Miss Katherine Carter, of Pittsfield, Mass., is visiting her sister, Miss Elizabeth Carter.

Several of the Kinderhook young folks have been attacked by the roller skating craze and have been making pilgrimages to Valatie to enjoy the sport there in the opera house.

Cornelius New's little ten-year-old son, Harold, lost his right hand last Saturday while assisting his father in husking corn with a power corn breaker. He wore a mitten which became entangled in the gearing and drew the hand into the machine mangle in a terrible manner. He was brought to this village where Dr. M. M. Kittel gave the little sufferer temporary relief and accompanied him to the Albany city hospital where the surgeons found it necessary to amputate four fingers at the third joint. The little fellow had the operation well and is now getting along nicely.

Sleighride parties have been a minus quantity thus far this winter. There's hardly been snow enough to fill a snow shovel. But conditions may change before the sun shines on both sides of the fence.

There has been but little ice cutting in this section thus far. In a number of instances preparations have been completed for the work but rains or thaws have prevented the plans being carried out. Some farmers, however, have filled their houses with comparatively thin ice, four to five inches in thickness, rather than to run the risk of not being able to get any later on.

The cars leaving here at 8:47 and 11 on the A. & H. road now run Saturday evenings for the accommodation of those who desire to attend the dances at Electric Park.

Mrs. O. B. Van Alstyn, who has been seriously sick with pneumonia some weeks, is gradually recovering.

Mrs. Lant, who recently sustained stroke of paralysis, is improving.

Charles Gordon, one of Kinderhook's best known citizens, is very ill at his home on Chatham street.

A complication of diseases and the fears are entertained that he will not recover.

The recently elected officers of the Lenox grange were installed Friday evening. In connection with the installation ceremonies a literary programme of much merit was rendered.

Miss Alice Morrill is sojourning in Florida.

Four cows which belonged to the late Frank Biesdorff are now assisting in furnishing the latest which is dispensed from the Souilly milk wagons.

It was ascertained that even though Kinderhook's village affairs are governed by a special charter, an enumeration of the inhabitants must be taken and this has been done by Christopher Becker. The returns will be made to-day to the Secretary of State at Albany.

Mrs. Margaret Fuller, widow of the late Joel Fuller, died Friday at the home of Miss Virginia Kipp with whom she boarded. She was nearly 80 years of age and the cause of death was bronchial pneumonia. The funeral was held Sunday, the Rev. Mr. Snow officiating. The remains were taken to Stockbridge, Mass., for interment.

According to the apportionment made by the Board of Supervisors, the bank tax money will be divided as follows: Town \$1,902.31, village \$895.45, school district \$870.99. These are the amounts due for the past year. The tax for the previous year is practically the same in the aggregate. This apportionment does not meet with the approval of supervisor Wilkins, who considers that the share apportioned to the town should be larger. At a meeting of the town board held Wednesday the matter was discussed at length and a committee, consisting of supervisor Wilkins and justices Wilson Miller and W. J. Magee, was appointed to consult a lawyer and ascertain whether it is possible to obtain a redistribution of the money that will be regarded as more just and equitable from the viewpoint of the town board. This committee will report to the board at a meeting to be called in the near future.

The farmers' institute, held Thursday in grange hall was a pronounced success and was well attended, particularly the afternoon and evening sessions. All the speakers were present and what they had to say was listened to with close attention. Those in attendance included not only grangers but many farmers who are not as yet members of the Order. The addresses were replete with valuable and reasonable suggestion, drawn, for the most part from practical experience on the part of the speakers, and may, with good results, be put into effect by the tillers of the soil.
