

SUCCESS CROWNS THE C. OF C. DRIVE; 500 ASSURED

With 400 Memberships Signed Up, and Over 100 More Certain to Come in, Campaign Has Reached Goal.

With about 400 memberships in the Chamber of Commerce all signed on the dotted line and with at least 100 more certain to come in within the next few days, the big drive has reached its goal and success is assured.

While there are a hundred or so memberships "still out," they can be positively counted on. Of these over 25 will be taken by Hudsonians who are at the present out of the city on business and pleasure trips.

At least 25 more are coming from corporations and other large companies and institutions in membership, most of which come from main offices outside the city.

Then there will be 50 or more come in as soon as the present memberships expire in the fall. There are at present numbers and can be counted in as soon as their memberships run out. Then there will be many others come from citizens who have been too busy to go to headquarters and have not as yet been seen by the workers. Therefore, it can be said with a certainty that a "500 and better" campaign of Commerce for Hudson is assured.

With success gained, George H. Mosser, who has been directing the expansion campaign, returned on Friday to New York with the highest praise for Hudson and its citizens and the forecast that Hudson is going to experience and enjoy the same boom in its history and the beginning of this period is not very far in the future.

The entire list of those who have answered the call to help Hudson boom follows:

The Eskimo is a prodigious eater. Two will commonly dispose of an entire seal at one sitting. Their principal fuel is the blubber or fat of whales and other sea animals.

An Eskimo would give a Fortune in Furs for a New Perfection Cook Stove and a few gallons of Socony Kerosene

A NEW Perfection Oil Cook Stove is as superior to the first oil cook stove as a modern coal range is to the Eskimo's crude fire of blubber and fat.

The New Perfection gives more uniform results in frying, boiling, broiling and baking than the average coal range, because you can control the heat so easily. And there is no waste of fuel when the stove is not in use.

There is no odor from a New Perfection. You don't have to shovel in coal and take out ashes, or litter up with kindling wood, or give it a blackening every week. The glass kerosene reservoir can be changed without spilling a drop of oil or getting any on your hands. The stove is clean, light and easily movable, an all-year-round stove.

NEW PERFECTION Oil Cook Stoves STANDARD OIL CO. OF NEW YORK 26 Broadway Socony is the best kerosene you can buy - absolutely uniform all the year round, clean and economical.

THE SUBJECT IS LIME - GARDEN AND LAWN LIME.

There's no use trying to sell palm leaf fans to Eskimaux, or to talk garden and lawn lime to folks after the season for its use is over, or when we have none to offer. Lime is a soil sweetener, a plant food. The time to use it is now. So, while the stock lasts, a 50-lb. bag for 55 cents. Only while the present stock lasts.
