The primary union will meet at 4 o'clock to-morrow afternoon at the Congregational church. Business connected with the coming institute to be transacted. All members please be present.

**Obituary.**

Mrs. Charles O. Waite, wife of ex-Alderman Waite of Johnstown, died at the Albany hospital Monday morning at 10 o'clock. The deceased was accompanied to Albany on Wednesday, where she underwent an operation performed by Dr. W. G. McDonald for the removal of a tumor. Directly after the operation she was very weak, but rallied during the day, and it was expected that she would recover until yesterday morning, when she was taken worse and soon passed away. The funeral will be held at the home of the deceased, No. 3 Grove street, on Wednesday at 2 o'clock, and at the M. E. church at 2:30 o'clock. Rev. T. G. Thompson, D. D., officiating. The remains will be placed in the receiving vault at the Johnstown cemetery.

**Leg Amputated.**

Azariah Nellis of South Perry street, Johnstown, was removed to the Nathan Littauer hospital yesterday morning, where he had one of his legs amputated just below the knee, yesterday afternoon. Mr. Nellis has been suffering from gangrene for some time, which is supposed to have originated from a bruise on the ball of the foot, until all the toes had become affected, and the disease was gradually entering the foot. Dr. C. B. Mosher, the attending physician, counseled with Dr. W. C. Wood Saturday, as to the best treatment to be applied, and it was decided that to avoid blood poisoning, it would be necessary to amputate the leg, as above stated. Drs. W. C. Wood and C. B. Mosher performed the operation.

**Counterfeit Notes in Circulation.**

Counterfeit \$10, \$5 and \$1 notes are in circulation, and as a consequence United States secret service men are putting forth every effort to run down the gang, whose headquarters are believed to be in the vicinity of Rochester. The \$10 certificate is said to be a very clever make. The period between "D." and "C." in "D. C." below the portrait of Hendricks is omitted. The imprint of the bureau of engraving and printing upon the left end back of the note is also omitted, and the color of the seal shows through on the back of the note. The other notes are fairly deceptive, but are readily distinguished by a casual observer.

**Damages Against St. Johnsville.**

In special term at Amsterdam Saturday, Judge Stover confirmed the following awards of the commissioners appointed to ascertain the damages caused by the extension of the St. Johnsville waterworks: Z. R. Klock, \$1,500; Chas. W. Scudder, \$1,800; Albert Schaffer, \$700; Delina Smith et al, \$700; Jacob Horn, \$1,800. The report of the commission in the action of the village of St. Johnsville vs. Kate Wilson and Uriah Emple, condemnation proceedings in connection with the new overhead railroad crossing in that village, was confirmed. Damages to the amount of \$225 are awarded to Mrs. Wilson and \$1,300 to Mr. Emple.

**MOCHA IMPORTATION STOPPED.**

The Skins are Obtained from the Bubonic Plague Region.  
The bubonic plague, which has been causing such havoc in various countries of the world, has not reached Gloversville, and it is probable that even if it did the rigors of the climate would kill the disease, but it is interesting to note that because the plague developed at Aden, the port of southern Turkey, in Asia, and Arabia, on the gulf of Aden, the importation of mocha skins, which are tanned in this city and made into fine gloves, has ceased, at least temporarily, as there is no desire on the part of the importers to handle skins which have come from a plague infected port and there is also a lack of desire on the part of any manufacturer to handle any skins in which the germs of the bubonic plague may be lurking, although there would probably be no danger in this vicinity. The reason for the cessation of the importations is due to the fact that mocha skins are the product of Arabia, being taken from the Somali sheep. The skins are sun dried in Arabia and then shipped from the port of Aden to New York, where they are purchased by manufacturers, dressed in the mills of this city and finally turned into gloves. In being taken to Aden the skins are necessarily exposed to the plague, and as they are shipped to New York, then to Gloversville, it can readily be seen how the bubonic plague could be transferred from the Asiatic country to this city. It is not believed that any infected skins have been received at New York, and as far as this city is concerned, it is a doubtful matter if any plague germs ever live to get here.

**HEARING ON CHARTER AMENDMENT.**  
Notice is hereby given that a certified copy of Senate Bill, Assembly Print No. 1499, entitled an act to amend chapter two hundred and seventy-five of the laws of 1899, entitled "An act to revise the charter of the city of Gloversville," has been received, and a public hearing will be given thereon before the mayor and common council of the city of Gloversville in the chambers of the common council in the city hall, on Wednesday, March 23, 1900, at 7:30 o'clock p. m. Said bill relates to the discharge of sewage into the Cayadutta creek.  
E. S. PARKHURST, Mayor.

Mrs. Clara Baman, who was so heartily cheered at the old folks' concert, will render a solo at the concert at Music hall on Wednesday evening, the 28th. She is sure to please.

**WILLIAM HAAG BADLY INJURED.**

The Skin and Flesh were Ground from His Fingers.  
William Haag, proprietor of Haag's cutting die works at No. 15 Cayadutta street, met with an accident this morning at his factory by which both hands were badly injured and he came near losing the fingers on each of them. At the time of the accident, Mr. Haag was working over a stone which is used to sharpen tools and had an instrument in his hands by which he was improving the condition of the stone. The latter was revolving in a horizontal direction, and in some way the instrument in the hands of the proprietor was torn from him and his right hand was dragged under the stone and along the frame surrounding it. In trying to save his right hand from serious injury, Mr. Haag used his left hand, and by the time the members were released they were in frightful shape. On the right hand all the flesh on the back of the fingers was torn off and the cords lacerated, the wounds extending to the finger bones. The first three fingers of the left hand also suffered in a manner similar to the fingers of the right hand, and the flesh was torn and lacerated in a most painful manner. As soon as possible, Dr. Gale was summoned and dressed the wounds, and hopes to be able to save the fingers from amputation. Mr. Haag was taken to his home at No. 64 West Pine street and will be unable to resume or do any work with his hands for some time to come. There is a possibility that the injuries to the cords of the fingers may cause a stiffness of the hands, but the attending physician believes that proper treatment will restore the unfortunate man's hands to their proper condition.

**His Share of Bad Luck.**

A serious and very peculiar accident happened to Frederick Sternburg at Herkimer yesterday afternoon at 2 o'clock. Mr. Sternburg is visiting at the home of his sister, Mrs. George Sautter, and about the hour named, as he was carrying a harness across the barn floor in the rear of the Sautter block, his foot slipped and he fell backward, fracturing his left knee cap. A peculiar thing about the accident is that the knee did not come in contact with the floor. The fracture was reduced by Dr. George Graves. It seems that Mr. Sternburg has his share of bad luck. A week ago yesterday morning his hotel at Lakewood, on Oneida Lake, was burned to the ground, and Mr. Sternburg and his wife had a narrow escape from being burned to death.

**DRESSMAKERS.**
