REV. WATERSON OF COLTON DIES

Funeral Services Conducted in Church Here Yesterday— Bishop Oldham Attends

Services for the Rev. William J. M. Waterson, for 33 years rector of Zion Episcopal church, Colton, who died at his home Thursday, were held yesterday.

The full burial ritual of the Anglican church was used. The Rev. William J. Hamilton of Trinity church, Potsdam, was the celebrant. The Rt. Rev. Richard Ashton Oldham, bishop of the Episcopal diocese of Albany, was in the sanctuary together with members of the clergy from the rural deanery of Ogdensburg and the Rt. Rev. Dean Guaret of Ottawa.

Mr. Waterson was born in Mackinac, Ont., Nov. 12, 1868, son of Mr. and Mrs. William Waterson. He received his theological education at the Diocesan Theological College, connected with McGill in Montreal. His first parish was at Rougemont, Montreal. He came from there to Colton in 1900.

He is survived by a son, John, of Washington, D. C., and a daughter, Mrs. Carl Haupt in New York city. Mrs. Waterson died two years ago. Mr. Waterson was one of the most widely known clergy of the deanery of Ogdensburg.

CHILD LABOR STOPPED BY INDUSTRIAL CODES

WASHINGTON, Dec. 16.—Preliminary reports on operation of industrial codes to the Children's Bureau of the Department of Labor have been received from offices which issue working permits in 24 States. These show, said Secretary of Labor Perkins, that "very few children of 14 and 15 years are still holding full-time jobs in industry." Chicago and Milwaukee reported all such permits recalled, as they have been more than two-thirds in all reporting offices. All said the policy is to revoke them as quickly as possible. New York city asked more time, with few work certificates outstanding. Miss Perkins said: "Reports indicate increasing opportunities for young workers, but these are being filled by boys and girls of more schooling, many of whom have been eagerly awaiting jobs for months. This is the result of the NRA policy of conserving the younger children for education."

STEEL CASTING INDUSTRY GRATEFUL FOR ITS CODE

WASHINGTON, Dec. 16.—Less than a month after the code of the steel casting industry became operative on November 13, the industry's complete satisfaction was registered with President Roosevelt in the form of resolutions transmitted by Merrill G. Baker, executive vice-president of the Steel Founders' Society of America, the code authority, as follows: "Whereas the terms of the code, after careful consideration by the members of the industry, have been found to be eminently practical, satisfactory, and fair to producers of steel, workmen engaged in the industry, and consumers of steel, and whereas it is the belief of the industry that operation under the code will have a beneficial result in stabilizing labor and marketing conditions; now, therefore, be it resolved that the steel-casting industry in general meeting at Cincinnati is of the unanimous opinion and hereby goes on record to the effect that the operation of this industry under the NRA will be of pronounced value in its progress toward a return to normal, satisfactory, and profitable operation, and it hereby declares its willingness to support and co-operate to the fullest extent with the NRA toward the attainment of that end." Normally the industry employed 43,000 workers, with pay rolls of \$85,000,000 and invested capital of \$240,000,000. Under the code, by cutting down working hours to 40 per week, normal production would require 54,209 employees. Six thousand workers already have been re-employed.

DONATION DAY FOR THE ARMY XMAS PROJECT

On Tuesday there will be a donation day in all the Public Schools for the benefit of the Salvation Army Christmas baskets. All the students have been asked to bring a donation of something. Commandant Allan S. Wornton states that the most needed are as follows: Sugar, canned fruit, tomatoes, corn, milk, potatoes, carrots. Any one who wishes to give a donation of money may do so to any of the teachers. They will see that same will be turned over to the Army. There have been many applications for Christmas baskets but the money has been very slow coming this year. Commandant Whorton says any used toys will be accepted.

STUDYING PROBLEMS OF SPECIAL CLASS WORKERS

WASHINGTON.—Dr. Stanley P. Davies, director of the Charity Organization Society of New York who will act as chairman; Oscar Sullivan, president of the National Rehabilitation Association, St. Paul, Minn.; and Prof. Frederick Woodward, of the University of Chicago have been appointed by NRA a special committee to study the problem created by application of code standards of hours and wages to handicapped workers and college students. The committee will start immediately a survey to determine the sufficiency of provisions already included in approved codes. "The purpose", said Assistant Administrator Alvin Brown, of NRA, in a letter to Dr. Davies, "is to seek assurance that we are doing justice both to the labor standards for regularly employed workers and equally to the handicapped and other special classes of workers."

FRANK J. ELWOOD QUILTS AS CANTON TOWN CLERK

CANTON.—Frank J. Elwood resigned as clerk of the town of Canton at a special meeting of the town board Friday afternoon. Elwood, who for several years held the dual assignment of village and town clerk, resigned the village clerkship last week.

His reason for resigning the town clerkship was because of illness, the same reason given when he quit as village clerk.

"Warmth without" is a motto to be remembered in buying or making children's winter clothing.
