GREAT NEW YORK.

RESOURCES AND TAXATION OF THE EMPIRE STATE.

It is a Great State in Everything but Es-

pecially in its Legislation and Govern-

ment—Interesting Figures—Why New

York Prospers in Hard Times.

The prominent position of the State

of New York at the Columbian Ex-

position at Chicago, and the soundness

of its moneyed institutions during the

recent abnormal financial condition of

the country, have had the effect of

showing to the people in a peculiar

manner the remarkable stability of the

interests of the greatest commonwealth

of the Union. It is a wise political

maxim that ascribes stable business

prosperity to good government. It is

easy to trace the exceptional prosper-

ity of the State of New York to the

admirable sagacity that has distin-

guished State legislation and admin-

istration for a number of years. When

a State not only extinguishes its pub-

lic debt during a period of great nat-

ural growth and rapid increase of

population, but actually reduces the

pro rata of taxation, enacts liberal

and sound banking, insurance and

corporation laws, which are models for

other states, attracting capital and

business from all parts of the Union,

proves that it is superfluous to argue

that its government must have been

characterized by unusual sagacity and

latter of the entire system, supervising

all the schools, formulating regula-

tions for their management, dictat-

ing all controversies which may arise

under their administration, apportion-

ing all the school moneys from the

various funds, exacting a rigid account-

ability from all others responsible for

the popularity of the Day Coach Ex-

ursions to the World's Fair via "Amer-

ica's Greatest Railroad" was evinced

by the heavy patronage of August 14th,

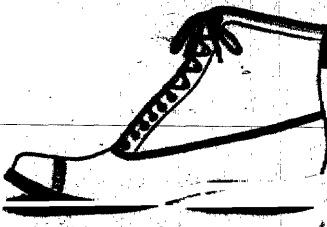

on which date the Special Excursion

train carried 1063 people from along

the New York Central line to Chicago.

Additional Excursions will be run on

The Broad Winner.
