Avalon Theatre

Friday, Saturday—Two Features "Sailors on Leave"

Bill Shirley, gifted young tenor featured in Republic's "Sailors on Leave," has sung before a single audience numbering over 42,000 persons!

For 10 years he was soloist at the Easter Sunrise Services in his native Indianapolis before his golden tenor voice landed him a Hollywood contract at Republic.

Film prognosticators foresee a brilliant career for him, as he has already been acclaimed one of the outstanding tenors of his generation.

"Riders of the Timberline" Paramount's thrilling "Hopalong" Cassidy drama of the wild west, takes the cowboy super sleuth, played, of course, by Bill Boyd, from his usual haunts in the cattle country and puts him in the middle of an exciting adventure in the High Sierras.

When Ginger Rogers turns her high powered charm in the courtroom scene of her latest picture, "Roxie Hart," she aims it all at one man—the foreman of the jury, William Frawley.

It would fluster any ordinary mortal, but not Frawley! That's because his first job was as a court reporter, and he had to watch a lot of gals turn on the "oomph" in his day in court.

Not that any of the girls he met could match Ginger! Frawley, on the set of "Roxie Hart," stated that it was his belief that Ginger would be able to dazzle any jury in the country, especially in Chicago where he had worked—and where the picture is set.

But Bill Frawley didn't last long as a court reporter—bigger things beckoned. He went with the Union Pacific railroad in Omaha, and from there into vaudeville. In 1927 he went to Hollywood, and he's been there ever since.

"They keep me busy," says Bill, "and that's all I want. Seven or eight good roles a year, and I'm plenty happy."

TAXES AND THE AXIS

This is the most costly war of all time and everyone of us might as well recognize the fact that we will be paying for it for years in the form of higher taxes.

Our advice is this: Make taxes part of your budget. There are many reasons why you should provide for taxes in advance—but the best reason is that it's plain common sense.

GRASSROOTS by WRIGHT A. PATTERSON Released by Western Newspaper Union.

INFLATION A SERIOUS PROBLEM INFLATION IS MORE THAN A THREAT. It is a very serious danger which we face.

Germany recovered largely because to a considerable extent we fed the German people. We loaned her 100 per cent American dollars with which to buy American food products.

We are engaged in an "all-out" war, and that means either sacrifices for the period of the war, or slavery.

"BUSINESS" AND AMERICAN PEOPLE WE, THE RANK AND FILE of the American people, are a part of American business.

Business conducts an intelligent effort to sell its products. It buys newspaper and periodical space, time on the air, billboards and other forms of advertising in which to tell of the advantages to the purchaser of these things business produces.

But business makes no effort to sell itself to the people, its silent partners. Business takes it for granted that we know all about this American institution in which we are so vitally interested; that we are familiar with our relationship to

that institution and that it can call upon us whenever it is in need of assistance. Not realizing our relationship to business; not realizing how vital the continuance of business is to our personal welfare, we do not heed its call.

FARM LABOR IN CALIFORNIA

THE GOVERNMENTS of the United Nations, including our own, are calling on American farmers for greater quantities of food.

California proposed to solve, or at least partially solve, the farm help problem during the fruit and grain harvest season by inducing school boys of 15 years and over to forego their summer vacations and volunteer for work on the farms and in the canning plants.
