NO SUNDAY HUNTING

Kenmore, N. Y., Feb. 21, 1926.
Mr. W. F. Arthurs
Arcade, N. Y.

Dear Editor: Have just been read-
ing your welcome paper which I en-
joy since coming to Kenmore more
than ever before.

Through its columns I wish to con-
gratulate the members of the Town
Board of Freedom on the action they
have taken in prohibiting Sunday
hunting in their Town. I am hoping
that other town boards will take
similar steps toward the return of a
more quiet and reverent Sabbath,
which should be the desire of every
true American citizen.

Please find enclosed check for bill
of ad. After Feb. 1 our address will
be No. 14 Myron avenue, Kenmore,
N. Y.

I remain, yours respectfully,
John Gibbon.

MILK PRODUCERS' MEETING

According to reports received by
the committee in charge of the coun-
ty-wide meeting of milk producers to
be held at the East Aurora High
School on Saturday, February 27th,
at 1:30 p. m., a large number of
farmers from all parts of the county
are planning to attend. This meeting
sponsored by the East Aurora Board
of Trade, the Pomona Grange and
the Erie County Farm Bureau, has
been called to give all milk producers
in the county a chance to get to-
gether in a non-partisan meeting and
frankly discuss the problem of mar-
keting their milk. With the market-
ing of milk in the most satisfactory
manner possible, a recent announce-
ment of a large milk merger in New
York City, with the possibility of
bringing fluid milk into direct com-
petition on our eastern market,
brings forth the possibility of mak-
ing the problem of marketing the
milk in New York state even more
acute than it is now.

Dr. Leland Spencer of the Market-
ing Department of the College of Ag-
riculture at Cornell, who has made a
study of the marketing of milk espe-
cially in New York state, has been
secured as the principal speaker.

Posters announcing this meeting
have been placed in all parts of the
county and a record attendance is
expected.

MAMIE B. EVANS POSTMASTER
FOR ANOTHER TERM

Miss Mamie B. Evans has been re-
nominated for postmaster at the Ma-
chias office by President Coolidge for
another term of four years. She was
first appointed under the Wilson ad-
ministration in December, 1914, and
again in 1921 by President Harding.

Up to the present time she has served
in the capacity of postmaster for
over eleven years and we feel assured
there is not a patron of the office
but would be gratified to have her
serve for another eleven years and
then some. Though having served so
long she neither grows old nor
cranky but is invariably accomodat-
ing, efficient, good natured and
charming. Long may she serve.

SPRING HATS
FOR MEN

With Easter just a little more than a
month away, you might as well get your
new Spring Hat now, the old one will
hardly do. A man never feels dressed
up unless his hat is new and clean, and of
the latest style.

Have you seen the new Snap Brim,
with fancy band to match, in the 1926
season's shades of soft tan or the pretty
shades of gray. There's something
decidedly different about them that
gives them a new appearance.

May we have the pleasure of showing
you these new hats?

CHEVROLET SALES INCREASE

Detroit, Mich.—An unprecedented
winter demand for Chevrolet passen-
ger cars and trucks necessitated a
production last month nearly three
times that of January, 1925, it is an-
nounced by W. S. Knudsen, president
and general manager of the Chevrol-
et Motor Company.

The January production was more
than 44,000, which eclipses any pre-
vious January production in Chevrolet
history. Under the tentative Febru-
ary production schedule, the com-
pany will build more than 51,000
units or nearly twice the number pro-
duced in the corresponding month of
last year.

The heavy winter production is
the result of demand which Chevrol-
et buyers have made upon the com-
pany's dealers since the announce-
ment by President Knudsen of re-
duced prices and numerous improve-
ments on the entire Chevrolet line.

Instead of storing reserve stocks
against the requirements of spring
business, the dealers report that they
are delivering immediately their
shipment of cars to waiting buyers.

Last year the Chevrolet Motor
Company led all manufacturers of
three-speed sliding-transmission cars
by more than 500,000 units. Accord-
ing to present plans, President Knud-
sen expects to exceed the 1925 rec-
ord by a comfortable margin.

How Dry I Am!

The fellow in the car is comfortable, happy and dry. Not so the bird out in the rain, however. He's "all wet"—and he knows it!

What he should do is buy a used car on the GMAC Plan—just a small sum down and the balance on the most favorable terms in the entire automobile industry. Easiest terms are only one of the advantages of buying one of our fine used cars. Confidence is another. A wide selection of good-looking, reconditioned, honestly priced cars is still another. That's why more and more people are buying used cars from us every year. We will do our utmost to satisfy you when you come in.
