NEWS**

The French War Office announces that the German Army has been making, night and day, attacks of unprecedented violence against the allied lines along the entire battle front, since Friday, but has been repulsed with severe losses. Slight progress has been made by the French on the left wing where the opposing trenches are, in some places, not more than 110 yards apart. In the centre, the Germans gained a little ground, but have been forced to yield it. The situation on the right is unchanged.

The British Official Press Bureau reports that the situation in France is "satisfactory," and that the counter-attacks on the British front have been beaten back with severe losses to the Germans.

Germany, by wireless, announces that the forts under bombardment south of Verdun have withdrawn their fire, and that the German forces are now engaged with fresh troops of the Allies brought up from the Meuse.

The French forces, says the German statement, are making desperate efforts to flank the German right wing.

French official reports state that the movement to flank the German right is developing to the north, and London thinks full success for the Allies is near. The French right has retaken St. Mihiel, driving back the Germans who crossed the Meuse in that vicinity.

Berlin admits that heavy fighting is in progress on the western end of the French battle line, but says no decisive result has been reached.

Advancing Belgians have reoccupied Malines, half way between Antwerp and Brussels. The bombardment of some forts southeast of Antwerp by the Germans still continues.

Desperate attempts of four German army corps to cross the River Niemen near the East Prussian frontier, with the object of cutting the railroad to Warsaw, have so far failed, the Russians repulsing the invaders all along the line.

The retreating Austrian Army, whose defeat near Dukla, in the Carpathians, was reported Tuesday, has been surrounded and has lost all the stores of food and war material, including 500 military automobiles, it was taking back to Austria.

Italy has strongly protested to Vienna against the wholesale sowing of bombs in the Adriatic. One fishing vessel has been blown up, and it is reported an Italian torpedo boat has shared the same fate.

The Rumanian Cabinet will meet today to decide the question of peace or war.

Serbian forces, after a series of victories in Bosnia, are near Sarajevo. Montenegrins report the capture of a position twenty-nine miles southeast of that city.

An official report issued in Tokio states that the Germans abandoned their artillery when the Japanese troops reached Lao-Che.
