Testing Job Seekers by Machine

A machine to determine whether applicants for jobs are of the neurotic or obsessive types or whether they are of the median normal type has been in use at the Hartford House, Y. M. C. A. According to statements by psychologists at Hartford House, the machine's results coincide with those obtained by personal interviews with job seekers. Photograph shows, left to right: One of the psychologic tests being given in the Hartford—John J. O'Connor, taking tests for susceptibility to monotony; J. Elliott Fisher, head of testing department conducting tests and W. L. Hewitt taking tests for neurotic tendencies.

Old Prospector Keeps at Gold Producing Job

Takes Increasing Sums From Hidden Recesses.

Salt Lake City, Utah.—Commercial production of gold has declined tremendously in recent years in this section of the mineralized West, but the old-time prospector, working on his own, is taking wealth from his hidden recesses in ever-increasing sums.

The Salt Lake City assay office, a branch of the United States mint, is a clearing house for much of the intermountain gold. Similar offices are located at Boise, Idaho; Helena, Mont.; and Carson City, Nev.

New West Point Chief

Lieut. Col. Simon B. Buckner, Jr., of Kentucky, executive officer of the Army War College, who has been appointed new commandant of the United States Military Academy at West Point. Lieutenant Colonel Buckner was a member of the army's training staff during the World War and has been an executive officer in Washington for several years.

New Design to Speed Up Liners

Ships on Ways Obsolete Already, Says Authority.

London.—A new design threatens to make every ocean liner now afloat obsolete.

The new Cunarder, designed for about thirty knots, is already old-fashioned.

INSPIRATION

By THOMAS ARKLE CLARK
Late Dean of Men,
University of Illinois.

Of us mortals, I am sure, to what extent the faith and confidence of those who are behind us, who believe in us, who are depending upon our carrying on, has upon our actions. Inspiration of one sort or another is at the bottom of most success.

It was at a football game years ago when Illinois was playing Chicago, and Henshberger was captain of Chicago depended, when the incident happened which illustrates my point. The game had hardly begun when the brilliant captain's ankle was broken and he was carried helplessly to the sidelines. It was the most serious accident which could have happened.

More Risks in Bathing Than on Railroad Train

Utica, N. Y.—Taking a bath is far more dangerous than taking a train, according to Dr. G. C. Capron, surgeon in charge, Commercial Travelers' Accident Insurance company of America.

"A girl who marries a chiropractor has no grounds for divorce if he doesn't treat her right."

ODD THINGS AND NEW—By Lane Bode

The Household

By LYDIA LE BARON WALKER

The upkeep of a wardrobe is one of the essential items of the clothing budget. Whether the sum needed is much or little depends largely upon whether the person does the work herself or has a dressmaker or seamstress to assist. In either event the cost of extra materials and notions, such as sewing silk, thread, buttons, hooks and eyes, etc., is identical.

Value of Concentration. Another does well to allow a certain respect to be paid to a child's absorption. I know of one mother who was finding a little girl difficult because of her apparent inattention. The child could not be read to at times even to eat. She seemed so far away during these periods and so hard to interest in the usual games and play.

Working Single Handed. When a woman does the remodeling and alterations herself the monetary saving is greatly increased. There are many women who are so good at this work that they get splendid results. They know that all material which is tender, although not actually threads, must be cut out, that to leave it in may temporarily decrease present work and problems of alterations, but all too often the garment will need another cutting. Always the amount of time must be put into consideration. It is so much that regular work is a sufferer, or a strain be put upon it. It is a mistake to emphasize sewing so much.

Seaplane Always Will Be Fastest, Says Expert
St. Louis, Mo.—Land planes can never hope to attain the speed in the air that seaplanes can, according to Maj. James H. Doolittle, holder of the American seaplane and world's land-plane speed records.

Cat Goes 44 Miles to Reach Old Home
Mount Vernon, Iowa.—Earl Beach and his family moved from here to a farm near South Bethel, a distance of about 44 miles, taking with them six cats.

POTPOURRI
Origin of Gin, as in Cottage
The word "gin," as it applies to the cotton gin, is said to be a negro corruption of the word engine.

Father Sage Says
No one is so indifferent that he doesn't rejoice in being moved by a new popular song.

American Heroines

By LOUISE M. COMSTOCK

Anne Royall

ARMED with umbrella and the packet of books she offered for sale, an active tongue, an astonishing vocabulary and the courage of her own convictions, Anne Royall was a striking and in many ways a heroic figure in the Washington of the early days of the Republic, of whom congressmen stood in awe and whom social leaders, at least to her face, addressed with respect.

The other solution is to eliminate from one's wardrobe. This may mean the recutting of garments to fit child, thus increasing another's wardrobe while relieving one's own of things which could not be used. Children's garments require so much less goods that only the sound parts of the adult's clothes may be needed. Where there are no children the adult's garments can be sent to some home where they are little folks and scanty funds. Here material can be put to the best use possible. Often to have the much wanted material arrive when there seemed to be no way of getting it, leads wings to sewing.

The "Molly Pitcher" of Illinois
WHAT were her ancestry and her name is unknown. She was born on a farm near Lecky in McLean county, Illinois. During the Civil War in the Army of the Frontier she was known simply as Mrs. Davidson, but because of her heroic part in the Battle of Prairie Grove, Arkansas, she is justly entitled to a more descriptive name, "The Molly Pitcher of Illinois."

Three New Kinds of Spring Coats
There is a lot of talk about Schiaparelli's square-shouldered coat model which, in its most historic form, presents us with a detachable collar over its padded shoulders.

IT TIES AROUND
The call of the mode for military effects is answered in dashing combat hats and turbans whose height and severity of line is something for which we are expected to acquire a taste.

Cashmere Sweaters Arrive
Among Latest Arrivals
The latest sweaters are in plain colors, in cashmere or wool. A few exceptions are in wool and angora.

Late Tips on Spring Styles for Women
Cottons are times attract general notice. Black is the big news in spring.

By Charles Sughroe
WELL, POP, I HOPE YOU CAME OUT AS WELL AS I DID.

Flower-Trimmed or With Feathers

By CHERIE NICHOLAS

Most of the flower toques are designed in colors to form a perfect harmony with the costume, with the exception of the all-white sets which are effective with black or whatever the color may be. We are showing two flower toques here. The ensemble at the top, for instance, a sailor with perhaps a band of little velvet flowers very prettily encircling the crown or perhaps with a wreath of peonies next to the hair.

They were adorable, as they brought a breath of spring, and the reaction to them was so favorable Paris milliners were encouraged to follow them up with a more pretentious gesture. There began to arrive from abroad most ravishing little toques-and-bonnet sets made all of violet, or rose petals, or gardenia, or perhaps, just yet petals in various colorings.

THE HOUSEHOLD
The decline in value exceeds by far the drop in per ton, pound or ounce production because of the slump in copper, silver, lead and zinc prices.

Shoulder Strap Pina
Shoulder strap pines are again—but this time they are not concealed in pre-war style, but are out-in-the-open decorations for evening dresses. They are elaborate and fanciful, set with gems and made in four-inch lengths so that they will be very much in evidence.

Color Combination
Burgundy or wine color proves to be lovely combined with pavement gray, luscious blue and with any of the lavender pinks.

The two-piece dress appears in great numbers. Black, beige, black and gray are the popular colors for spring suits. Flowers sound a springtime note on many of the newest party frocks. The short latest length is adopted for evening, occasionally with trains. Never have bows been so popular, in fashions of all types and for all occasions.
