

# We Can Save You 75 Per Cent of Your Tire Value

The greater part of a tire value is in the carcass. Yet many tires are discarded because the tread is worn out.

With a Miller Ad-On-A-Tire we will make your worn tires practically as good as when you bought them. After applying the Ad-On-A-Tire you cannot tell the old tire from a new, except that it is over-size and more puncture-proof than a new tire.

The Miller Ad-On-A-Tire is built like a tire without beads. It is made of tough, buoyant rubber with several layers of fabric. The side walls completely cover the tire and clinch under the rim. And it also has the famous tread that is Geared-to-the-Road.

The many caterpillar feet of this tread engage with the ground like cogs. You are assured complete traction and greater safety.

Any tire, regardless of make, can be re-milled with a Miller Ad-On-A-Tire.

Bring your worn tires, and we will show you how we can lengthen their life.
