

Quick Action Corn Cure

"Geta-It" Stops Pain Instantly and Corn Soon Lifts Right Off.

A few drops of "Geta-It" quenches corn pains like water quenches fire. Gives you immediate relief.

"Geta-It" Feels It Off

The corn begins to lose its grip at once. In a day or two it is so loose that you can lift it off with your thumb and finger. That's the last of it, as millions have found out. It's a simple, effective and common-sense way to get rid of corns.

"Geta-It" is the never-failing, guaranteed, money-back corn remover, made by E. R. Whitcomb & Co., Chicago.

Sold in Geneva and recommended by the following best corner druggists in the East: Dr. J. H. Gurnea, Geneva, N. Y.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; seen with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply. It is advised an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Four three-quarters of an ounce of Mentholated Aroline into a pint bottle, then fill the bottle with water that has been boiled.

Garble the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholated Aroline in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

IT'S UNWISE to put off to-day's duty until tomorrow. If your stomach is acid-disturbed take

KI-MOIDS

the new aid to digestion comfort fast. A pleasant relief from the discomfort of acid-dyspepsia. MADE BY SCOTT & BOWNE MARKERS OF SCOTT'S EMULSION

FOR Biliousness

Sick Headache, Sour Stomach, Bloating, Gas, Constipation—all these distressing consequences of indigestion are avoided if the bowels are kept open and clean.

FOR CATHARTIC TABLETS act promptly, without pain or nausea. They clear the bowels, sweeten the stomach and tone up the liver.

E. R. Whitcomb, R. F. D. 1, Norfolk, Va. Ely's Cathartic Tablets have done me more good than any medicine I ever used.

WELD DRUG HEAD THE WANT ADS - THEY ARE DESTROYING

COLLEGES ASK FOR MILLIONS

Nearly 75 Institutions of Learning in the Country Now Seek Funds.

LARGEST SUM IS \$25,000,000

Northwestern Wants \$10,000,000 for Buildings Alone—Higher Pay for Professors—Promised by All Campaign Committees.

New York—Nearly seventy-five colleges throughout the country are conducting campaigns for endowment funds to increase the pay of their professors and to provide new buildings and facilities. It is estimated that the total sought is more than \$200,000,000. Five of the largest institutions in the country—Harvard, Princeton, Cornell, Northwestern and New York university—are engaged in campaigns, and the total sought by these five universities alone is \$70,700,000. Northwestern seeks \$25,000,000. Harvard already has promised of \$12,000,000 toward her desired fund of \$15,250,000. Cornell's goal is \$10,000,000. Princeton desires \$14,000,000, and New York university has set \$8,400,000 as her minimum in a campaign to be launched late this month.

Pittsburgh Wants \$16,000,000. Other large sums sought by some of the smaller colleges carry the total above \$100,000,000 before the first ten campaigns are enumerated. Boston university also wants \$10,000,000. The University of Pittsburgh intends to raise \$18,000,000 in the next five years. Oberlin college of Ohio is to raise \$5,285,000, and ten other colleges are campaigning for individual funds of \$3,000,000 each.

Although Columbia university here has announced no plans for a campaign for funds, her president, Dr. Nicholas Murray Butler, has intimated that money might be sought for the completion of the institution's building programs. Two of Columbia's associated institutions, Barnard college and Teachers' college, are appealing for funds. Teachers' college seeks \$3,000,000, \$1,500,000 of which is to be used for a new library building, and the alumnae committee of Barnard asks \$500,000 to complete the \$1,000,000 endowment fund.

All of the large eastern colleges have committees at work in this city, and Hunter College for Women and New York university intend to push their campaign for funds in the guerrilla warfare way because most of their graduates live in the city. Hunter college is seeking \$150,000 for an alumnae hall, and is running its campaign as part of the celebration of the fiftieth anniversary of its foundation. Organizations of graduates of the various colleges have been requested to subscribe certain quotas, and the campaign has been carried directly to the purse of each graduate.

Varying Amounts Sought. Sums sought by the smaller and specialized institutions range down from the \$8,000,000 sought by the Massachusetts Institute of Technology to the \$100,000 to be raised by Fordham university of this city for a memorial to its graduates who perished in the war. Joining too in the campaigns are some of the women's colleges, including Mount Holyoke, Bryn Mawr and Smith college. Phillips Exeter academy and Andover academy also are on the list.

Three of the institutions that had planned elaborate campaigns for large endowment funds received large sums under the will of Henry C. Frick. To Princeton was left \$10,000,000. Harvard received \$5,000,000 and \$5,000,000 also was bequeathed to the Massachusetts Institute of Technology. Massachusetts "Tech" also has received in its campaign promises of large sums from T. Coleman Dupont on condition that specific additional sums be subscribed by others during the campaign.

By far the largest sum is sought by Northwestern university in Chicago. Her goal is \$25,000,000, including \$10,000,000 for new buildings and an endowment fund for their maintenance. Intended expansion of work is to be covered by a fund of \$11,000,000, and the remaining \$4,000,000 is to be used in carrying on the present curriculum. According to information furnished by the Vanderbilt Alumni Association, the institution of the graduates of Vanderbilt university, the state of Tennessee has at Northwestern also will be increased.

School of Fish In Tender. Osewaotomic, Kan.—Winter and frost families develop strange occurrences in railroading and occasionally require strenuous incidents to discover them. The which is by way of saying that J. E. Sturges, roller-maker foreman, at the roundhouse here, discovered a school of small minnows in the tender of Chicago No. 123 the other day. The tender was brought into the shop for repairs after colliding with a coal car at a tangle. It is certain the fish had been in the tender for several weeks and that many of them had been dead for some time.

Want Fresh Meat Bait Listed. Berlin.—Provincial authorities in frontier and coast districts have been requested by the Prussian minister of agriculture to revoke any orders issued by them prohibiting importation of fresh meat from the United States.

TELLS ITALIANS: 'TIGHTEN BELTS'

No Hope of Better Food Situation Seen by Food Controller at Rome.

STILL EATING WAR BREAD

Strikes and Riots Are Bred by Steadily Increasing Cost of Everything—Causing Deep Anxiety to Government.

Rome.—Italy's food situation is worse now than it has been since the famine and almost as bad as it was during the dark days of the war. The feeling that all is not well, has weighed upon housekeepers for weeks, when life's prime necessities grew rarer and dearer. But now the country has been told the bitter truth by Food Controller Marialdi in a speech before the chamber of deputies.

This year's harvest of grain has yielded 200,000,000 hundredweight less than last year; the government must import 250,000,000 hundredweight for bread, which is sold at 20 cents for a two-pound loaf, and means \$400,000,000 on hard grain alone; on soft grain the loss equals another \$400,000,000; on olive oil the state loses several hundred million dollars. Italy is the only allied country whose inhabitants must still eat war bread. Its price, the government says, must shortly be raised 5 or 10 cents for a two-pound loaf, because the budget cannot stand the loss of \$800,000,000 a year on grain alone. The public must bear part of the burden in dearer bread.

Rice is scarce, too; this year's harvest shows a shortage of half a million hundredweight; the oil harvest is so poor the public has less than one-third the quantity doled out last year. There is less than half the quantity of cheese, lard, butter and milk of last year; there is a serious sugar shortage too.

No Prospect of Relief.

And the food controller has no remedy to suggest. The public blames him and his food ministry. He blames the food ministry too, saying that such chaos reigned when he took it over last summer that he has been unable to straighten things out and will resign as soon as possible. He told an astonished chamber that he found his ministry buying cheese at 50 cents a pound, to resell to wholesale dealers, who doled it out to the public at \$1.50 a pound. He added that one great trouble is the lack of food experts to advise the government in buying foods, especially perishable kinds. And he said he saw no hope for a better food situation in the near future unless people eat less and pull their belts tighter over empty stomachs.

The perpetual upward flight of food prices in Italy causes deep anxiety to those responsible for the country's good order. Recent strikes and civil strife were almost wholly due to discontent caused by the still increasing cost of life's prime necessities and more trouble is yet to come unless the upward trend is curbed.

Sample Increases.

Cotton goods cost 300 per cent more than they did in 1916, woolen goods 250 per cent, hats and shoes 200 per cent, shoddy clothes 250 per cent, glass goods 300 per cent. Home-grown produce has increased more than forty per cent from America. For instance, eggs are now 55 per cent dearer than three years ago, potatoes 450 per cent dearer, beans 426 per cent, fresh pork 370 per cent, Italian lard 288 per cent, beef 311 per cent, butter 270 per cent, cheese 250 per cent, milk 300 per cent, wine 625 per cent. The food control office reports that wine growers made such big profits this last year that they paid for the land their vines are grown on from the one year's gain alone.

The ever-growing cost of living in Italy, once the cheapest country in Europe, the paradise of the poor man, seems to be in a vicious circle. Dear food and discontent go hand-in-hand, breeding strikes, riots, bloodshed. They again react on local production and cause prices to rise higher and than before. Then follow fresh strikes and disorders; the screw is turned yet again and the vicious circle must be rounded once more.

ARCH FOR 100-YEAR PEACE

Memorial Urged for Friendly Relations Between Canada and United States.

Blaine, Wash.—Erection of a huge memorial arch on the international boundary here to commemorate the century of peace between Canada and the United States is being urged by good roads men of Washington and British Columbia.

Tentative plans call for the erection of the arch in a big park to be established on the Pacific highway on both sides of the boundary. The city of Blaine is willing to purchase the American share of the park if the British Columbia parliament will buy the Canadian side.

Samuel Hill of Seattle, president of the Pacific Highway association, is leading the movement. Premier John Oliver of British Columbia has promised to consider the matter.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre at once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur changes its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or even its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

You Spend Money
